- 1 **AN ACT to create** 46.48 (27) of the statutes; **relating to:** a grant for community
2 programs for a fathers initiative and making an appropriation.

Analysis by the Legislative Reference Bureau

Under current law, the department of health and family services (DHFS) distributes grants for community programs to various organizations for various purposes. Currently, DHFS distributes grants for community programs to such organizations as the career youth development center in the city of Milwaukee and the Milwaukee police athletic league and for such purposes as alcohol and other drug abuse treatment, prisoner reintegration and community improvement job training.

This bill requires DHFS to distribute \$500,000 in fiscal year 1997-98 as grants to organizations to provide programs to connect fathers with their children (fathers initiative). Under those programs, the organizations must target children, regardless of age, gender or family income, who have no adult male role model available; target fathers who are appropriate for establishing a parent-child relationship and ensure that the custodial parent or guardian agrees to the establishment of that relationship; recruit volunteers to work with fathers and their children to assist them in establishing a parent-child relationship; and coordinate the program with other programs and resources in the community. Under the bill, DHFS may award fathers initiative grants only to organizations that operate in counties that have a high percentage of children living in single-parent households and that have a high rate of substantiated cases of child abuse and neglect.
