- 1 prevailing fringe benefit rates for workers employed on state or local projects  
2 of public works and granting rule-making authority.
- 

***Analysis by the Legislative Reference Bureau***

Under current law, certain laborers, workers, mechanics, and truck drivers employed on a state or local project of public works must be paid at the prevailing wage rate, which is defined as the hourly basic rate of pay, plus the hourly contribution for health insurance benefits, vacation benefits, pension benefits, and any other bona fide economic benefit (fringe benefits), paid for a majority of the hours worked in a person's trade or occupation in the area in which a public works project is located, except that if there is no rate at which a majority of the hours worked in a trade or occupation on projects in an area is paid, "prevailing wage rate" is defined as the average hourly basic rate of pay, weighted by the number of hours worked, plus the average hourly contribution for fringe benefits, weighted by the number of hours worked, paid for all hours worked at the hourly basic rate of pay of the highest-paid 51 percent of hours worked in the trade or occupation in the area. Currently, the Department of Workforce Development (DWD) must determine the prevailing wage rate for each trade or occupation commonly employed on projects of public works in each area of the state by January 1 of each year, that determination may also include the determination of future prevailing wage rates if those rates can be determined.

This bill deletes from the definition of "prevailing wage rate" the references to the hourly contribution for fringe benefits and instead creates a separate definition of "prevailing fringe benefit rate." As such, the bill requires DWD to make separate determinations of the prevailing wage rate and the prevailing fringe benefit rate and requires laborers, workers, mechanics, and truck drivers employed on a state or local project of public works who are covered under the prevailing wage law to be paid at the prevailing wage rate and at the prevailing fringe benefit rate. The bill defines the "prevailing fringe benefit rate" as the hourly contribution for fringe benefits paid for a majority of the hours worked in a person's trade or occupation in the area in which a public works project is located, except that if there is no rate at which a majority of the hours worked in the trade or occupation on projects in the area is paid, "prevailing fringe benefit rate" is defined as the average hourly contribution for fringe benefits, weighted by the number of hours worked, paid for all hours worked at the hourly contribution for fringe benefits of the highest-contribution 51 percent of hours worked in the trade or occupation on projects in the area.

This bill is introduced as required by s. 227.19 (5) (e), stats., in support of the objection by the Assembly Committee on Labor on October 26, 2004, and the objection of the Joint Committee for Review of Administrative Rules on April 27, 2005, to the issuance of Clearinghouse Rule 04-081 by DWD. The proposed rule required DWD to determine the prevailing wage rate by calculating the sum of the hourly basic rate of pay and the hourly contribution for fringe benefits, rather than making those calculations separately.

7 **SECTION 8.** 66.0903 (3) of the statutes is amended to read:

8 66.0903 (3) PREVAILING WAGE RATES, FRINGE BENEFIT RATES, AND HOURS OF LABOR.  
9 (am) A local governmental unit, before making a contract by direct negotiation or  
10 soliciting bids on a contract, for the erection, construction, remodeling, repairing, or  
11 demolition of any project of public works, including a highway, street, or bridge  
12 construction project, shall apply to the department to determine the prevailing wage  
13 rate and prevailing fringe benefit rate for each trade or occupation required in the  
14 work contemplated. The department shall conduct investigations and hold public  
15 hearings as necessary to define the trades or occupations that are commonly  
16 employed on projects that are subject to this section and to inform itself as to the  
17 prevailing wage rates and prevailing fringe benefit rates in all areas of the state for  
18 those trades or occupations, in order to determine the prevailing wage rate and  
19 prevailing fringe benefit rate for each trade or occupation. The department shall  
20 issue its determination within 30 days after receiving the request and shall file the  
21 determination with the requesting local governmental unit.

22 (ar) The department shall, by January 1 of each year, compile the prevailing  
23 wage rates and prevailing fringe benefit rates for each trade or occupation in each  
24 area. The compilation shall, in addition to the current prevailing wage rates and  
25 prevailing fringe benefit rates, include future prevailing wage rates and prevailing

**ASSEMBLY BILL 442****SECTION 8**

1 fringe benefit rates when those prevailing wage rates and prevailing fringe benefit  
2 rates can be determined for any trade or occupation in any area and shall specify the  
3 effective date of those future prevailing wage rates and prevailing fringe benefit  
4 rates. If a construction project extends into more than one area there shall be but  
5 one standard of prevailing wage rates and prevailing fringe benefit rates for the  
6 entire project.

7 (av) In determining prevailing wage rates and prevailing fringe benefit rates  
8 under par. (am) or (ar), the department may not use data from projects that are  
9 subject to this section, s. 103.49, or 103.50 or 40 USC 276a 3141 to 3148 unless the  
10 department determines that there is insufficient wage and fringe benefit data in the  
11 area to determine those prevailing wage rates and prevailing fringe benefit rates, in  
12 which case the department may use data from projects that are subject to this  
13 section, s. 103.49, or 103.50 or 40 USC 276a 3141 to 3148.

14 (bm) Any person may request a recalculation of any portion of an initial  
15 determination within 30 days after the initial determination date if the person  
16 submits evidence with the request showing that the prevailing wage rate or  
17 prevailing fringe benefit rate for any given trade or occupation included in the initial  
18 determination does not represent the prevailing wage rate or prevailing fringe  
19 benefit rate for that trade or occupation in the area. The evidence shall include wage  
20 rate or fringe benefit rate information reflecting work performed by persons working  
21 in the contested trade or occupation in the area during the current survey period.  
22 The department shall affirm or modify the initial determination within 15 days after  
23 the date on which the department receives the request for recalculation.

24 (br) In addition to the recalculation under par. (bm), the local governmental  
25 unit that requested the determination under this subsection may request a review

**ASSEMBLY BILL 442**

1 of any portion of a determination within 30 days after the date of issuance of the  
2 determination if the local governmental unit submits evidence with the request  
3 showing that the prevailing wage rate or prevailing fringe benefit rate for any given  
4 trade or occupation included in the determination does not represent the prevailing  
5 wage rate or prevailing fringe benefit rate for that trade or occupation in the city,  
6 village, or town in which the proposed project is located. That evidence shall include  
7 wage rate or fringe benefit rate information for the contested trade or occupation on  
8 at least 3 similar projects located in the city, village, or town where the proposed  
9 project is located and on which some work has been performed during the current  
10 survey period and which were considered by the department in issuing its most  
11 recent compilation under par. (ar). The department shall affirm or modify the  
12 determination within 15 days after the date on which the department receives the  
13 request for review.

15 rates determined by the department or a local governmental unit exempted under  
16 sub. (6) and to the prevailing hours of labor shall be published in the notice issued  
17 for the purpose of securing bids for the project. If any contract or subcontract for a  
18 project of public works, including a highway, street, or bridge construction project,  
19 is entered into, the prevailing wage rates and prevailing fringe benefit rates  
20 determined by the department or exempted local governmental unit and the  
21 prevailing hours of labor shall be physically incorporated into and made a part of the  
22 contract or subcontract, except that for a minor subcontract, as determined by the  
23 department, the department shall prescribe by rule the method of notifying the  
24 minor subcontractor of the prevailing wage rates, prevailing fringe benefit rates, and  
25 prevailing hours of labor applicable to the minor subcontract. The prevailing wage

4 paid less than the prevailing wage rate and prevailing fringe benefit rate in the same  
5 or most similar trade or occupation determined under this subsection; nor may he  
6 or she be permitted to work a greater number of hours per day or per week than the
