8. Makes changes relating to the state's jurisdiction over out-of-state persons holding Wisconsin alcohol beverage permits and persons who unlawfully ship alcohol beverages into another state.

9. Modifies provisions relating to the consumption of alcohol beverages in a public place and creates a no-sale event venue permit issued by the division to property owners authorizing the permittee to rent real property for use as an event venue at which beer and wine are consumed, on no more than six days per year, if certain requirements are met. The bill also creates a liquor license quota exception for qualifying persons who opt to obtain a retail license instead of a no-sale event venue permit.

SENATE BILL 332

10. Allows “Class C” retail licenses to be issued to establishments other than restaurants.

11. Modifies the applicable penalty when a beer retailer purchases beer from a source other than a wholesaler.

12. Broadens membership eligibility and operational authority of cooperative wholesalers and allows new cooperative wholesalers to be formed for a limited period.

13. Eliminates the limit on the number of manufacturers’, rectifiers’, or liquor wholesalers’ permits one person may hold and allows a beer wholesaler to transfer its wholesaler’s permit to a different location within the state.

14. Increases the amount of the safe ride program surcharge and requires municipalities to provide information to retailers about the safe ride program.

15. Makes changes relating to the occupational tax liability of producers of alcohol beverages.

16. Changes the definition of “fermented malt beverages.”

17. Establishes a \$500 fee for permits issued by the division if no fee is currently charged for the permit.

18. Creates an operator’s permit issued by the division that is similar to an operator’s license (commonly referred to as a bartender’s license) issued by a municipality.

19. Allows a municipality to transfer a retail liquor license that is subject to the quota system to another municipality in the same county.

20. Creates a closing hour exception for certain retailers in southeast Wisconsin during a 2024 national political convention.

21. Modifies a licensing exception applicable to beer provided on brewery premises.

22. Allows a retail license to be issued for an axe throwing facility and allows an underage person, without a parent or guardian, to be on these licensed premises.

23. Specifies that, subject to certain conditions, a “Class B” retailer may prepare and store mixed drinks up to 48 hours prior to sale to consumers.

Background

Under current law, alcohol beverages are generally distributed to consumers under a three-tier distribution system: the producer sells to a wholesaler, the wholesaler sells to a retailer, and the retailer sells to a consumer. With specific exceptions, no person may sell outside the three-tier system and no person may sell alcohol beverages to a consumer unless the seller possesses a license or permit authorizing the sale. Also under current law, DOR issues permits to alcohol beverage producers that authorize specified activities, while municipalities issue retail licenses to alcohol beverage retailers. With limited exceptions, a retail licensee may not purchase alcohol beverages from, or possess alcohol beverages purchased from, any person other than a wholesaler.

Under current law, Class “A” and “Class A” licenses authorize the retail sale of, respectively, beer and intoxicating liquor in original packages for consumption off the licensed premises. Intoxicating liquor includes wine and distilled spirits. Class “A” and “Class A” licenses are often issued together for grocery stores or liquor stores.

SENATE BILL 332

A Class “B” license authorizes the retail sale of beer for consumption on or off the premises. Except when issued to a winery, a “Class B” license authorizes the retail sale of intoxicating liquor for consumption on the licensed premises and, subject to restrictions, the retail sale of intoxicating liquor for consumption off the licensed premises. Class “B” and “Class B” licenses are often issued together for restaurants or taverns. A “Class C” license, which may be issued only for a restaurant, authorizes the retail sale of wine for consumption on the premises.

Under current law, DOR issues permits to manufacturers (commonly referred to as distillers), rectifiers, wineries, brewers, and brewpubs. DOR also issues permits to beer wholesalers, intoxicating liquor wholesalers, out-of-state beer shippers, and out-of-state intoxicating liquor shippers. Out-of-state shippers are suppliers located outside this state that ship alcohol into this state. DOR also issues direct wine shippers’ permits to in-state and out-of-state wineries that authorize the permittee to ship wine directly to individuals in this state. In addition, DOR issues Class “B” and “Class B” retail permits under limited circumstances.

Division of Alcohol Beverages

The bill creates the division, attached to DOR, and transfers DOR’s alcohol beverage regulation and enforcement functions, including issuance of alcohol beverage permits, to the division. The bill also creates within the division separate bureaus dedicated to enforcement, legal services, and education and community outreach. The administrator of the division may appoint special agents and other employees necessary to carry out the permitting, audit, education, legal, and enforcement functions of the division. The administrator and employees of the division may not be employed by or have a financial interest in the alcohol beverage industry and are subject to the standards of conduct and conflict of interest prohibitions for state public officials.

Retail sales by brewers, wineries, manufacturers, and rectifiers

Under current law, a brewer’s permit issued by DOR authorizes the brewer to, among other activities, manufacture beer and, if the brewer manufactures 300,000 or fewer barrels of beer per year, self-distribute its beer directly to retailers. A brewer’s permit also authorizes the brewer to sell at retail, without a retail license, at the brewery premises and at one off-site retail outlet 1) the brewer’s own beer, for consumption on or off the premises; 2) certain other Wisconsin-made beer, for consumption on or off the premises, if the brewer purchases the beer from a wholesaler or another brewer; and 3) intoxicating liquor, for consumption on the premises, if the brewer held a retail intoxicating liquor license on June 1, 2011, and if the brewer purchases the intoxicating liquor from a wholesaler. The brewer may also provide free taste samples at the brewery premises and the brewer’s off-site retail outlet. A brewer may not hold a retail beer license. A brewer may not operate a restaurant except at the brewery premises and the brewer’s off-site retail outlet.

Under current law, a winery permit issued by DOR authorizes the winery to, among other activities, manufacture wine and provide taste samples of its wine on the winery premises. A winery may also hold one retail license—either a “Class A” or “Class B” license—which may be issued for the winery premises or another location, but the winery may not hold other specified retail interests. A “Class B”

SENATE BILL 332

license issued to a winery is limited compared to other “Class B” licenses because it authorizes the retail sale of wine for consumption on or off the premises but does not authorize the retail sale of distilled spirits. A “Class B” license may be issued to a winery only if the winery is capable of producing at least 5,000 gallons of wine per year in no more than two locations. If a retail license is issued to a winery, the winery may provide wine made by the winery directly to its own retail premises, without the wine first passing through a wholesaler.

Under current law, a manufacturer’s permit or rectifier’s permit issued by DOR authorizes the permittee to, respectively, manufacture or rectify intoxicating liquor. Current law prohibits a manufacturer or rectifier from holding an interest in a retail liquor license, but a manufacturer’s permit or rectifier’s permit authorizes the manufacturer or rectifier to make retail sales, without a retail license, of intoxicating liquor manufactured or rectified on the manufacturer’s or rectifier’s premises, for consumption on or off the premises. Subject to limitations, a manufacturer or rectifier may also provide free taste samples of intoxicating liquor manufactured or rectified on the premises, for consumption on the premises.

