Analysis by the Legislative Reference Bureau

Under this bill, the department of health and social services (DHSS) is required to request the following 2 waivers from the secretary of the federal department of health and human services relating to the aid to families with dependent children (AFDC) and the job opportunities and basic skills (JOBS) programs:

1. The first waiver would permit DHSS to require AFDC applicants to provide verification of compliance with certain orientation and job search activities before

providing aid under the AFDC program. Under the waiver, DHSS may require attendance at one or more orientation sessions during the 30-day period beginning on the date that the applicant applied for AFDC. In addition, DHSS may require participation in not more than 30 days of job search activities by an AFDC applicant who is subject to the JOBS program. Exceptions to the mandatory orientation and job search requirements may be made if a determination is made that the AFDC applicant would not benefit from the application of the requirement. In addition, DHSS may not require participation in orientation or job search activities for those AFDC recipients who are subject to school attendance requirements under the learnfare program if the orientation or job search activity would conflict with school attendance.

2. The 2nd waiver required under this bill would allow DHSS, in certain circumstances, to reduce the amount of an AFDC grant based on the level of participation in the JOBS program. The waiver would apply to AFDC recipients covered by the waiver if all of the following criteria are met: 1) the AFDC recipient is required to participate in a JOBS activity for a regularly scheduled number of hours in a month; 2) the activity is expected to continue for more than one month; and 3) the recipient does not participate in the activity for the required number of hours in that month without good cause, as defined by DHSS by rule. If these criteria are met, if the waiver applies to a recipient, for every hour that an AFDC recipient is required to participate in a JOBS activity and does not participate and does not have good cause for not participating, an amount equal to the federal minimum wage is subtracted from the AFDC grant for the recipient's family for a subsequent month. If the total number of hours of participation plus the number of hours for which a recipient had good cause for not participating is less than 25% of the recipient's participation requirement, no AFDC grant is made in a subsequent month for the recipient's family. DHSS may request that the waiver cover all AFDC recipients in the state or only certain test groups determined by DHSS. If the waiver is granted, the bill gives DHSS emergency rule-making authority to promulgate rules implementing the waiver. In addition to these waivers, the bill makes a change in the participation requirements under the JOBS program. Under the JOBS program, recipients of AFDC who are not exempt are required to participate in certain jobs-related activities. DHSS has received a waiver from the federal government to permit the state to require participation in the JOBS program from certain parents and other caretakers of children who would otherwise be exempt from participation under federal law and regulations. Current state law utilizes part of this waiver to require participation of parents and other caretakers of children who have attained 2 years of age. Current federal law now grants states the option of requiring parents and other caretakers of children who have attained one year of age to participate in the JOBS program. This bill repeals the current statutory language regarding the waiver and takes advantage of the federal law option to require JOBS participation of parents and other caretakers of children who have attained one year of age.

The bill also requires DHSS to conduct a demonstration project pursuant to a waiver that would permit DHSS to limit increases in an AFDC grant for certain families that have additional children. Under the demonstration project, DHSS may

not consider, in determining the amount of the AFDC grant, a child born into a family more than 10 months after the date on which the family first was determined to be eligible for AFDC. The bill creates a number of exceptions to this provision. The bill exempts children who are conceived as a result of sexual assault or incest. It also exempts a child who is born into a family that did not receive AFDC benefits for 6 or more months, other than as a result of being sanctioned, and who is born during that time or not more than 10 months after the family resumed receiving AFDC benefits. The bill also exempts a child who does not reside with his or her biological parents. Under the bill, DHSS may award grants to counties to provide family planning education services to persons covered by the demonstration project. The demonstration project does not apply to persons who are subject to the parental responsibility pilot program. To the extent permitted under the waiver, DHSS may conduct the demonstration project with respect to all AFDC recipients or to a test group determined by DHSS. DHSS is given emergency rule-making authority to implement the waiver.

Under current law, DHSS administers the child and spousal support and establishment of paternity and medical liability support program. One of the responsibilities of DHSS under the program is to enforce support obligations owed to children by their parents. The bill requires DHSS to establish a program to increase public awareness about the importance of paying child support that includes publication of identifying information about child support obligors who have significant arrearages. DHSS may use posters or media presentations or other appropriate means to publish names and photographs of such obligors. One purpose of the program is to enlist public assistance in locating delinquent obligors.

22 s. 49.19 paid to the recipient's family in a subsequent month shall be determined as
23 follows:

24 a. The department shall add the recipient's total number of hours of actual
25 participation in the month to the total number of hours in a month for which the

1 recipient had good cause, as defined by the department by rule, for not participating
2 in required activities.

3 b. The department shall subtract the total number of hours determined under
4 subd. 1. a. from the recipient's total number of hours of required participation in that
5 month.

6 c. The department shall multiply the number of hours determined under subd.
7 1. b. by the federal minimum hourly wage under 29 USC 206 (a) (1).

8 d. The department shall subtract the dollar amount determined under subd.
9 1. c. from the amount of aid under s. 49.19 that the recipient's family would have
10 received if he or she had participated for the total number of assigned hours.

11 2. a. If there is only one individual included in a grant of aid under s. 49.19 who
12 is required to participate in an activity under this section for a regularly scheduled
13 number of hours in a month and if the total number of hours determined under subd.
14 1. a. for that individual is less than 25% of the total number of hours of required
15 participation in that month for that individual, no grant of aid under s. 49.19 shall
16 be made to the individual's family in a subsequent month.

17 b. If there is more than one individual included in a grant of aid under s. 49.19
18 who is required to participate in an activity under this section for a regularly
19 scheduled number of hours in a month and if the total number of hours determined
20 under subd. 1. a. for all of those individuals is less than 25% of the total number of
