1 **AN ACT to create** 25.40 (1) (bn) and 78.23 of the statutes; **relating to:** the annual
2 adjustment of the motor vehicle fuel tax rate and depositing motor vehicle sales
3 and use tax revenues into the transportation fund.

Analysis by the Legislative Reference Bureau

Under current law, the rate of the motor vehicle fuel tax is annually adjusted by multiplying the tax rate by the percentage change in the annual average U.S. Consumer Price Index.

Under this bill, if the motor vehicle fuel tax is no longer annually adjusted, annually, beginning in 2007, an amount from the sales and use taxes imposed on the sale of motor vehicles and motor vehicle parts and service will be deposited into the transportation fund. That amount is equal to the difference between the amount of motor vehicle fuel taxes that would have been generated in the current fiscal year if the annual adjustment of the motor vehicle fuel tax was in effect and the amount of the motor vehicle fuel taxes actually generated in the current fiscal year.

For further information see the *state* fiscal estimate, which will be printed as an appendix to this bill.
