Referred to Committee on Health.

1 **AN ACT** *to create* 69.145 and 69.22 (1) (cm) of the statutes; **relating to:** a
2 certificate of birth resulting in stillbirth.

Analysis by the Legislative Reference Bureau

Under current law, if a pregnancy results in a live birth, a certificate of birth is prepared and filed with the state registrar. A person with a direct and tangible interest in a particular birth certificate may obtain a certified copy of the birth certificate by submitting a written request to the state registrar and paying the applicable fee.

If, instead of a live birth, a pregnancy results in a miscarriage, a fetal death report is prepared and submitted to the state registrar, but only if the delivery occurs 20 weeks or more after the mother's last normal menstrual period or if the stillbirth weighs 350 grams or more. The state registrar may record information on a fetal death report for use in medical research and may use the information to compile statistics. After the information from a fetal death report is recorded, however, the report is destroyed.

This bill creates a new, optional certificate called a certificate of birth resulting in stillbirth. Under the bill, if a birth results in a stillbirth for which a fetal death report is required, the person who is responsible for preparing and filing the fetal death report must inform the parent or parents of the option to have a certificate of birth resulting in stillbirth prepared and of how to obtain a certified copy of the certificate. If the parent or parents wish to have a certificate prepared, the person responsible for preparing and filing the fetal death report must, within five days after the delivery of the stillbirth, prepare a certificate of birth resulting in stillbirth

ASSEMBLY BILL 798

and file it with the state registrar. Only a parent of the stillbirth may obtain a certified copy of the certificate of birth resulting in stillbirth by requesting a copy from the state registrar in writing and paying a fee of \$10.

Although the notice requirements under the bill apply to stillbirths occurring on or after August 1, 2004, the bill also sets out a special procedure by which a certificate of birth resulting in stillbirth may be prepared for stillbirths occurring before that date or if the parent or parents of a stillbirth occurring on or after that date do not request a certificate at the time of delivery but later decide that they would like to have one prepared. Under the special procedure, the state registrar must prepare and file a certificate of birth resulting in stillbirth if a parent of a stillbirth for which a certificate was not prepared requests the preparation in writing and presents satisfactory evidence of the facts of the stillbirth.

For further information see the *state* fiscal estimate, which will be printed as an appendix to this bill.