The bill eliminates most current law provisions relating to retail sales authority for brewers, wineries, manufacturers, and rectifiers and replaces them with provisions creating a more uniform standard of retail sales authority for these producers. Under the bill, a brewer, winery, manufacturer, or rectifier (producer) may, under its division-issued permit, make retail sales on the production premises and establish full-service retail outlets depending on the producer’s production volume. The bill authorizes a producer to make retail sales of its own products on the production premises, for on-premises or off-premises consumption. If the producer meets specified production thresholds, the bill also allows the producer to engage in full-service retail sales on the production premises and to establish from one to three full-service retail outlets away from the production premises at which full-service retail sales may be made. “Full-service retail sales” are sales of beer and intoxicating liquor, for on-premises or off-premises consumption, and the provision of taste samples. Alcohol beverages not produced by the producer must be purchased from a wholesaler or other person authorized to distribute the alcohol beverages under current law. To operate a full-service retail outlet, a producer must obtain approval from the division, which the division must grant unless the producer has violated a provision of law related to full-service retail outlets. In addition, a producer may not commence sales of alcohol beverages at a full-service retail outlet unless, prior to commencing such sales, the producer receives approval from the municipality in which the retail outlet is located. Applications for a municipality’s approval must be made on a form prescribed by the division. A municipality’s approval must be based on the same standards and criteria that the municipality has established by ordinance for the evaluation and approval of retail license applications. A municipality may limit the scope of alcohol beverages offered for sale at a full-service retail outlet only with respect to alcohol beverages that are not of the same type as those produced by the producer. Retail sales on the production premises and at full-service retail outlets must be supervised by the permit holder or a person holding an operator’s license or operator’s permit (discussed further

SENATE BILL 332

below). A producer may operate a restaurant at any full-service retail outlet and on the production premises.

Under the bill, if a brewer is not eligible to establish a full-service retail outlet, the brewer maintains the current-law authorization to establish an off-site retail outlet at which it may sell its own beer for on-premises or off-premises consumption. In addition, if the brewer held a retail intoxicating liquor license on June 1, 2011, for its brewery premises or an off-site retail outlet, the brewer may make retail sales of intoxicating liquor for on-premises consumption at this formerly licensed location.

The bill eliminates the authorization for a winery to hold a retail license, which authorization is replaced with the retail sales authority described above. The bill also eliminates the prohibition against a brewer operating a restaurant in a location other than the brewery premises and the brewer's off-site retail outlet.

Closing hours for retail sales by brewers, wineries, manufacturers, and rectifiers

Under current law, with limited exceptions, a retailer operating under a Class "B" or "Class B" license may not remain open between the hours of 2 a.m. and 6 a.m. on weekdays or between 2:30 a.m. and 6 a.m. on Saturday and Sunday, and a municipality may not impose different closing hours by ordinance. The hours during which a Class "B" licensed retailer may make sales for off-premises consumption are more limited, with these sales prohibited from midnight to 6 a.m., although a municipality may, by ordinance, impose more restrictive hours for these sales. Current law does not specify closing hours or permissible hours of sale for retail sales by brewers, manufacturers, or rectifiers.

Under the bill, a full-service retail outlet of a producer is subject to the same closing hours, and restrictions on the hours in which sales for off-premises consumption may be made, that are applicable to a Class "B" licensee in the same municipality with respect to all alcohol beverages sold at the retail outlet. These limitations also apply to the producer's production premises, except that the production premises are not required to be closed for nonretail activities. The bill also specifies that no member of the public or invited guests may be present on the production premises during the closing hours applicable to a Class "B" licensee.

Under current law, a winery operating under a "Class B" license may not remain open for retail sales of wine between the hours of 9 p.m. and 8 a.m.

The bill eliminates this earlier closing hour for a winery.

Other authorized activities of brewers, wineries, manufacturers, and rectifiers

Under the bill, the permit of a brewer, winery, manufacturer, or rectifier also authorizes the following activities:

1. The transportation by the producer of its alcohol beverages between the production premises and any depot, warehouse, or full-service retail outlet maintained by the producer or other premises for which the producer holds a permit.

2. The sale, shipment, transportation, and delivery, or the sale or transfer, of the producer's alcohol beverages, in bulk or in any state of packaging, to another producer holding a permit that allows production of the same type of alcohol beverages.

SENATE BILL 332***Producers providing taste samples on retail premises***

Current law allows Class “A” and “Class A” licensees to provide free taste samples to customers for consumption on the licensed premises, subject to various restrictions such as the size and number of taste samples and hours during which they may be provided. As part of their retail sales authority, Class “B,” “Class B,” and “Class C” licensees may also provide taste samples for consumption on the premises.

Under current law, a brewer may provide free taste samples on Class “A” licensed premises for consumption on the premises, subject to the same limitations applicable to the Class “A” licensee in providing taste samples, including hours and size and number of samples. In addition, the brewer must purchase from the Class “A” licensee the beer that the brewer provides as taste samples.

The bill creates additional authority, and modifies existing authority, for a brewer, winery, manufacturer, or rectifier to provide taste samples on retail licensed premises with the consent of the retail licensee. Under the bill, a winery, manufacturer, or rectifier may provide free taste samples of intoxicating liquor on “Class A,” “Class B,” or “Class C” premises, not exceeding two 3-ounce samples of wine per day per person and one 0.5-ounce sample of distilled spirits per day per person. A brewer may provide free taste samples of beer on Class “A” or Class “B” premises, not exceeding two 3-ounce samples of beer per day per person. A brewer, winery, manufacturer, or rectifier may provide the taste samples to any person who has attained the legal drinking age for consumption on the premises between the hours of 11 a.m. and 7 p.m. The taste samples must be either 1) purchased by the brewer, winery, manufacturer, or rectifier from the retail licensee or 2) produced by the brewer, winery, manufacturer, or rectifier and brought to the retail premises. However, a brewer, winery, manufacturer, or rectifier may not leave at the retail premises any unused alcohol beverages not purchased from the retail licensee.

The bill also eliminates a provision under which a municipality may prohibit a “Class A” licensee from offering free taste samples of wine on its licensed premises.

Brewpubs

Under current law, a person is eligible for a brewpub permit issued by DOR if the person meets certain requirements, including that 1) the person manufactures not more than 10,000 barrels of beer per year and 2) the person operates on the brewpub premises a restaurant for which a retail license is issued and in which the brewpub sells, in addition to its own beer, the beer of another brewer. A brewpub permit authorizes, among other activities, 1) the manufacture of up to 10,000 barrels of beer per year, but the entire manufacturing process must occur on brewpub premises; 2) the retail sale of alcohol beverages through retail licenses issued for the brewpub’s restaurant; and 3) the annual distribution of up to 1,000 barrels of the brewpub’s beer to retailers.

The bill increases, from 10,000 to 20,000 barrels per year, the amount of beer that a brewpub may manufacture and eliminates the requirement that the entire manufacturing process occur on brewpub premises. The bill also authorizes a brewpub to annually distribute up to 2,000 barrels of the brewpub’s beer to retailers. Also under the bill, to meet the requirement that it sell beer other than its own in its

SENATE BILL 332

restaurant, a brewpub may sell beer manufactured by another brewpub rather than a brewer.

