### *Analysis by the Legislative Reference Bureau*

This bill provides that the Wisconsin Economic Development Corporation may receive applications from and award a contract to an industry cluster partnership (ICP), a nonprofit organization whose primary purpose is to assist in developing and supporting a regional concentration of industry-specific private sector businesses that share a common interest in fostering research and development, worker skills training, and market development. The corporation may award a contract to an ICP only if it meets certain conditions and may award only one contract per year.

The bill also directs the corporation to award a contract to an ICP that supports the water technology and water infrastructure industry by July 1, 2017, provided that the corporation receives an application from an ICP that meets the contract application conditions.

For further information see the *state and local* fiscal estimate, which will be printed as an appendix to this bill.
