- 1 **AN ACT** *to create* 23.0916 of the statutes; **relating to:** information about real
2 property purchased with stewardship money and public access to that property.

Analysis by the Legislative Reference Bureau

Current law authorizes the state to incur public debt for certain conservation activities under the Warren Knowles-Gaylord Nelson Stewardship 2000 Program (stewardship program), which is administered by the Department of Natural Resources (DNR). The stewardship programs consist of the Warren Knowles-Gaylord Nelson program that began in 1990 and the Warren Knowles-Gaylord Nelson 2000 program that began in 2000.

Current law grants the state the authority to bond for various conservation purposes under the stewardship programs. The stewardship 2000 program consists of four subprograms: one for land acquisition; one for property development and local assistance; one for bluff protection; and one for the Baraboo Hills. Purposes for which bonding under the land acquisition subprogram may be used include land acquisition for habitat and natural areas and land acquisition that preserves or enhances the state's water resources. Bonding under the property development and local acquisition subprogram may be used only for nature-based outdoor recreation, as defined in rules promulgated by DNR, with limited exceptions. Under this subprogram, DNR may award grants or state aid to certain local governmental units, including the Kickapoo Reserve Management Board, and nonprofit conservation organizations to acquire lands for nature-based, outdoor recreation purposes.

This bill requires DNR to create and make available for a fee a directory of all land purchased under the stewardship programs that is open to the public. The bill

ASSEMBLY BILL 187

requires DNR to provide an interactive mapping tool at its Web site that identifies public land purchased with stewardship money. The owner of land purchased under the stewardship programs is required to provide notice of public access with specific signs along the access roads and property lines. If some activities are prohibited or restricted on the land, the signs required by the bill must include that information. If an owner of land purchased under the stewardship programs fails to comply with the requirements under the bill, the owner is not eligible for any grants or subprogram under the stewardship programs until the owner complies with the requirements.

If DNR allows an organization to charge a fee for hunting on land purchased with stewardship money, the fee may not exceed the amount charged for admission of a resident's vehicle to a state park for a day.

For further information see the *state* fiscal estimate, which will be printed as an appendix to this bill.
