---

### *Analysis by the Legislative Reference Bureau*

This bill redistricts, according to the number of inhabitants, the legislative districts of this state based on the results of the 2020 federal decennial census of population. The bill maintains the number of assembly districts at 99 and the number of senate districts at 33. All assembly districts created by the bill are composed of whole counties or municipalities or U.S. census tracts or blocks (subunits of tracts) reflecting population and boundaries as of April 1, 2020. In accordance with article IV, section 5, of the state constitution, no assembly district created under the bill is divided in the creation of a senate district.

Current law requires legislative districts to be substantially equal in population. The table below illustrates, for the assembly and senate districts proposed under the bill, the numeric amount and the percentage by which the districts with the smallest and largest populations deviate from the ideal population for the same type of district. The population figures contained in the table are derived from the results of the federal decennial census.

	<u>District</u>	<u>Population</u>	<u>Deviation</u>	<u>Pct. Dev.</u>
Smallest:	Assembly District 12	58,991	-542	-0.91
Largest:	Assembly District 16	60,102	569	0.96
Smallest:	Senate District 4	177,274	-1,324	-0.74
Largest:	Senate District 6	179,261	663	0.37
