Analysis by the Legislative Reference Bureau

This bill directs the Wisconsin Technical College System (WTCS) Board to award grants to technical college districts for programs that assist in reducing unemployment. To be eligible for a grant, a technical college district must meet certain eligibility criteria relating to the unemployment rate of areas within the district or recent increases in the unemployment rate of areas within the district. Grants are available for three specified purposes:

1. To recruit, enroll, instruct, provide support services to, and pay the tuition and fees of dislocated workers who enroll in the district. A dislocated worker is a person who has been laid off or terminated from employment and meets certain additional criteria; a person who was self-employed but is currently unemployed as a result of economic conditions or natural disasters; or a displaced homemaker.

2. To recruit, enroll, instruct, and provide support services to adults who enroll in the district in a program leading to a certificate of general educational development (commonly referred to as a GED) or a high school equivalency diploma.

SENATE BILL 236

3. To expand existing capacity or create capacity in district programs for which there are student waiting lists or that address projected workforce needs in the district.

The bill authorizes the WTCS Board to modify the grant eligibility criteria and the purposes for which grants may be awarded in order to ensure the eligibility of district boards for grants awarded by the federal government for programs that improve completion rates and train workers for skilled occupations.

The bill directs the WTCS Board to give preference in awarding grants to programs that serve persons who reside in areas with the highest unemployment rates. The board must also submit annual reports to the governor and to the legislature regarding the programs that have been awarded grants.

Under current law, there are five income tax brackets for single individuals, certain fiduciaries, heads of households, and married persons. The brackets are indexed for inflation. The rate of taxation under current law for the lowest bracket for single individuals, certain fiduciaries, heads of households, and married persons is 4.6 percent of taxable income; the rate for the second bracket is 6.15 percent; the rate for the third bracket is 6.5 percent; the rate for the fourth bracket is 6.75 percent; and the rate for the highest bracket, which was created in the 2009-11 biennial budget act, 2009 Wisconsin Act 28, is 7.75 percent.

For taxable year 2011, the highest bracket applies to taxable income exceeding \$224,210 for single individuals, certain fiduciaries, and heads of households. For married persons, the highest current bracket applies to taxable income exceeding \$298,940 for joint filers and \$149,470 for separate filers.

For taxable year 2012 and thereafter, this bill creates a sixth bracket with a taxation rate of 8.75 percent. For single individuals, certain fiduciaries, and heads of households, this bracket applies to taxable income exceeding \$1,000,000. For married persons, this bracket applies to taxable income exceeding \$1,000,000 for joint filers and \$500,000 for separate filers. This bracket is indexed for inflation.
