2           (1) (bg) and 343.21 (1) (d) of the statutes; **relating to:** the valid period of drivers'  
3           licenses issued to persons 70 years of age or older.

### *Analysis by the Legislative Reference Bureau*

Under current law, most drivers' licenses issued by the department of transportation (DOT) must be renewed every eight years. To renew a license to drive automobiles or motorcycles, an applicant must pass a test of his or her eyesight. The secretary of DOT may require any applicant for a license (or any licensed driver at any time the secretary has good cause to believe that the licensed driver is incompetent or otherwise not qualified to be licensed) to submit to a special examination to determine incompetency, physical or mental disability, disease or any other condition that might prevent the applicant or licensed person from exercising reasonable and ordinary control over a motor vehicle.

This bill requires that a regular driver's license issued to an applicant who is 70 years of age or older be renewed every four years after the initial period of the license. To reflect the shortened duration, the bill also reduces by 50% the driver's license renewal fees payable by applicants who are 70 years of age or older.

The bill does not shorten the valid period of any license or endorsement currently issued, and will apply only to licenses that are renewed or applied for after this bill takes effect. The bill does not change the valid period of reinstated licenses, probationary licenses and original licenses, that are valid for a period of two years.

5 processed without the photograph being taken. In the case of renewal licenses, the

7 or older, once every 4 years, and shall coincide with the appearance for examination  
8 which is required under s. 343.16 (3). The department may make provision for

11 action appropriate.

12           **SECTION 2.** 343.16 (3) (a) of the statutes is amended to read:

15 or, if the applicant is 70 years of age or older, once every 4 years. The department may  
16 institute a method of selecting the date of renewal so that such examination shall be  
17 required for each applicant for renewal of a license to gain a uniform rate of  
18 examinations. The examination shall consist of a test of eyesight. The department  
19 shall make provisions for giving such examinations at examining stations in each

15 after the date of issuance. The department may institute any system of initial license  
16 issuance which it deems advisable for the purpose of gaining a uniform rate of  
17 renewals. In order to put such a system into operation, the department may issue  
18 licenses which are valid for any period less than the ordinary effective period of such  
19 license. If the department issues a license that is valid for less than the ordinary  
20 effective period as authorized by this paragraph, the fees due under s. 343.21 (1) (a),
