Analysis by the Legislative Reference Bureau

This bill authorizes local governments, including school districts and technical college districts, to issue municipal special fund obligations to finance the payment of unfunded prior service liability contributions under the Wisconsin Retirement System (WRS) or any other public employee retirement plan or the payment of postemployment benefits. The obligations may be issued in anticipation of the issuance of promissory notes and are payable within 35 years after the date of original issuance solely from fees, penalties, sales or excise taxes, state aid payments, or other specifically identified revenues pledged by the local government, other than property tax revenue.

The bill provides that a local government may pledge state aid that is not otherwise restricted in its use, or sales and excise taxes, to the repayment of the obligation. The bill also provides that the obligations do not constitute debt of the local government for any purpose.

The bill establishes a 20-year maturity limit for general obligation promissory notes issued to pay unfunded prior service liability contributions under the WRS or

another retirement plan or to pay postemployment benefits. Current law provides a ten-year limit. The bill provides that a municipal obligation issued in anticipation of certain revenues must be repaid within ten years. Current law provides a five-year limit. Finally, the bill authorizes a county to issue bonds or notes to pay unfunded prior service liability contributions under any retirement plan, not just the WRS, or to pay postemployment benefits.