The bill also authorizes a brewpub to sell, ship, transport, and deliver, in bulk or in any state of packaging, beer manufactured by the brewpub to another brewpub.

Interest restrictions

Current law imposes restrictions on the issuance of alcohol beverage licenses and permits and the interests that such licensees or permittees may hold in other licensees or permittees. For example, a Class “B” license may not be issued to a brewer or a beer wholesaler, and a beer wholesaler’s permit may not be issued to a brewer or Class “B” licensee. As another example, a manufacturer, rectifier, or winery may not hold any direct or indirect interest in any wholesale permit or establishment. Current law includes many similar provisions, which generally prohibit one type of licensee or permittee from having a direct or indirect interest in specified other types of licensees or permittees. DOR has promulgated a rule used to implement some of these statutory interest restrictions, which include definitions and examples of direct and indirect interests.

The bill modifies these existing interest restriction provisions. In general, the bill expands these provisions to explicitly apply to “cross-tier” interests, such as a beer wholesaler’s interest in a winery permit or a winery’s interest in a retail beer license. The bill also standardizes language among the various interest restriction provisions, partly by adopting the phrase “an interest in” rather than “a direct or indirect interest in” or “a direct or indirect ownership interest in” and partly by explicitly stating whether the interest restriction applies to retail licensees, retail permittees, beer wholesalers, liquor wholesalers, brewers, brewpubs, wineries, manufacturers and rectifiers, out-of-state beer shippers, and out-of-state liquor shippers. The bill also incorporates the new interest restriction exceptions discussed below. The bill further repeals the DOR rule that guides determinations relating to interest restrictions.

In addition to these changes to existing interest restriction provisions, the bill creates new provisions relating to interest restrictions and creates exceptions to interest restrictions. The bill specifies all of the following:

1. No production permittee may hold any interest in any distribution permittee or in any retail licensee or permittee, except as authorized under current law for a brewpub.

2. No distribution permittee may hold any interest in any retail licensee or permittee or any interest in any production permittee, with an exception for a beer wholesaler holding an interest in a brewer on July 1, 2011.

3. No retail licensee or permittee may hold any interest in any distribution permittee or in any production permittee, except as authorized under current law for a brewpub.

For purposes of these provisions, employment in a nonmanagerial capacity for an alcohol beverage licensee or permittee is not an interest in that licensee or permittee.

The bill defines a “production permittee” as a person holding a permit issued to a brewer, brewpub, manufacturer, rectifier, or winery; a brewer in another state

SENATE BILL 332

that holds an out-of-state beer shipper's permit; a manufacturer, rectifier, or winery in another state that holds an out-of-state liquor shipper's permit; or a restricted individual of any such person. A "restricted individual" is an individual who 1) is identified on a manager's license or who works or acts in a managerial capacity for an alcohol beverage permittee or licensee; 2) serves as an officer, director, member, manager, or agent of a corporation or limited liability company that holds an alcohol beverage permit or license; or 3) holds more than a 10 percent ownership interest in an alcohol beverage permittee or licensee. The bill defines a "distribution permittee" as a person holding a beer or liquor wholesaler's permit or a restricted individual of such a person. The bill defines a "retail licensee or permittee" as a person holding a Class "A," Class "B," "Class A," "Class B," or "Class C" license, a Class "B" or "Class B" permit, or a no-sale event venue permit (discussed further below), or a restricted individual of any such person. The bill also defines a "restricted entity" as an entity holding more than a 10 percent ownership interest in an alcohol beverage permittee or licensee. The bill defines a "restricted investor" as a restricted individual or restricted entity.

The bill also specifies the following three situations, applicable to both new and existing interest restriction provisions under the bill, in which interests are explicitly authorized:

1. An alcohol beverage licensee or permittee may be owned in part by, or grant an ownership interest to, a restricted investor in a different tier if specified requirements are satisfied, including that no restricted investor holds more than a 10 percent ownership interest or is involved in day-to-day operations and the aggregate amount of ownership held by all restricted investors does not exceed 49 percent. Each restricted investor must execute an affidavit swearing to a lack of involvement in the day-to-day operations of the licensee or permittee. A restricted investor who materially violates a representation in the affidavit may be required to forfeit not more than \$1,000.

2. An alcohol beverage licensee or permittee, or a restricted individual of a licensee or permittee, may enter into a landlord-tenant relationship with another licensee or permittee operating in a different tier if specified requirements are satisfied, including that the landlord has no control over or day-to-day involvement in the business of the tenant.

3. A spouse may have an interest in the alcohol beverage license or permit of the other spouse if specified requirements are satisfied, including that the marriage is governed by a marital property agreement or prenuptial agreement and both spouses execute an affidavit swearing to a lack of involvement in the day-to-day operations of each respective business. A spouse who materially violates a representation in the affidavit may be required to forfeit not more than \$1,000.

As discussed above, the bill also eliminates the authority of a winery to hold a retail license and provisions allowing this common interest.

Tied house restrictions

Current law prohibits a brewer, brewpub, or beer wholesaler from furnishing anything of value to a Class "B" licensee, but there are numerous exceptions to this prohibition.

SENATE BILL 332

The bill creates an exception under which a brewer, brewpub, or beer wholesaler may enter into a landlord-tenant relationship with a Class “B” licensee if the same requirements are satisfied that are referenced in item 2, above, relating to interest restrictions and landlord-tenant relationships.

Production agreements

The bill specifies authority for a brewer, brewpub, winery, manufacturer, or rectifier (producer) to produce alcohol beverages by means of contract production, alternating proprietorship, or licensing agreement and further specifies certain requirements for and consequences of such an arrangement. These arrangements must be established by written agreement, which generally may be entered into only by producers holding the same type of producer’s permit.

The bill defines “contract production” as a contract, agreement, or business arrangement whereby a recipe producer or out-of-state recipe supplier provides consideration to a contract producer for the production, bottling, or labeling of alcohol beverages. In a contract production arrangement, the “contract producer” manufactures, bottles, or labels the alcohol beverages, which are purchased from the contract producer by the “recipe producer” or “out-of-state recipe supplier.” A recipe producer, with an exception, holds the same type of Wisconsin permit as the contract producer, while an out-of-state recipe supplier is a person located in another state that produces alcohol beverages in that state.

The bill specifies that alcohol beverages produced under a contract production arrangement between a contract producer and recipe producer count toward the production volume of the recipe producer, except they may not be considered for purposes of determining a producer’s retail sales authority (discussed above). The recipe producer is considered the producer for purposes of taxation and reporting to the division.

The bill defines an “alternating proprietorship” as an arrangement in which a host producer provides use of space and equipment, and may additionally provide personnel, to a guest producer for the production of alcohol beverages. In this arrangement, a “host producer” provides its production facility to a “guest producer” for the guest producer to use to produce the guest producer’s alcohol beverages. The bill specifies that alcohol beverages produced under an alternating proprietorship count toward the production volume of the guest producer, and the guest producer is considered the producer for purposes of taxation and reporting to the division.

The bill defines a “licensing agreement” as an agreement between a licensor and a producer for the production of alcohol beverages containing the name, symbol, or mark of the licensor. A producer may enter into a written licensing agreement with a licensor authorizing the producer-licensee to use the licensor’s trademark or name if the producer-licensee is entirely responsible for producing the alcohol beverages and for all related processing steps and regulatory requirements.

