3             certain members of special groups associated with the armed services.

### *Analysis by the Legislative Reference Bureau*

Under current law, members of certain special groups may obtain special distinguishing license plates for certain vehicles, including automobiles and motor homes, that are owned by special group members. A fee, in addition to the regular registration fee for the particular kind of vehicle, is charged for the issuance or reissuance of most special plates. Several special groups for persons associated with the armed services are specifically enumerated as groups that may obtain special plates.

Under this bill, if an applicant for initial issuance of special group plates for a group associated with a branch of the armed services or a related organization identifies herself as a woman veteran, the Department of Transportation (DOT) must provide to the applicant, to be affixed to one of these special plates, a decal that contains the words “woman veteran” in white text on a red field and is as similar in appearance as possible to the woman veteran decal used by the Kentucky Department of Vehicle Regulation. An applicant for renewal of registration of these special plates may also receive the decal, free of charge, if the decal was not previously provided to the applicant by DOT.
