1 **AN ACT** *to amend* 26.22, 28.11 (3) (k) and 28.11 (6) (a); and *to create* 28.11 (6)
2 (c) of the statutes; **relating to:** sales of damaged timber by the department of
3 natural resources and from county forest lands.

Analysis by the Legislative Reference Bureau

Under current law, the department of natural resources (DNR) may sell timber that has been damaged by fire or wind and that is located in a state forest or state park on the terms and in the manner that DNR considers is in the best interest of the state. For sales of nondamaged timber from state forest land, DNR must follow certain advertising and sale procedures. This bill expands this authority to sell damaged timber to cover all lands under DNR's jurisdiction and to include damage caused by snow, hail, or ice.

Under current law, counties have no specific authority to sell damaged timber that is located in county forests. The provisions under current law regarding private or public sales and appraisals that apply to the sale of timber from county forests apply to all timber regardless of whether it is damaged. This bill allows counties to sell timber damaged by fire, snow, hail, ice, or wind on the terms and in the manner that the county forestry committee determines is in its best interest.

For further information see the *state and local* fiscal estimate, which will be printed as an appendix to this bill.