The bill also specifies that a producer entering into a contract production arrangement, alternating proprietorship arrangement, or licensing agreement does not act as an agent for or in the employ of another with respect to certain provisions of current law.

SENATE BILL 332***Common carrier shipments***

The bill prohibits a common carrier from transporting or delivering alcohol beverages into or within this state, other than to an alcohol beverage licensee or permittee, unless the common carrier first obtains a permit from the division. This permit authorizes a common carrier only to transport or deliver into or within this state wine on behalf of a person holding a Wisconsin direct wine shipper's permit, which generally may be an in-state or out-of-state winery, or on behalf of a person holding a fulfillment house permit (discussed below). A common carrier must pay an annual permit fee of \$1,000. A common carrier that fails to obtain a permit prior to commencing delivery of alcohol beverages in this state is subject to a fine of not more than \$10,000. A common carrier that ships alcohol beverages other than wine obtained from a direct wine shipper permittee or fulfillment house permittee is subject to a forfeiture of not more than \$2,000, and the division must revoke the common carrier's permit if the common carrier violates this prohibition in more than one month during a calendar year.

The bill also requires a common carrier that holds a common carrier permit to submit a monthly report to the division that includes all of the following information for each shipment of alcohol beverages during the preceding month: 1) the name and address of the manufacturer of the alcohol beverages; 2) the name and address of the consignor of the shipment, if different from the manufacturer; 3) the name and address of the consignee of the shipment; 4) the date of the shipment; 5) the type and quantity of alcohol beverages shipped to the consignee, as reported to the common carrier; and 6) the parcel tracking number for the shipment. The division must keep confidential the name and address of the consignee and the parcel tracking number, but other information in the reports is not confidential and is subject to the public records law. A common carrier required to submit reports under the bill must maintain for three years all records related to the reports. A common carrier that fails to submit a required report is subject to a forfeiture of not more than \$2,000.

Fulfillment houses and direct wine shipping

Under current law, DOR may issue a direct wine shipper's permit to any person that manufactures and bottles wine on premises covered by a winery permit, manufacturer's permit, or rectifier's permit issued by DOR; a winery license issued by another state; or a federal winery permit. A direct wine shipper's permit issued by DOR authorizes the permittee to ship wine directly to an individual in this state who is of the legal drinking age, who acknowledges receipt of the wine shipped, and who is not intoxicated at the time of delivery.

Current law, with limited exceptions, prohibits a person from shipping alcohol beverages into this state unless the person holds an out-of-state shipper's permit issued by DOR and the alcohol beverages are shipped to an in-state wholesaler. However, one exception allows an out-of-state winery to ship wine directly to a consumer in this state if the winery holds a direct wine shipper's permit.

The bill requires a person operating a fulfillment house to obtain from the division a fulfillment house permit for each location that is involved in the process of shipping wine to Wisconsin residents. A "fulfillment house" is defined as any entity, whether located in this state or elsewhere, that handles logistics, including

SENATE BILL 332

warehousing, packaging, order fulfillment, or shipping services, on behalf of a direct wine shipper permittee for wine that is eligible to be shipped to individuals in this state. A person holding a fulfillment house permit may provide services only for the warehousing, packaging, order fulfillment, and shipment of alcohol beverages produced by and belonging to a direct wine shipper permittee.

Under the bill, a fulfillment house permittee must ensure that all containers of wine shipped directly to an individual in this state are labeled with all of the following information: 1) the words "CONTAINS ALCOHOL: SIGNATURE OF PERSON AGE 21 OR OLDER REQUIRED FOR DELIVERY"; 2) the name, address, and permit number of the fulfillment house permittee; and 3) the name, address, and permit number of the direct wine shipper permittee on whose behalf the wine is shipped.

The bill prohibits a fulfillment house permittee from shipping into this state wine from any person not holding a direct wine shipper's permit. A fulfillment house permittee may ship wine into this state only by using a common carrier that holds a common carrier permit issued by the division. Prior to shipping wine to an individual in this state, a fulfillment house permittee must verify the validity of the direct wine shipper's permit and common carrier permit associated with the direct-to-consumer shipment. A fulfillment house that fails to obtain a required fulfillment house permit is subject to a fine of not more than \$10,000. A fulfillment house that ships alcohol beverages other than wine obtained from a direct wine shipper permittee is subject to a forfeiture of not more than \$2,000. The division must revoke the permit of a fulfillment house that violates this prohibition in more than one month during a calendar year.

The bill requires a fulfillment house permittee to submit a monthly report to the division that includes all of the following information for each shipment of alcohol beverages during the preceding month: 1) the name and address of the manufacturer of the alcohol beverages; 2) the name and address of the consignor of the shipment, if different from the manufacturer; 3) the name and address of the consignee of the shipment; 4) the date of the shipment; 5) the type and quantity of alcohol beverages shipped to the consignee; and 6) the parcel tracking number for the shipment. The division must keep confidential the name and address of the consignee and the parcel tracking number, but other information in the reports is not confidential and is subject to the public records law. A fulfillment house required to submit reports under the bill must maintain for three years all records related to the reports. A fulfillment house that fails to submit a required report is subject to a forfeiture of not more than \$2,000.

The bill allows a direct wine shipper permittee (including a Wisconsin winery holding such a permit) to arrange with a fulfillment house to ship wine on the direct wine shipper permittee's behalf only if the fulfillment house holds a fulfillment house permit. The bill also requires a direct wine shipper permittee to use a common carrier holding a common carrier permit in shipping any container of wine directly to an individual in this state.

The bill also creates a fulfillment house exception to the current law provision that generally prohibits any person from shipping alcohol beverages into this state

SENATE BILL 332

unless the person holds an out-of-state shipper's permit issued by DOR and the alcohol beverages are shipped to an in-state wholesaler.

The bill also specifies that a direct wine shipper permittee may ship directly to an individual in this state only wine manufactured or bottled by the permittee.

Jurisdiction over out-of-state permittees; violation of another state's law

Current law provides for the issuance of the following alcohol beverage permits to persons located outside this state: 1) an out-of-state beer shipper's permit; 2) an out-of-state liquor shipper's permit; and 3) a direct wine shipper's permit. Subject to various restrictions, an out-of-state beer shipper's permit authorizes a person located outside this state to ship beer into this state to a person holding a beer wholesaler's permit. An out-of-state liquor shipper's permit, subject to various restrictions, authorizes a person located outside this state to ship intoxicating liquor into this state to a person holding a liquor wholesaler's permit, a manufacturer's or rectifier's permit, or a winery permit. As discussed more fully above, a direct wine shipper's permit authorizes direct-to-consumer wine shipments from in-state or out-of-state wineries to individuals in this state.

The bill requires holders of out-of-state beer shippers' permits, out-of-state liquor shippers' permits, and direct wine shippers' permits who are located outside of this state to consent to jurisdiction in this state for proceedings to enforce this state's alcohol beverage laws. These permittees must also accept service of process for proceedings in this state to enforce this state's alcohol beverage laws. To this end, these permittees must satisfy specified requirements relating to appointing and maintaining in this state an agent for service of process. The bill also includes other provisions relating to requirements imposed on these permittees.

