### *Analysis by the Legislative Reference Bureau*

Under current law, if real property is in violation of a municipal building code provision that concerns health or safety, the municipality or an interested party may commence an action to have the property declared a health hazard. Under the law, a receiver may be appointed to manage and control the property if a court finds that the property is a health hazard and that the owner has not abated that hazard. This bill allows the court to declare such property to be a nuisance and allows the court to permit first class cities to create a receivership to take control of residential property that is declared a nuisance and abate that nuisance.

The bill also allows first class cities or interested parties to ask a court to appoint a receiver to manage and control residential property that is declared a nuisance for other reasons, including because it is dilapidated, used as a place of gambling, for the delivery or manufacture of a drug or as a meeting place for a criminal gang. The bill requires that the owner of the residential property be given notice of the intent to petition a court for the appointment of receiver at least 60 days before filing the petition, to give the owner time to abate the nuisance.

If a court determines that abatement is required and that the owner will not rehabilitate the property, the court shall appoint a receiver. A receiver created by the court under this bill has authority to take control of the property, terminate or modify

**ASSEMBLY BILL 179**

tenancies, charge and collect rents, contract with others to conserve and rehabilitate the property and dispose of personal property found at the residential property. Under the bill, costs of the abatement, including the fee charged by the receiver, are reviewed by the court and the costs not paid may be entered as a judgment against the property. Under the bill, the court shall terminate the receivership when the abatement or rehabilitation is completed or if the receiver shows the court that the abatement is not feasible and that the improvements on the real property have been demolished by the city.

For further information see the *local* fiscal estimate, which will be printed as an appendix to this bill.

*The people of the state of Wisconsin, represented in senate and assembly, do enact as follows:*

1           **SECTION 1.** 254.595 (1) of the statutes is amended to read:

2           254.595 (1) If real property is in violation of those provisions of a municipal  
3 building code that concern health or safety or of an order or a regulation of the local  
4 board of health, the city, village or town in which the property is located may  
5 commence an action to declare the property a nuisance or human health hazard. A  
6 tenant or class of tenants of property that is in violation of the municipal building  
7 code or of an order or regulation of the local board of health or any other person or  
8 class of persons whose health, safety or property interests are or would be adversely  
9 affected by property that is in violation of the municipal building code or of an order  
10 or regulation of the local board of health may file a petition with the clerk of the city,  
11 village, or town requesting the governing body to commence an action to declare the  
12 property a nuisance or human health hazard. If the governing body refuses or fails  
13 to commence an action within 20 days after the filing of the petition, a tenant, class  
14 of tenants, other person or other class of persons may commence the action directly  
15 upon the filing of security for court costs. The court before which the action of the  
16 case is commenced shall exercise jurisdiction in rem or quasi in rem over the property  
17 and the owner of record of the property, if known, and all other persons of record

**ASSEMBLY BILL 179**

1 holding or claiming any interest in the property shall be made parties defendant and  
2 service of process may be had upon them as provided by law. Any change of  
3 ownership after the commencement of the action shall not affect the jurisdiction of  
4 the court over the property. At the time that the action is commenced, the  
5 municipality or other parties plaintiff shall file a lis pendens. If the court finds that  
6 a nuisance or violation exists, it shall adjudge the property a nuisance or human  
7 health hazard and the entry of judgment shall be a lien upon the premises.

8 **SECTION 2.** 254.595 (2) of the statutes is amended to read:

9 254.595 (2) A property owner or any person of record holding or claiming any  
10 interest in the property shall have 60 days after entry of judgment to abate the  
11 nuisance or eliminate the violation. If, within 60 days after entry of judgment under  
12 sub. (1), an owner of the property presents evidence satisfactory to the court, upon  
13 hearing, that the nuisance or violation has been eliminated, the court shall set aside  
14 the judgment. It may not be a defense to this action that the owner of record of the  
15 property is a different person, partnership or corporate entity than the owner of  
16 record of the property on the date that the action was commenced or thereafter if a  
17 lis pendens has been filed prior to the change of ownership. No hearing under this  
18 subsection may be held until notice has been given to the municipality and all the  
19 plaintiffs advising them of their right to appear. If the judgment is not so set aside  
20 within 60 days after entry of judgment, the court shall appoint a disinterested person  
21 to act as receiver of the property for the purpose of abating the nuisance or human  
22 health hazard.

23 **SECTION 3.** 254.595 (3) (a) of the statutes is amended to read:

6 necessary to abate the nuisance or meet the standards.

7 **SECTION 4.** 254.595 (4) of the statutes is amended to read:

8 254.595 (4) The receiver appointed under this section shall have a lien, for the  
9 expenses necessarily incurred to abate the nuisance or in the execution of the order,  
10 upon the premises upon or in respect of which the work required by the order has  
11 been done or expenses incurred. The municipality that sought the order declaring  
12 the property to be a nuisance or human health hazard may also recover its expenses  
13 and the expenses of the receiver under subs. (3) (a) and (5), to the extent that the  
14 expenses are not reimbursed under s. 632.103 (2) from funds withheld from an  
15 insurance settlement, by maintaining an action against the property owner under
