Analysis by the Legislative Reference Bureau

This bill is explained in the PREFATORY NOTE provided by the joint legislative
council in the bill.

***The people of the state of Wisconsin, represented in senate and assembly, do
enact as follows:***

PREFATORY NOTE: This bill is recommended by the joint legislative council's special
committee on recodification of operating while intoxicated and safety laws pertaining to
motor vehicle, all-terrain vehicle, boat, or snowmobile operation. The special committee
was directed to study current statutes relating to operating a vehicle while under the
influence of an intoxicant or drug and to reorganize, simplify, modernize, and clarify these
statutes and make minor substantive changes necessary to effect these goals. In
addition, the special committee was directed to study, with respect to an all-terrain
vehicle, a boat, or a snowmobile, whether enforcement mechanisms need to be increased
or created to ensure compliance with the law.

Current law provides that a person who is at least 12 years old and less than 16
years old may operate an all-terrain vehicle under the following circumstances:

1. If the person has a safety certificate from the department of natural resources
(DNR).
2. If the person is accompanied by another person who is over 18 years of age.

SENATE BILL 336

3. If the person, with a physical disability, is on a roadway and has a hunting permit and a safety certificate.

4. If the person is operating an implement of husbandry on a roadway if the person has a safety certificate.

5. If the person holds a valid certificate from another state or Canadian province.

6. If the person is on land exclusively under the control of the person's immediate family.

With respect to a motorboat, current law provides that a person at least 12 years old and less than 16 years old may operate a motorboat if the person is accompanied by a parent, guardian, or person at least 18 years of age who is designated by a parent or guardian or if the person has a safety certificate from DNR.

The snowmobile law was amended in the 1999 session of the legislature to provide that, beginning on January 1, 2001, any person who is at least 12 years of age and who is born on or after January 1, 1985 must hold a valid snowmobile safety certificate in order to operate the snowmobile. The only exception to this provision is if the person operates the snowmobile upon lands owned or leased by a parent or guardian. The requirement to obtain a safety certificate applies to all persons who are at least 12 years old and born on or after January 1, 1985, regardless of the person's age.

In general, this bill amends the law relating to all-terrain vehicles and motorboats in order to make the law consistent with the law applicable to snowmobiles. Thus, the bill provides that no person who is at least 12 years of age and who is born on or after January 1, 1986, may operate an all-terrain vehicle or a motorboat without a valid safety certificate. As in current law, the bill exempts from this requirement an operator of an all-terrain vehicle who holds a valid certificate from another state or Canadian province or who operates the all-terrain vehicle on land exclusively under the control of the person's immediate family. The provisions of the bill take effect on January 1, 2002.