The bill also authorizes the division to revoke or suspend an alcohol beverage license or permit if the licensee or permittee ships alcohol beverages into another state in violation of that state's law.

Consumption of alcohol beverages in a public place

Under current law, an owner or other person in charge of a public place may not permit the consumption of alcohol beverages on the premises of the public place unless the person has an appropriate retail license. Current law does not define "public place" for purposes of this provision, but current law defines "premises" as the area described in an alcohol beverage license or permit. There are various exceptions to this prohibition, including for county parks, athletic fields and stadiums, and churches, and also for municipalities and clubs.

The bill specifies that, for purposes of this prohibition, a "public place" includes a venue, location, open space, room, or establishment that is 1) accessible and available to the public to rent for an event or social gathering; 2) held out for rent to the public for an event or social gathering; or 3) made available for rent to a member of the public for an event or social gathering. However, a public place does not include any of the following: 1) a room in a hotel, motel, or bed and breakfast that is used for overnight accommodations; 2) vacation rental property, or other property of temporary lodging, that is used for overnight accommodations if the property is furnished with sufficient beds for all adult guests to sleep; 3) a campsite on a campground; 4) a parking lot, driveway, or yard where vehicles may be parked on the

SENATE BILL 332

same day as a professional or collegiate sporting event or other ticketed event open to the public; or 5) property within a local professional football stadium or baseball park district if the property is used in connection with, and on the same day as, a professional football or baseball game, or other ticketed event open to the public, held at the football stadium or baseball park.

The bill also allows an owner or other person in charge of a public place to permit the consumption of alcohol beverages if the person has obtained a no-sale event venue permit issued by the division (discussed below). The bill further clarifies that the public place prohibition discussed above applies on all property, not just on licensed premises.

No-sale event venue permit

The bill creates a no-sale event venue permit issued by the division to property owners authorizing the permittee to rent or lease real property for use as an event venue at which beer and wine are consumed on no more than six days per year and one day per month. A permittee may not sell or otherwise provide alcohol beverages to the renter or lessee of the event venue or a guest or attendee of the event, nor may the permittee allow any person to possess distilled spirits on the event venue when the event venue is being used by a renter or lessee. Subject to certain restrictions, a no-sale event venue permit authorizes the permittee to do any of the following: 1) allow the renter or lessee of the event venue to bring the renter's or lessee's own beer and wine onto the event venue and serve it to guests without charge; 2) allow the guests of the renter or lessee to bring beer and wine onto the event venue to be consumed by the guests without charge; 3) allow the renter or lessee to obtain temporary Class "B" and "Class B" licenses for an event held on the event venue and sell beer and wine under the temporary licenses on the event venue; or 4) allow the renter or lessee to contract with a licensed caterer for the caterer to provide beer and wine to the renter or lessee and guests without charge on the event venue. If the renter or lessee contracts with a caterer, the renter or lessee and guests may not bring alcohol beverages onto the event venue. The renter or lessee must first purchase the beer and wine in a face-to-face transaction on the caterer's retail licensed premises. The caterer may then deliver and serve the alcohol beverages at the event venue, but service must be performed by licensed bartenders.

Under the bill, the lessee or renter of an event venue may not sell any alcohol beverages to guests or attendees of an event on the event venue, including charging admission for an event at which alcohol beverages are served, unless the lessee or renter has obtained a temporary retail license. The lessee or renter may not allow any person to possess distilled spirits on the event venue. If there are 20 or more people on the event venue, service of beer and wine must be performed by a licensed bartender.

A no-sale event venue permit may be issued to a person who holds a retail license but may not be issued to a person who holds a permit as a brewer, brewpub, winery, manufacturer or rectifier, beer wholesaler, liquor wholesaler, out-of-state beer shipper, or out-of-state liquor shipper.

SENATE BILL 332***Quota exception for certain persons opting out of no-sale event venue permit***

Current law imposes a quota on the number of “Class B” licenses that a municipality may issue. This quota is generally determined by a formula based on the number of licenses previously issued by the municipality and the municipality’s population. Current law also provides a limited number of quota exceptions.

The bill creates a quota exception for an event venue that the division has certified as meeting specified criteria. Under the bill, a “qualifying event venue” is defined as real property that is rented or leased for use as an event venue for private events, and, under the definition, in the prior 12-month period, there must have been at least five events held at the venue at which at least 50 invited guests attended and the venue owner must have received at least \$20,000 in revenue from renting or leasing the venue for these events. Upon application, the division must certify an owner of a qualifying event venue as eligible for the quota exception if 1) the venue is and has been in operation for the 12-month period preceding the application; 2) the venue has not been a retail licensed premises during this 12-month period; 3) the venue owner has not applied for a no-sale event venue permit; 4) the venue owner provides documentation that the municipality in which the venue is located has reached its liquor license quota; 5) the venue owner provides documentation showing, and the division confirms, that the venue meets the definition of a qualifying event venue and has been in operation as described in item 1 above; and 6) the venue owner provides notice to the division within 60 days after the bill’s effective date that the owner is applying for a “Class B” license and is not seeking a no-sale event venue permit. The division must act on an application for certification within 30 days of the application. A municipality may issue for a certified venue an above-quota “Class B” license under this quota exception only if the license application is received by approximately six months after the bill’s effective date. In general, if a “Class B” license issued under this quota exception is revoked or not renewed, the municipality may not reissue the license. However, the municipality may reissue the license under certain circumstances if the event venue property or business is sold.

“Class C” retail licenses

Under current law, a “Class C” license may be issued for a restaurant in which the sale of alcohol beverages accounts for less than 50 percent of gross receipts and that either does not have a barroom or has a barroom in which wine is the only intoxicating liquor sold. A “Class C” license authorizes the retail sale of wine by the glass or in an opened original container for consumption on the retail premises. A “Class C” license may not be issued to a foreign corporation or a foreign limited liability company.

The bill eliminates the limitation that a “Class C” license may be issued only for a restaurant. The bill also removes the prohibition on issuing a “Class C” license to a foreign corporation or foreign LLC.

Retailer purchases of beer from nonwholesaler

Under current law, with exceptions for certain sales of beer by brewers and brewpubs, a retail licensee may not purchase alcohol beverages from, or possess alcohol beverages purchased from, any person other than a wholesaler. If a retail

SENATE BILL 332

licensee purchases or possesses beer in violation of this prohibition, the penalty that may be imposed is a fine of not more than \$10,000 or imprisonment for not more than nine months or both.

The bill changes this penalty. If a retail licensee purchases or possesses beer in violation of the prohibition, the penalty that may be imposed (or must be imposed if item 3, below, applies) is one of the following:

1. If a Class “B” licensee purchases beer from a Class “A” licensee for resale or possesses beer purchased from a Class “A” licensee for resale, a fine of not more than \$100.

2. If item 1 does not apply and the total volume of beer purchased or possessed in one month is 4,320 fluid ounces (15 cases) or less, a forfeiture of not more than \$100.

