**CHAPTER 448.**

AN ACT to recreate section 151.02 and to amend subsection (1) of section 151.01 of the statutes, relating to requirements for registered pharmacists.

*The people of the State of Wisconsin, represented in Senate and Assembly, do enact as follows:*

SECTION 1. Section 151.02 of the statutes is repealed.

SECTION 1a. Subsection (1) of section 151.01 of the statutes is amended to read: (151.01) (1) The state board of pharmacy consists of five resident pharmacists, at the time of appointment actually engaged in practice, appointed by the governor, one each year for a term of five years. \* \* \*

SECTION 2. A new section is added to the statutes to be numbered and to read: 151.02 (1) All candidates for entrance to examination for registration as pharmacists must file application with the secretary of the board and pay the required fee of ten dollars, at least ten days before the date of examination, five dollars of which shall be refunded if such applicants fail to pass the examination; must be at least twenty-one years of age; must be of good moral character and temperate in habits; and if not citizens of the United States must have filed and proven their intentions of becoming citizens; and must be graduates of a standard, recognized high school, or must have acquired the equivalent of a high school education in some other institution of equal rank or standing, or must have passed an examination for the equivalent of high school given by a state university or by a state department or bureau of education issuing a qualifying certificate for the necessary high school units recognized by the university of Wisconsin, or any other equivalent of a high school education recognized by the university of Wisconsin.

(2) Every such applicant for examination and registration as pharmacist must, in addition, file with the secretary proof satisfactory to the board, of having had at least four years of pharmaceutical training consisting of:

(a) Graduation from a school or college of pharmacy or a department of pharmacy of a university, which is recognized by the board and which requires for graduation at least a three-year course, consisting of not less than three nine-month terms. Credit for actual time of attendance at the school, college or department

of pharmacy of a university shall be given on the required four years of pharmaceutical training; the remainder of the four years must be practice and experience in a retail pharmacy or drug store under the direction and supervision of a registered pharmacist, which practice and experience shall be predominantly work directly related to the selling of drugs, preparing and compounding of pharmaceutical preparations and physicians' prescriptions, and keeping of records and making of reports required under state and federal statutes.

(b) If the applicant has graduated from a four-year course in a school, college or department of pharmacy of a university, recognized by the board, he or she may be credited with three years on the required four years of pharmaceutical training; the remaining one year of the required four years of pharmaceutical training must have been practice and experience acquired in a retail pharmacy or drug store under the direction and supervision of a registered pharmacist, and such practice and experience must have been predominantly work directly related to the selling of drugs, preparing and compounding of pharmaceutical preparations and physicians' prescriptions and keeping of records and making of reports required under state and federal statutes.

(c) Provided, however, that exemption from the requirement of being a graduate in pharmacy in order to be examined for registered pharmacists shall be granted to persons who, before this section becomes effective, have been employed for at least one year in a retail pharmacy or drug store under a registered pharmacist, and who have registered as apprentices or who register as apprentices within ninety days after this section becomes effective and who file proofs satisfactory to the board of having acquired four years of pharmaceutical training and experience under the direction and supervision of a registered pharmacist, or to persons registered as assistant pharmacists prior to the time this section becomes effective, who file proofs satisfactory to the board of having acquired four years of pharmaceutical training and experience under the direction and supervision of a registered pharmacist; provided further, that all such persons prove that they have acquired the requisite fitness and knowledge by successfully passing an examination before the board within four years from the date on which this applicant is qualified to be examined. If they cannot or do not qualify by successfully pass-

ing an examination within said four years, they shall, in keeping with public welfare, be required thereafter to first become graduates of a recognized school, college or department of pharmacy of a university recognized by the board before again being permitted entrance to examination for registration as pharmacists.

(3) Applicant filing proofs, satisfactory to the board, of qualifications and training as outlined in the preceding subsection shall, after having passed examination by the board, be granted certificates as registered pharmacists. Proof satisfactory to the board covering experience, preliminary education, college of pharmacy graduation, and character herein required shall be filed with the secretary of the board. Every registered pharmacist may continue to be such by annually, at such time as the board may determine, renewing his certificate upon paying the fee of two dollars. Failure to obtain such renewal for sixty days after the secretary of such board shall have given a second notice of the expiration of his registration, shall terminate the right of any person to be a registered pharmacist within the meaning of this section, and such right can only be acquired by compliance with the provisions concerning original registration, again applying for and passing an examination satisfactory to the board.

(4) Candidates for entrance to examination and registration as assistant pharmacists must file applications with the secretary of the board and pay the required fee of five dollars, at least ten days before the examination, two dollars of which shall be refunded if such applicants fail to pass the examination; must be at least eighteen years of age, and must be graduates of a standard recognized high school, or must have acquired the equivalent of a high school education in some other institution of equal rank or standing, or must have passed an examination for the equivalent of high school given by a state university or by a state department or bureau of education issuing a qualifying certificate for the necessary high school units recognized by the University of Wisconsin, or any other equivalent of a high school education recognized by the University of Wisconsin; must be of good moral character and temperate in habits; shall file proof satisfactory to the board of having had at least three years of legal practice and experience in a retail pharmacy or drug store under the direction and supervision of a registered pharmacist, which practice and experience shall be predominantly work directly related to selling drugs and preparing and compounding

pharmaceutical preparations and physicians' prescriptions, provided that not to exceed two years may be credited for time spent in a school, college or department of pharmacy of a university recognized by the board, or for pharmaceutical experience acquired in a hospital where a licensed pharmacist is regularly employed for compounding prescriptions; or in the hospital corps of the United States army or United States navy, under the direction and supervision of a registered pharmacist. Provided, however, that of the three years of pharmaceutical training and experience required, each applicant shall have had no less than one year of practice and experience in a retail pharmacy or drug store under the direction and supervision of a registered pharmacist which shall be predominantly work directly related to selling drugs and preparing and compounding pharmaceutical preparations and physicians' prescriptions and shall have passed a satisfactory examination before the board.

(5) Every registered assistant pharmacist may continue to be such by annually, at such time as the board of pharmacy may determine, making application thereto for the renewal of his certificate and paying the prescribed fee of one dollar. Failure to obtain such renewal for sixty days after the secretary of such board shall have given a second notice of the expiration of his registration, shall terminate the right of any person to be a registered assistant pharmacist within the meaning of this section, and such right can only be acquired by compliance with the provisions concerning original registration, again applying for and passing an examination satisfactory to the board. The issuance of either of the certificates provided for in this section shall entitle the person to whom it is issued to be registered in the proper class.

(6) The board may in its discretion register as a pharmacist or assistant pharmacist, without examination, any person who is duly registered in some other state, provided that the said person shall produce satisfactory evidence of having had the required secondary and professional education and training and is possessed of good character and habits demanded of applicants for registration as pharmacists and assistant pharmacists under the laws of this state, and upon payment of ten dollars, excepting that persons of good character and habits who have become registered as pharmacists or assistant pharmacists in some other state prior to the date on which this section becomes effective shall be re-

quired to meet only the requirements which existed in this state at the time when they became registered in such other state, and provided also that the state from which the applicant applies shall, under like conditions, grant reciprocal registration as a pharmacist without examination to pharmacists duly registered in this state.

(7) The board, upon notice and hearing, may revoke the registration of one guilty of felony or gross immorality, or who is addicted to alcoholic liquors or narcotic drugs to such extent as to make him unfit to practice pharmacy, or whose registration was secured by fraud.

(8) No person shall use the title "pharmacist" or "assistant pharmacist" unless duly registered as such under the provisions of this chapter, nor shall any person, firm or corporation use or display the title "drug store", "pharmacy", "apothecary", or any other title having the same or a similar meaning for such place of business, unless such place of business be one where drugs are sold in accordance with the provisions of section 151.04.

(9) No drug store, pharmacy, apothecary shop, or any similar place of business, shall be kept open for the transaction of business until it has been registered with and a permit therefor has been issued by the state board of pharmacy; provided, however, that this section shall not be construed to apply to any store or stores opened for the sale of proprietary or so-called patent medicines. Every pharmacy and store conducted under the supervision of a registered pharmacist shall be annually registered on the first day of June with the state board of pharmacy, on application forms provided for that purpose by the board, on request, and the board shall thereupon issue a suitable certificate of registration which shall be conspicuously displayed in the respective place of business. Applications for registration as a pharmacy or drug store shall include information regarding the names of all pharmacists, assistant pharmacists and registered apprentices who are employed therein. Only places in charge of a registered pharmacist may use the title "pharmacy", "pharmacist", "apothecary" or "drug store", and each must be under the separate management of a registered pharmacist, who shall not engage to manage or supervise more than one such place, but nothing contained in this section shall prevent a person from owning and conducting more than one pharmacy, pro-

vided each be under the separate supervision of a registered pharmacist. For the registration of every place herein required to be registered, there shall be paid an annual registration fee of one dollar, payable on the first day of June of each year. Any person failing to register his place of business as herein required, failing to have in charge of each pharmacy a registered pharmacist who does not manage or supervise more than one pharmacy, or who otherwise fails to comply with the provisions of this section, shall, upon conviction, be fined the sum of not more than fifty dollars for each separate offense.

SECTION 3. This act shall take effect upon passage and publication.

Approved July 28, 1927.

## CHAPTER 449.

AN ACT to amend subsection (1) of section 87.04 of the statutes, relating to the building of bridges on state trunk highways.

*The people of the State of Wisconsin, represented in Senate and Assembly, do enact as follows:*

SECTION 1. Subsection (1) of section 87.04 of the statutes is amended to read: (87.04) (1) Whenever any county, by its county board shall file a petition with the state highway commission setting forth that said county desires the construction or reconstruction of a bridge on the state trunk highway system, or on a road or street within a city of the fourth class, forming a direct connection between portions of the state trunk highway system, across any navigable waters in said county, or on which said county may border, and that said construction or reconstruction is necessary, the state highway commission shall fix a time and place for hearing and hear said petition in the manner provided in section 87.02. \* \* \*

SECTION 2. This act shall take effect upon passage and publication.

Approved July 29, 1927.
