### *Analysis by the Legislative Reference Bureau*

Under current law, the Group Insurance Board (GIB), which is attached to the Department of Employee Trust Funds, is required to contract on behalf of the state for the purpose of providing health care coverage to state employees. Many other public sector employers may also participate in programs offered by GIB to provide health care coverage for their employees.

This bill provides that, beginning on the January 1 that first occurs after the bill's effective date, any small employer located in this state whose average annual receipts, calculated over the most recent three-year period, are less than \$30,000,000, including receipts of any affiliate or subsidiary, may elect to have its employees receive coverage under any health care coverage plan offered to state employees. The small employer may elect such coverage during any applicable enrollment period and subject to any conditions specified in the contract between GIB and the insurer and in rules promulgated for the administration of the state employee health care coverage program.
