Analysis by the Legislative Reference Bureau***Continuing education***

This bill requires a physician, physician assistant, advanced practice nurse prescriber, podiatrist, dentist, or optometrist who is authorized to prescribe controlled substances, when renewing his or her license issued by the applicable credentialing board, to submit proof of completion of continuing education requirements promulgated by rule of the board regarding best practices in prescribing controlled substances.

Buprenorphine combination products; federal waivers

Under current federal law, the federal Drug Enforcement Administration (DEA) registers health care practitioners to dispense controlled substances, and practitioners who dispense narcotic drugs to individuals for addiction treatment must additionally obtain a separate DEA registration for that purpose. However, qualifying health care practitioners may, subject to certain requirements and limitations, obtain a waiver from the requirement to obtain a separate DEA registration to dispense those drugs for addiction treatment. Health care practitioners eligible to obtain and practice under such a waiver include qualifying physicians and, until October 1, 2021, qualifying physician assistants and nurse practitioners. In order to qualify for a waiver, a nurse practitioner or physician assistant must be supervised by, or work in collaboration with, a qualifying physician, if the nurse practitioner or physician assistant is required by state law to act in collaboration with or under the supervision of a physician.

Under rules promulgated by the state Medical Examining Board, the practice of a physician assistant must be under the supervision of one or more physicians, and under rules promulgated by the state Board of Nursing, advanced practice nurse prescribers must work in a collaborative relationship with a physician.

This bill provides that, with respect to the ability of an advanced practice nurse prescriber or physician assistant to obtain and practice under a waiver, a physician who satisfies any of the criteria specified in federal law to be eligible to obtain a waiver is considered eligible to serve as a qualifying physician for purposes of the collaboration or supervision requirement under federal law, regardless of whether the physician himself or herself holds a waiver.

The bill prohibits the Department of Health Services from requiring prior authorization for or another limitation on prescribing and dispensing of buprenorphine combination products to a Medical Assistance recipient, who is not pregnant, by a health care provider who possesses a valid waiver, if the prior authorization or other limitation is not required under the federal law.

Substance abuse counseling

This bill makes the following changes regarding substance abuse counseling:

SENATE BILL 767

1. Allows marriage and family therapists and professional counselors to represent themselves to the public as substance abuse counselors, clinical supervisors, or prevention specialists without holding a certification for that purpose granted by the Department of Safety and Professional Services.

2. Requires DSPS to grant a certification as a substance abuse counselor, clinical supervisor, or prevention specialist to an individual who holds a similar unexpired certification granted by another state that has requirements for certification that are not lower than this state's certification requirements.

3. Requires the secretary of DSPS to appoint an advisory behavioral health review committee to semiannually review the requirements for obtaining certain substance abuse counseling certifications; for obtaining credentials granted by the Marriage and Family Therapy, Professional Counseling, and Social Work Examining Board; and for obtaining other credentials related to behavioral health. Under the bill, the advisory committee is required to accept public comments related to its review and may propose changes in statutes and administrative rules to DSPS.

4. Allows a person certified as a social worker, advanced practice social worker, or independent social worker, within the scope of his or her credential, to treat substance use disorder as a specialty. In order to treat substance use disorder as a specialty, current law requires a person holding one of those certifications to satisfy additional criteria related to education and amount of supervised practice, and to complete continuing education every two years, or to obtain a substance abuse counselor, clinical supervisor, or prevention specialist certification from DSPS.

5. Specifies the contents required in an application for certification as a substance abuse counselor, clinical substance abuse counselor, intermediate or independent clinical supervisor, prevention specialist, substance abuse counselor-in-training, clinical supervisor-in-training, or prevention specialist-in-training.

6. Adds various actions to the scope of unprofessional conduct for which DSPS may discipline a substance abuse counselor or other related professional.

7. Specifies the requirements that a person with an expired substance abuse counselor or other related certification must satisfy to renew or reinstate an expired, surrendered, or revoked certification.

8. Specifies the contents required in an application to be approved by DSPS to provide education that satisfies the educational requirements for a substance abuse counselor or other related certification.

9. Specifies the continuing education requirements that a substance abuse counselor, clinical substance abuse counselor, prevention specialist, or clinical supervisor is required to satisfy in order to renew his or her certification.

Drug abuse awareness and prevention instruction

This bill requires each school board to incorporate drug abuse awareness and prevention in its health instructional program. Current law requires school boards to provide instruction about the effects of controlled substances and alcohol on the human system, but a school board may not require a pupil to receive that instruction if the pupil's parent or guardian files a written objection. Current law also requires school boards to provide instruction to pupils on the relationship between highway

SENATE BILL 767

safety and controlled substances and the relationship between youth suicide and controlled substances. This bill specifies that the references to controlled substances in these requirements include prescription drugs included in the Uniform Controlled Substances Act.