3. If neither item 1 nor item 2 applies, a fine of not more than \$10,000 or imprisonment for not more than nine months or both.

Cooperative wholesalers

Under current law, between October 1 and December 31, 2008, DOR was authorized to issue liquor wholesalers’ permits to small winery cooperatives (cooperative wholesalers). DOR was limited to issuing a total of six such permits. Only wineries certified by DOR as small wineries can be members of a cooperative wholesaler. A “small winery” is defined as a winery that produces and bottles less than 25,000 gallons of wine in a calendar year. The only alcohol beverage product a cooperative wholesaler can sell and distribute is the wine of its members, and this wine can be sold or distributed only to retailers or other wholesalers.

The bill changes the definition of a small winery so that a winery that produces and bottles in a calendar year less than 50,000 gallons of wine, rather than 25,000 gallons, may be a member of a cooperative wholesaler.

The bill also allows manufacturers and rectifiers that produce and bottle less than 50,000 gallons of intoxicating liquor in a calendar year to be members of a cooperative wholesaler. The cooperative wholesaler may sell and distribute the intoxicating liquor of its members. The bill allows for the formation of new cooperative wholesalers for approximately six months after the bill’s effective date, but the division may not issue new wholesalers’ permits that cause the total number of wholesalers’ permits issued to cooperative wholesalers to exceed six.

Eliminating the permit limit for manufacturers, rectifiers, and wholesalers

Under current law, DOR may not issue more than two manufacturers’ or rectifiers’ permits to any one person, and DOR may not issue more than two liquor wholesalers’ permits to any one person.

The bill eliminates this two-permit limit for manufacturers’ and rectifiers’ permits and liquor wholesalers’ permits.

Transfer of beer wholesaler’s permit to a different location

Current law specifies that most alcohol beverage licenses and permits may be transferred to a different location within the same municipality, but certain permits, including an intoxicating liquor wholesaler’s permit, may be transferred to a different location within the state.

SENATE BILL 332

The bill specifies that a beer wholesaler's permit may be transferred to a different location within the state, not just within the same municipality.

Safe ride program

Current law imposes a safe ride program surcharge of \$50 upon a person convicted of operating a vehicle while under the influence of an intoxicant, with a detectable amount of a restricted controlled substance in one's blood, or with a prohibited alcohol concentration. The bill increases the amount of the safe ride program surcharge to \$75.

The bill also requires a municipality to provide to a person initially issued a Class "B," "Class B," or "Class C" license information regarding the safe ride program.

Occupational taxes on alcohol beverages

Under current law, the state imposes an occupational tax on selling intoxicating liquor in this state. An occupational tax is also imposed upon the removal for consumption or sale of beer. However, no tax is imposed on the sale or shipment of beer by a brewer to a bottler or of intoxicating liquor in bulk between manufacturers, rectifiers, and wineries. A manufacturer that ships intoxicating liquor in bulk to a rectifier for the purpose of bottling or rectifying must affix a label or statement that the shipment is made for the purpose of bottling or rectifying.

The bill specifies that no occupational tax is imposed on the sale or shipment of beer between brewers or on the sale or shipment of intoxicating liquor, whether in bulk or any state of packaging, between manufacturers, rectifiers, and wineries. The bill further specifies that a manufacturer or rectifier shipping intoxicating liquor to another manufacturer or rectifier, whether in bulk or in any state of packaging, must affix a label or statement that the shipment is a tax-exempt transfer.

Definition of fermented malt beverages

Under current law, alcohol beverages that do not meet the definition of fermented malt beverages are considered intoxicating liquor. "Fermented malt beverages" are defined as any beverage made by the alcohol fermentation of an infusion in potable water of barley malt and hops, with or without unmalted grains or decorticated and degerminated grains or sugar containing 0.5 percent or more of alcohol by volume.

The bill expands the definition of a fermented malt beverage to include any beverage that is recognized under federal regulations as beer, except sake or similar products.

Leaving restaurant with unfinished bottle of wine

Current law allows a restaurant holding a "Class B" or "Class C" retail license to allow a customer to take from the licensed premises an opened, unfinished bottle of wine if certain requirements are satisfied, including that, prior to the opened, partially consumed bottle of wine being removed from the licensed premises, the restaurant securely reinserts the cork into the bottle to the point where the top of the cork is even with the top of the bottle.

SENATE BILL 332

The bill allows an opened, unfinished bottle of wine to be removed from the restaurant if, among the other requirements, it is recapped with the original cap, rather than recorked.

The bill also allows, subject to the same requirements applicable to a retailer, an opened, unfinished bottle of wine to be removed from a restaurant at a full-service retail outlet of a brewer, winery, manufacturer, or rectifier if the full-service retail outlet is authorized to sell wine.

Permit fees

Under current law, with some exceptions, fees for alcohol beverage permits issued by DOR are not established by statute. DOR has established fees for some, but not all, permits issued by DOR.

The bill establishes an annual permit fee of \$500 for any permit for which DOR has not previously established a fee.

Operators' permits issued by the division

Under current law, municipalities issue operators' licenses. An operator's license is valid in the municipality that issued it. Although a person is not required to hold an operator's license to provide alcohol beverages on retail licensed premises, a retail licensee may not be open for business unless the licensee, the designated agent of a corporate licensee, or a person who possesses an operator's license or manager's license is present and responsible for the acts of all persons providing alcohol beverages on the premises.

The bill requires the division to issue operators' permits. An operator's permit is subject to the same standards for issuance as an operator's license and is the functional equivalent of an operator's license except that an operator's permit is valid throughout Wisconsin.

Transfers of retail liquor licenses from one municipality to another

Current law imposes a quota on the number of "Class B" liquor licenses that a municipality may issue. This quota is generally determined by a formula based on the number of licenses previously issued by the municipality and the municipality's population. For purposes of the quota system, a reserve "Class B" license is a "Class B" liquor license first issued on or after December 1, 1997. Current law allows a municipality to transfer a reserve "Class B" liquor license to another municipality that is contiguous with, or within two miles of, the transferring municipality. The receiving municipality may then issue the license for a premises within that municipality. The quota of the transferring municipality is decreased, and the quota of the receiving municipality is increased, for each license transferred. A municipality may transfer no more than three reserve "Class B" licenses in this manner.

The bill eliminates the restriction that a municipality may only transfer a reserve "Class B" liquor license to a contiguous municipality or a municipality located within two miles of the transferring municipality. Instead, the bill allows a municipality to transfer a reserve "Class B" liquor license to another municipality located in the same county as the transferring municipality.

SENATE BILL 332***Retail closing hours during a national political convention***

As discussed above, current law generally requires a Class “B” or “Class B” licensed retailer to be closed between the hours of 2 a.m. and 6 a.m. on weekdays and between 2:30 a.m. and 6 a.m. on Saturday and Sunday. The closing hours for a “Class C” licensed retailer are generally the same as those for a “Class B” licensed retailer. As discussed above, the bill establishes the same closing hours for a producer’s full-service retail outlets and prohibits retail sales of alcohol beverages during these hours on the producer’s production premises.

