2 **relating to:** special distinguishing registration plates for motorcycles owned
3 or leased by fire fighters, rescue squad members, or emergency medical
4 technicians.

Analysis by the Legislative Reference Bureau

Under current law, members of authorized special groups may obtain special distinguishing registration plates for automobiles and certain other vehicles that are owned or leased by members of these groups. Authorized special groups include fire fighters, rescue squad members, and emergency medical technicians (EMTs). In addition to the regular annual registration fee, the Department of Transportation (DOT) charges members of the authorized special groups a fee for the issuance or reissuance of special plates. Fire fighters, rescue squad members, and EMTs currently pay an additional annual fee of \$15 for these special plates. If a person issued these special plates ceases to be a fire fighter, rescue squad member, or EMT, the person must dispose of the special plates as directed by DOT. Special plates may also be personalized.

Also under current law, the only special plate available for a motorcycle is a special plate identifying the owner or lessee of the motorcycle as a veteran of the U.S. armed forces. In addition to the regular biennial motorcycle registration fee, a biennial fee of \$15 must be paid for issuance or reissuance of this special plate.

This bill establishes a special plate for motorcycles owned or leased by fire fighters, rescue squad members, or EMTs. In addition to the regular biennial

If a person issued this special plate ceases to be a fire fighter, rescue squad member, or EMT, the person must dispose of the special plate as directed by DOT. This special plate may also be personalized.
