1 **AN ACT** *to create* 66.0408 of the statutes; **relating to:** limiting the authority of
2 a city, village, town, or county to create new occupational licenses or fees or to
3 continue to regulate certain professions.

Analysis by the Legislative Reference Bureau

Generally under current law, a city, village, town, or county (political subdivision) may regulate certain professions. A city or village may regulate professions under its home rule authority and a town or county may regulate professions that they are specifically authorized to regulate. The authority of a political subdivision to regulate a particular profession may be prohibited or limited by a state statute.

Under this bill, and subject to an exception, beginning on the effective date of the bill a political subdivision may not impose any occupational fees or licensing requirements on any profession if that profession is not subject to such locally imposed fees and licensing requirements on that date, although a political subdivision may continue to impose fees and licensing requirements on any profession that is already subject to such requirements of the political subdivision. Under an exception contained in the bill, if a political subdivision imposes an occupational fee or licensing requirement on photographers on the effective date of the bill, that regulation does not apply and may not be enforced.

For further information see the *state and local* fiscal estimate, which will be printed as an appendix to this bill.