Graduate psychiatric nursing education

This bill requires the Board of Regents of the University of Wisconsin System, in consultation with the chancellor of UW-Madison, to do all of the following with respect to the graduate program in psychiatric mental health nursing at UW-Madison: 1) increase the number of students provided the opportunity to study to be board-eligible psychiatric mental health nurse practitioners; 2) expand the instructional capacity available to teach psychiatric mental health nursing; and 3) subject to certain student commitments, annually provide fellowships for psychiatric mental health nursing students to participate in clinical rotations in rural communities or areas with shortages of mental health professionals in this state. The bill provides additional funding to the UW System for these purposes.

Training resources for social services workers

This bill provides \$50,000 of funding to the Department of Children and Families to develop and maintain online training resources for social services workers who deal with substance abuse-related cases.

For further information see the **state** fiscal estimate, which will be printed as an appendix to this bill.

The people of the state of Wisconsin, represented in senate and assembly, do enact as follows:

SECTION 36. SPS 160.015 of the administrative code is created to read:

SPS 160.015 Applicability. (1) Except as provided in sub. (2), no person may represent himself or herself to the public as a substance abuse counselor, clinical supervisor, or prevention specialist or a certified substance abuse counselor, clinical supervisor, or prevention specialist or use in connection with his or her name a title or description that conveys the impression that he or she is a substance abuse counselor, clinical supervisor, or prevention specialist or a certified substance abuse counselor, clinical supervisor, or prevention specialist unless he or she is so certified under s. 440.88, Stats.

(2) Chapters SPS 160 to 168 do not apply to any of the following:

(a) A physician, as defined in s. 448.01 (5), Stats., who practices as a substance abuse clinical supervisor or provides substance abuse counseling, treatment, or prevention services within the scope of his or her licensure.

(b) A clinical social worker, as defined in s. 457.01 (1r), Stats., who practices as a substance abuse clinical supervisor or provides substance abuse counseling, treatment, or prevention services within the scope of his or her licensure.

(c) A licensed psychologist, as defined in s. 455.01 (4), Stats., who practices as a substance abuse clinical supervisor or provides substance abuse counseling, treatment, or prevention services within the scope of his or her licensure.

(d) A marriage and family therapist, as defined in s. 457.01 (3), or a professional counselor, as defined in s. 457.01 (7), who practices as a substance abuse clinical supervisor or provides substance abuse counseling, treatment, or prevention services within the scope of his or her licensure.

SENATE BILL 767

1 (e) The preparation of a patient for substance use disorder treatment by
2 referral, the treatment of a patient for substance use disorder until a referral for
3 substance use disorder treatment is completed, and the continuation of treatment
4 with the nonsubstance use disorder issues of a person, when performed by a mental
5 health provider practicing within the scope of his or her credential.

6 **SECTION 37.** SPS 160.02 (2m) of the administrative code is created to read:

7 SPS 160.02 (2m) “Assessment training” means education on the
8 comprehensive process of collecting pertinent data about patients or patient systems
9 and their environment, and appraising the data as a basis for making decisions
10 regarding substance use disorder diagnosis and treatment or referral. The education
11 shall consist of culturally inclusive studies in understanding addiction,
12 psychopharmacology, recognition and differentiation of co-occurring medical and
13 psychological disorders, clinical evaluation, and treatment planning.

14 **SECTION 38.** SPS 160.02 (3) (g) of the administrative code is created to read:

15 SPS 160.02 (3) (g) Marriage and family therapy, as defined in s. 457.01 (5),
16 Stats.

17 **SECTION 39.** SPS 160.02 (3) (h) of the administrative code is created to read:

18 SPS 160.02 (3) (h) Professional counseling, as defined in s. 457.01 (6), Stats.

20 SPS 160.02 (3m) “Case management” means education on culturally
21 appropriate administrative, clinical, and evaluative activities included in the
22 process of coordinating and prioritizing patient treatment goals and working with
23 the patient and significant others, as well as other services, agencies, and resources
24 to achieve those treatment goals. The education shall include studies in
25 implementing treatment plans including continuing assessment, the referral

SENATE BILL 767

1 process, service coordination, including for co-occurring medical and psychological
2 disorders, record management and documentation, and utilizing the written client
3 record to guide and monitor services to reach measurable goals and objectives.

