4 the operation of snowmobiles, all-terrain vehicles, and utility terrain vehicles
5 near highways.

Analysis by the Legislative Reference Bureau

This bill makes several changes to operation restrictions for snowmobiles, all-terrain vehicles (ATVs), and utility terrain vehicles (UTVs).

Under current law generally, a person may not operate a snowmobile on a highway unless it is designated for snowmobile use but may operate a snowmobile adjacent to a highway, subject to certain restrictions. A person operating a snowmobile adjacent to any U.S. numbered highway or any state or county highway must remain at least 10 feet from the roadway. In addition, a person operating a snowmobile adjacent to a highway at night must travel in the same direction as the vehicular traffic in the nearest lane unless the person is operating on a snowmobile trail that is at least 40 feet from the roadway or is separated from the roadway by a headlamp barrier.

The bill retains the 10-foot requirement, eliminates the 40-foot requirement, and provides that a person operating a snowmobile adjacent to a highway at night must travel in the same direction as the vehicular traffic in the nearest lane unless the person is operating the snowmobile on a designated and marked snowmobile

trail. The bill also modifies the definition of “snowmobile trail” to include a marked corridor in a highway right-of-way.

Current law requires a person who is operating an ATV, UTV, or snowmobile during hours of darkness, or in a highway right-of-way during daylight hours, to display a lighted head lamp. The bill requires the person, while operating an ATV, UTV, or snowmobile during hours of darkness or adjacent to a roadway, to dim the head lamp when an oncoming all-terrain vehicle, utility terrain vehicle, snowmobile, or motor vehicle is within 500 feet.

Current law prohibits modifying a snowmobile to amplify or increase vehicle noise above the level emitted by the snowmobile as originally manufactured. The bill also prohibits operation of a snowmobile than has been so modified. Current law also provides that snowmobile exhaust and engine noise may not exceed 88 decibels. The bill lowers the noise limit to 82 decibels.

The people of the state of Wisconsin, represented in senate and assembly, do enact as follows:

1 **SECTION 1.** 350.01 (17) of the statutes is amended to read:
