CHAPTER 398

AN ACT to amend 40.70 (4) of the statutes, relating to computation of school aids for reorganized districts.

The people of the state of Wisconsin, represented in senate and assembly, do enact as follows:

40.70 (4) of the statutes is amended to read:

40.70 (4) In the computation of aids for all districts the average daily membership and the teacher-pupil ratio for the previous school year shall be used, except that in districts newly altered, created, re-established

or recreated, the computation of aids for the first year shall be based on the average daily membership and the teacher-pupil ratio of the district for the third week in September of the first year of operation on such newly altered, created, re-established or recreated basis and the estimated budget of said year of operation and the estimated required tax levy rate on the equalized valuation of territory comprising said district as determined by the department of taxation for the same year upon which the aids would have been apportioned if the district had not been reorganized, except when the valuation of the district is increased or decreased in excess of 10 per cent in which case the computation shall be made on the basis of the full valuation of the districts affected by the order or reorganization. *Where a reorganization order creating a new district is not effective under s. 40.025 (4) due to litigation until after the third week in September 1963 but before April 1, 1964, state aid for such district for the first year of operation shall be computed after such order is effective using calculations by the state superintendent of the average daily membership and teacher-pupil ratio for the area in such new district to be made as if such district had been in existence during such third week in September 1963.*

Approved November 27, 1963.