4 **SECTION 41.** SPS 160.02 (6) of the administrative code is amended to read:

5 SPS 160.02 (6) “Clinical supervision” means a specific and definitive process
6 of oversight of a counselor’s professional development in the didactic, experiential
7 and application of the transdisciplinary foundations, and practice dimensions
8 including core functions. Supervision takes place in intermittent in person contact
9 between a clinical supervisor and treatment staff provided on or off the site of a
10 service to ensure that each patient has an individualized treatment plan and is
11 receiving quality care. A primary purpose of “clinical supervision” is to ensure skill
12 development evidenced in quality patient care.

13 **SECTION 42.** SPS 160.02 (9) of the administrative code is repealed.

14 **SECTION 43.** SPS 160.02 (10) of the administrative code is repealed.

15 **SECTION 44.** SPS 160.02 (10m) of the administrative code is created to read:

16 SPS 160.02 (10m) “Counseling training” means education that includes the
17 study of fundamental theories, principles, and techniques of substance use disorder
18 counseling to facilitate the progress of diverse patients toward mutually determined
19 treatment goals and objectives using culturally sensitive modalities. Counseling
20 education shall include studies of understanding addiction, recognized treatment
21 theory and practice, the recovery process, effective strategies for meeting the
22 counseling needs of diverse patients, crisis management skills, and awareness of
23 co-occurring medical and psychological disorders.

24 **SECTION 45.** SPS 160.02 (14) of the administrative code is repealed.

25 **SECTION 46.** SPS 160.02 (16) of the administrative code is repealed.

SENATE BILL 767

1 **SECTION 47.** SPS 160.02 (19m) of the administrative code is created to read:

2 SPS 160.02 (**19m**) “Patient education” means education about the process of
3 providing patients, groups, families, couples, significant others, and communities
4 with information on risks related to substance use, the processes of dependence
5 including signs, symptoms, and behavior patterns, and available resources for
6 prevention, treatment, and recovery in culturally relevant ways. The education
7 shall include studies in understanding addiction including addiction to nicotine, the
8 classification and basic pharmacology of drugs, basic physiology and the effects of
9 drug use on the human body and patient, learning styles and teaching methods,
10 delivery of educational programs, health and behavior problems related to substance
11 use including transmission of HIV/AIDS, tuberculosis, sexually transmitted

2 approved by the Committee for the Approval of Continuing Education Sponsors of
3 the American Psychological Association.

4 (d) The program or course is offered by an accredited college or university. A
5 credential holder shall receive 15 continuing education credit hours for completing
6 a semester course approved under this paragraph.

7 (e) The program is an employee sponsored inservice training and development
8 program. No more than 15 continuing education credit hours earned through
9 employee sponsored in-service training and development programs that are not
10 approved under par. (a), (b), (c), or (d) may count toward satisfying continuing
11 education requirements.

12 **(2)** (a) A person may earn continuing education credit hours for engaging in any
13 of the following activities, if the activity is relevant to the practice of substance abuse
14 counseling:

15 1. Presenting professional material. One continuing education credit hour is
16 earned under this subdivision for each hour of a continuing education presentation,
17 except that 15 credit hours are earned for presenting a semester-long educational
18 course. No continuing education credit hours are earned by a person for repeating
19 a presentation for which the person has previously earned continuing education. A
20 person who presents for any of the following may earn continuing education credit
21 hours under this subdivision:

22 a. A seminar, workshop, program, or institution that is approved under sub. (1).

23 b. A university, college, or vocational technical adult education course.

SENATE BILL 767

1 2. Developing professional material. One continuing education credit hour is
2 earned under this subdivision for each hour spent developing continuing education
3 professional material.

4 3. Authoring a published textbook or professional resource book. Fifteen
5 continuing education credit hours are earned for authoring a book under this
6 subdivision.

7 4. Authoring a professional journal article or a chapter published in a textbook
8 or professional resource book. Eight continuing education credit hours are earned
9 for authoring an article or chapter under this subdivision.

10 (b) A person may earn up to 15 continuing education credit hours that count
11 toward satisfying continuing education requirements by completing continuing
12 education that is approved under par. (a).

13 **SPS 168.03 Postponement or waiver.** A holder of a credential under s.
14 440.88, Stats., may apply to the department for a postponement or waiver of the
15 requirements under this chapter on grounds of prolonged illness, disability, or other
16 grounds constituting extreme hardship. The department shall consider each
17 application individually on its merits.

SECTION 66. Fiscal changes.

18 (1) TRAINING MATERIALS FOR SUBSTANCE ABUSE-RELATED CASES. In the schedule
19 under section 20.005 (3) of the statutes for the appropriation to the department of
20 children and families under section 20.437 (1) (a) of the statutes, the dollar amount
21 for fiscal year 2018-19 is increased by \$50,000 to develop and maintain
22 Internet-accessible training materials for county social services or veteran services
23 workers on the appropriate response to cases involving substance abuse.
24

SECTION 67. Initial applicability.
