### *Analysis by the Legislative Reference Bureau*

This bill requires hospitals to have and enforce a policy requiring written and verbal informed consent to be obtained from a patient before a medical student, a nursing student, any person providing nursing care, or any other person authorized to perform pelvic examinations may perform a pelvic examination on a patient who is under general anesthesia or otherwise unconscious. Under the bill, every hospital must also inform medical students, nursing students, persons providing nursing care, other persons authorized to perform pelvic examinations, and physicians supervising any of these individuals of the informed consent policy and must take appropriate action to discipline any individual who violates the policy or instructs a medical student, a nursing student, or a person providing nursing care to conduct an examination in violation of the policy.
