### ***Analysis by the Legislative Reference Bureau***

Under current law, the Department of Natural Resources (DNR) may limit the number of bobcats, fishers, otters, and other species of wildlife harvested by establishing a cumulative preference system. DNR administers a cumulative preference system for issuing permits if the number of applicants for the permits exceeds the number available. Under the current system, an applicant receives a preference point for each season for which the applicant applies but does not receive a permit. Higher priority is given to those applicants with more preference points. When an applicant is selected, he or she must accept the permit for the upcoming season.

Under this bill, for bobcat hunting and trapping permits, fisher trapping permits, and otter trapping permits, an applicant may apply under the system for a permit or may apply for only a preference point if he or she is not seeking a permit for the upcoming season. DNR then gives a preference point to each person who applies for just a preference point and to each permit applicant who is not selected.

1 3 consecutive years shall lose all previously accumulated preference points. If the  
2 number of applicants within a preference category or a subcategory exceeds the  
3 number of permits available in the category or subcategory, the department shall  
4 select at random within the category or subcategory the applicants to be issued the  
5 permits.

6 **SECTION 5.** 29.192 (4) (b) of the statutes is created to read:

7 29.192 (4) (b) 1. If the department decides to limit the number of persons taking  
8 fishers, otters, or bobcats by issuing permits and if the number of persons seeking  
9 the permits exceeds the number of available permits, the department shall issue the  
10 permits according to a cumulative preference system established by the department.  
11 The system shall establish preference categories for those applicants who applied for  
12 but were not issued the applicable permits, with higher priority given to those  
13 categories with more points than those with fewer preference points. For each  
14 season, the department shall allow each applicant under the system to apply for a  
15 preference point or for a permit. The department shall give a preference point to each  
16 applicant who applies for a preference point and to each applicant who applies for  
17 a permit but who is not selected. Applicants who fail to apply for either a preference  
18 point or a permit at least once during any 3 consecutive years shall lose all previously  
19 accumulated preference points. If the number of applicants within a preference  
20 category or a subcategory exceeds the number of permits available in the category  
21 or subcategory, the department shall select at random within the category or  
22 subcategory the applicants to be issued the permits.

23 2. A person who applies for a preference point or a permit under subd. 1. shall  
24 pay the processing fee under s. 29.553 at the time of application.
