Analysis by the Legislative Reference Bureau

This bill permits counties, cities, villages and towns to enact local ordinances requiring convenience stores, service stations and restaurants that are regularly open for business at any time between 8 p.m. and 5 a.m. (at-risk businesses), other than at-risk businesses in which only the owner and his or her family members work during those hours, to do all of the following:

1. Adequately illuminate the parking lot at an intensity determined by the ordinance.
2. If the at-risk business is constructed or converted from another use on or after the effective date of the ordinance, place the cash register and transaction area, and maintain window signs and tinting, so as to provide a clear and unobstructed view of the cash register and transaction area from the street.
3. If the at-risk business is equipped with a security camera, make the recording device of the security camera inaccessible to employees and post a conspicuous sign at the entrance stating that a security camera with an inaccessible recording device is in place on the premises.

In addition to the requirements listed above, the bill also permits a local ordinance enacted under the bill to require the owner of an at-risk business that is subject to the ordinance to do any of the following:

ASSEMBLY BILL 6

1. Equip the at-risk business with an inaccessible drop safe and post a conspicuous sign at the entrance stating that an inaccessible drop safe is on the premises.

2. Require all employes who work at any time between 8 p.m. and 5 a.m. to attend a workplace security training program that is provided by the law enforcement agency of the local governmental unit enacting the ordinance or by a local chamber of commerce or other local business group and that has been approved by the attorney general. The bill appropriates moneys and directs the department of workforce development to provide grants to assist local governmental units and local chambers of commerce or other local business groups in providing those training programs.