The bill creates a closing hour exception, during a 2024 national political convention in Milwaukee, for Class “B,” “Class B,” and “Class C” licensed retailers, and for producers’ full-service retail outlets and production premises, located in Kenosha, Racine, Walworth, Rock, Milwaukee, Waukesha, Jefferson, Dane, Ozaukee, Washington, Dodge, Columbia, Sheboygan, or Fond du Lac County. Under the bill, during the convention period, the closing hours are between 4 a.m. and 6 a.m. However, a municipality may designate a retailer or producer as ineligible or disqualified for the extended closing hour and may, by ordinance, opt out of the extended closing hour during the convention. The bill does not affect the hours during which a retailer or producer may make sales for off-premises consumption.

Licensing exception for beer provided on brewery premises

Current law includes various licensing exceptions under which a person may provide alcohol beverages to the public without obtaining a license or permit. One exception allows the furnishing, by brewers, of beer free of charge to customers, visitors, and employees on the brewery premises if the beer is consumed on the brewery premises.

The bill removes from this exception the requirement that the beer be consumed on the brewery premises.

Retail licenses for, and underage persons at, axe throwing facilities

Current law generally prohibits the issuance of a Class “B” license for any premises where another business is conducted. Because a Class “B” license is a prerequisite for a “Class B” license, this provision also affects “Class B” licensed premises. There are, however, exceptions to the prohibition, including for a movie theater, a painting studio, and a “bowling center or recreation premises.”

The bill creates an exception allowing a Class “B” license to be issued for an axe throwing facility. The bill defines “axe throwing facility” as an establishment that provides customers with a venue to engage in the activity of axe throwing and that 1) derives at least 51 percent of its revenue from fees associated with axe throwing or 2) maintains at the venue at least five axe throwing lanes.

Under current law, with various exceptions, a person who is under 21 years of age and not accompanied by his or her parent, guardian, or spouse of legal drinking age (unaccompanied underage person) may not enter or be on any premises for which a retail license is issued. Among the various exceptions, an unaccompanied underage person may enter or be on a licensed premises that is a bowling center, movie theater, painting studio, golf course, or any of the following if certain criteria are met: billiard center, indoor golf simulator facility, indoor golf and baseball facility, athletic field, indoor or outdoor volleyball court, or private fishing farm.

SENATE BILL 332

The bill creates an additional exception allowing an unaccompanied underage person to enter or be on a Class “B” or “Class B” licensed premises that is an axe throwing facility.

Preparation and storage of premixed cocktails by “Class B” retailers

Under current law, a “Class B” license authorizes the retail sale of intoxicating liquor for consumption on the licensed premises or, if sold in a tamper-evident container sealed by the licensee, for consumption off the licensed premises (commonly referred to as “cocktails-to-go”). (See the Background section above for further discussion of a “Class B” licensee’s authorization and limitations.) Current law prohibits any person from refilling an original container that had previously been used for intoxicating liquor containing 21 percent or more of alcohol by volume and from possessing a refilled original container on “Class B” licensed premises.

Under current law, DOR may, by rule, prescribe the standard size, form, or character of any container in which intoxicating liquor is sold, but DOR may not set the size of containers in which distilled spirits are sold at a capacity greater than 1.75 liters. DOR’s rules prohibit, with exceptions, a manufacturer, rectifier, wholesaler, or retailer from possessing distilled spirits in a container that is more than 1.75 liters in capacity.

Also under current law, a person may not operate as a rectifier without holding a rectifier’s permit issued by DOR. A “rectifier” includes a producer engaged in blending, mixing, or bottling intoxicating liquor.

The bill provides express authority for a “Class B” licensee to prepare, store, and dispense mixed drinks prior to their retail sale for on-premises consumption or as a cocktail-to-go. However, there are some limitations on this authority. Under the bill, a “Class B” licensee may, on the licensed premises, prepare, store, and dispense mixed drinks, prior to such a retail sale, if all of the following apply: 1) the mixed drink is provided to the consumer in a glass or other container not exceeding 72 ounces in volume; 2) the mixed drink has not been stored for more than 48 hours; 3) if the mixed drink is stored in or dispensed from a container exceeding 1.75 liters in volume (bulk container), the bulk container does not exceed 5 gallons in volume and is labeled in compliance with the requirements set forth below; 4) the licensee has complied with the current law requirement that intoxicating liquor may be purchased only from a wholesaler; 5) the licensee has complied with the current law prohibition against refilling liquor bottles or possessing refilled liquor bottles and has also not stored the mixed drink in or dispensed the mixed drink from a wine bottle; and 6) the licensee has complied with any other applicable state or federal food safety regulation and also with any federal alcohol regulation, which currently imposes limitations on premixing cocktails and on activities involving distilled spirits in containers exceeding one gallon. The bill creates an exception to the current law limitation on a retailer’s possession of distilled spirits in a container exceeding 1.75 liters and specifies that a “Class B” licensee that prepares, stores, or dispenses mixed drinks in compliance with the bill’s requirements is not a rectifier.

Under the bill, the division must prescribe the form of the label to be used by “Class B” licensees for bulk containers in which mixed drinks are stored or from which they are dispensed. This form must require the licensee to disclose on the label

SENATE BILL 332

that the container holds a batch of premixed drinks and the date and time the batch was prepared; the “expiration date” of the batch (the date and time that is 48 hours after the batch was prepared); the words “contains alcohol”; the name of the person who prepared the batch; and the ingredients of the batch, unless the label contains a recipe title and the recipe, with a complete ingredient list, is maintained on the licensed premises and available for inspection.

Because this bill creates a new crime or revises a penalty for an existing crime, the Joint Review Committee on Criminal Penalties may be requested to prepare a report.

For further information see the state and local fiscal estimate, which will be printed as an appendix to this bill.

22 to the same extent as if the manufacturer or rectifier were a retail licensee.

23 (d) 1. A manufacturer or rectifier may not commence sales of alcohol beverages
24 at a full-service retail outlet unless, prior to commencing such sales, the

SENATE BILL 332

1 manufacturer or rectifier receives approval from the municipality in which the

12 be based on the same standards and criteria that the municipality has established
13 by ordinance for the evaluation and approval of retail license applications. A
14 municipality may not impose any requirement or restriction in connection with the

24 b. The manufacturer or rectifier provides a dated receipt that identifies the
25 purchase of the food and the bottle of wine.

SENATE BILL 332

2 the restaurant, the manufacturer or rectifier securely reinserts the cork into the
3 bottle to the point where the top of the cork is even with the top of the bottle, or
4 securely reattaches the original cap to the bottle, and the cork is reinserted or the cap

7 consumption.

8 (f) 1. If a manufacturer or rectifier may establish one or more full-service retail
9 outlets under pars. (b) and (g) and the manufacturer or rectifier also holds a brewer's
10 permit or winery permit or both and, as such, may establish full-service retail outlets
11 under s. 125.29 (7) (b) and (g) or 125.53 (3) (b) and (g), the aggregate number of
12 full-service retail outlets that may be established is the maximum number
13 authorized under par. (b), under s. 125.29 (7) (b), or under s. 125.53 (3) (b), whichever
14 is greatest, but not exceeding 3 full-service retail outlets. Under these
15 circumstances, each authorized full-service retail outlet shall serve as the
16 full-service retail outlet associated with each applicable permit, regardless of
17 whether the permittee would otherwise be entitled to fewer full-service retail outlets
18 when calculated under par. (b) or s. 125.29 (7) (b) or 125.53 (3) (b).

