April 18, 2001 – Introduced by JOINT COMMITTEE ON INFORMATION POLICY AND TECHNOLOGY. Referred to Joint committee on Information Policy and Technology.

- 1     **AN ACT to create** 77.524 and 77.65 of the statutes; **relating to:** the Uniform  
2           Sales and Use Tax Administration Act and granting rule-making authority.

### *Analysis by the Legislative Reference Bureau*

This bill creates the Uniform Sales and Use Tax Administration Act (uniform act). The uniform act permits the department of revenue (DOR) to enter into the streamlined sales and use tax agreement (agreement). The agreement is intended to simplify and modernize sales tax and use tax administration for the states that enter into the agreement. If DOR enters into the agreement, DOR may act jointly with other states that are signatories to the agreement to establish standards for the certification of service providers and automated systems to aid out-of-state sellers with the collection of state sales and use taxes. DOR may not enter into the agreement unless the agreement requires that a state that is a signatory to the agreement fulfill certain requirements, including: 1) developing and adopting uniform definitions related to sales tax and use tax; 2) providing, with all states that are signatories to the agreement, a central electronic registration system that allows a seller to register to collect and remit sales and use taxes for all states that are signatories to the agreement; 3) restricting the frequency of changes in any local sales tax and use tax rates and providing notice of any such changes; and 4) adopting a uniform policy, with the states that are signatories to the agreement, for certified service providers that protects a consumer's privacy and maintains tax information confidentiality.

The bill creates definitions for "certified automated system" and "certified service provider." "Certified automated system" means software that is certified

jointly by the states that are signatories to the agreement and that is used to calculate the sales tax and use tax imposed on a transaction by each appropriate jurisdiction, determine the amount of tax to remit to the appropriate state, and maintain a record of the transaction. “Certified service provider” means an agent that is certified jointly by the states that are signatories to the agreement and that performs all of a seller’s sales tax and use tax functions. A certified service provider is, generally, liable for the sales tax and use tax that are due the state on all sales transactions that the provider processes for a seller. However, a seller is liable for sales tax and use tax due the state on transactions that the provider processed, if the seller has misrepresented to the provider, or to the state, the type of items that the seller sells, or has committed fraud related to transactions that the provider processed. A person that provides a certified automated system is responsible for the system’s proper functioning and is liable to this state for tax underpayments that are attributable to errors in the system’s functioning. A seller that uses a certified automated system is responsible and liable to this state for reporting and remitting sales tax and use tax.
