4 buildings and a school district revenue limit adjustment for costs of providing
5 those products.

Analysis by the Legislative Reference Bureau

This bill requires each school district, operator of an independent charter school, and governing body of a private school participating in a parental choice program to provide free tampons and sanitary napkins in women's restroom facilities in buildings owned, leased, or occupied by the school board, operator, or governing body.

The bill creates a revenue limit adjustment for a school district that incurs costs to comply with the bill. Current law generally limits the total amount of revenue per pupil that a school district may receive from general school aids and property taxes in a school year to the amount of revenue allowed per pupil in the previous school year plus a per pupil increase, if any, as provided by law. However, current law also includes several adjustments to the general revenue limit.

Under the bill, if a school board adopts a resolution, the school district's revenue limit is increased by the amount the school district spends in a school year to make tampons and sanitary napkins available in school buildings.
