

## 2003 SENATE BILL 482

February 24, 2004 - Introduced by Senator CARPENTER. Referred to Committee on Agriculture, Financial Institutions and Insurance.

1     **AN ACT** *to amend* 40.51 (2) and 40.51 (6); and *to create* 16.07 and 40.51 (9m) of  
2           the statutes; **relating to:** health insurance coverage for the governor and  
3           members of the legislature, authorizing a statewide referendum, and providing  
4           additional funding for prescription drug assistance for the elderly.

---

### *Analysis by the Legislative Reference Bureau*

The governor and members of the legislature are currently provided health care coverage under a plan offered by the Group Insurance Board. This bill, beginning in the 2005-06 legislative session, eliminates health care coverage for the governor and members of the legislature until the secretary of administration certifies to the secretary of employee trust funds that a majority of those voting in a statewide referendum have approved a question that asks if the legislature has enacted a law that provides affordable health care coverage for all residents of this state. Under the bill, during those fiscal years in which the governor and members of the legislature are not receiving health care coverage, the moneys that would otherwise have been used to pay for their health care coverage are to be used to increase funding for prescription assistance for the elderly.

For further information see the *state* fiscal estimate, which will be printed as an appendix to this bill.