19 2. If a manufacturer or rectifier may engage in full-service retail sales on the

22 or rectifier may make retail sales on the manufacturing or rectifying premises of
23 fermented malt beverages produced under its brewer's permit or wine produced
24 under its winery permit without first purchasing the fermented malt beverages or
25 wine from a wholesaler holding a permit under s. 125.28 or 125.54 or receiving the

SENATE BILL 332

1 fermented malt beverages under authorization of s. 125.29 (3m) (b), 125.295 (1) (g),
2 or 125.30 (4).

3 3. If a person holds more than one manufacturer's permit or rectifier's permit
4 under this section, or more than one combination permit authorized under s. 125.55
5 (1), the retail sales authority under this subsection for manufacturing or rectifying
6 premises applies with respect to each permit, but the limit on full-service retail
7 outlets is an aggregate maximum, regardless of the number of permits held.

8 (g) 1. An application for a manufacturer's or rectifier's permit, including an
9 application for an amendment to the manufacturer's or rectifier's permit, shall
10 specify each full-service retail outlet of the manufacturer or rectifier and

12 2. The division shall establish a process for approval of a manufacturer's or
13 rectifier's full-service retail outlet and for revocation of this approval. The division
14 shall approve a manufacturer's or rectifier's full-service retail outlet, and may not
15 revoke this approval, unless the manufacturer or rectifier has violated a provision
16 of this chapter related to full-service retail outlets. The division's failure to approve,
17 or revocation of approval of, a full-service retail outlet described in a manufacturer's
18 or rectifier's application or permit does not affect any other full-service retail outlet
19 or the manufacturing or rectifying premises as described in the application or
20 permit.

21 3. If the division approves a full-service retail outlet, the manufacturer's or
22 rectifier's permit, as initially issued or as amended, shall particularly describe the
23 premises constituting the full-service retail outlet, which shall be considered part
24 of the premises under the manufacturer's or rectifier's permit.

SENATE BILL 332

1 4. If the division approves a full-service retail outlet, the agent appointed
2 under s. 125.04 (6) for the manufacturer's or rectifier's permit shall also serve as the
3 agent for the full-service retail outlet.

4 5. Section 125.04 (12) (a) does not apply to a manufacturer's or rectifier's
5 full-service retail outlet. Upon notice to the division, a manufacturer or rectifier may
6 relocate any full-service retail outlet to a new location within this state once per
7 calendar year, except that one full-service retail outlet of a manufacturer or rectifier
8 may be relocated without limitation on frequency in each calendar year.

9 **(5) CLOSING HOURS.** (a) On a manufacturer's or rectifier's premises, no person
10 may sell alcohol beverages at retail for on-premises consumption, provide taste
11 samples of alcohol beverages, or consume alcohol beverages during the closing hours

13 under sub. (4) shall be subject to the same closing hours applicable to a Class "B"
14 licensee under s. 125.32 (3) (a).

15 (b) On a manufacturer's or rectifier's premises and at a full-service retail
16 outlet, no person may sell alcohol beverages at retail for off-premises consumption
17 during the hours in which a Class "B" licensee in the municipality where the
18 manufacturing or rectifying premises or retail outlet is located may not make retail
19 sales under s. 125.32 (3) (am) and (d).

20 (c) No member of the public or invited guests may be present on a
21 manufacturer's or rectifier's premises during the closing hours applicable to a Class
22 "B" licensee under s. 125.32 (3) (a).

23 (d) Activities authorized under a manufacturer's or rectifier's permit related
24 to the production, shipment, transportation, or delivery of alcohol beverages may
25 occur at any time.

5 this state, a cumulative total of at least 1,000 gallons of wine in any one of the 3
6 preceding calendar years, the winery may engage in full-service retail sales on the
7 winery premises.

8 3. If a winery held a "Class B" license immediately preceding the effective date
9 of this subdivision [LRB inserts date], for a location other than the winery
10 premises, that location shall be considered the winery premises for purposes of the
11 retail sales authorization under subds. 1. and 2. and that location shall be in addition
12 to any retail sales locations authorized under par. (b).

13 (b) Notwithstanding ss. 125.04 (9) and 125.09 (1), and subject to pars. (d) and
14 (g), if a winery manufactured or bottled, on all winery premises operated by the
15 winery in this state, a cumulative total of at least 1,000 gallons of wine in any one
16 of the 3 preceding calendar years, the winery may engage in full-service retail sales
17 at off-site locations identified in the winery permit. Subject to pars. (f) and (g), the
18 number of retail sales locations a winery is allowed in addition to the winery
19 premises is determined by the cumulative volume of wine the winery manufactured
20 or bottled on all winery premises operated by the winery in this state in any one of
21 the 3 preceding calendar years, as follows:

22 1. If the winery's cumulative volume in a year was at least 1,000 gallons of wine
23 but less than 5,000 gallons of wine, the winery may establish one full-service retail
24 outlet.

SENATE BILL 332

1 2. If the winery's cumulative volume in a year was at least 5,000 gallons of wine
2 but less than 25,000 gallons of wine, the winery may establish not more than 2
3 full-service retail outlets.

4 3. If the winery's cumulative volume in a year was at least 25,000 gallons of
5 wine, the winery may establish not more than 3 full-service retail outlets.

6 (c) 1. Except as provided in subd. 2. and par. (f), a winery may make full-service
7 retail sales of alcohol beverages on the winery premises and at any of its full-service
8 retail outlets only if the alcohol beverages were purchased by the winery from a
9 wholesaler holding a permit under s. 125.28 or 125.54, from a brewer authorized to
10 make sales to retailers under s. 125.29 (3m), from a brewpub authorized to make
11 sales to retailers under s. 125.295 (1) (g), or from a permittee under s. 125.30
12 authorized to make sales to retailers under s. 125.30 (4).

13 2. A winery is not required to purchase from another permittee wine
14 manufactured or bottled by the winery that the winery sells at retail on the winery
15 premises or at a full-service retail outlet of the winery.

16 3. Subject to subd. 2. and par. (f), a winery engaged in full-service retail sales
17 on winery premises or at a full-service retail outlet of the winery is subject to ss.
18 125.33 (9) and 125.69 (6) to the same extent as if the winery were a retail licensee.

19 (d) 1. A winery may not commence sales of alcohol beverages at a full-service
20 retail outlet unless, prior to commencing such sales, the winery receives approval
21 from the municipality in which the full-service retail outlet is located and from the
22 division as provided in par. (g).

23 2. Subject to par. (f), a municipality may limit the scope of alcohol beverages
24 offered for sale at a full-service retail outlet only with respect to alcohol beverages
25 that are not of the same type as those produced by the person holding the winery

SENATE BILL 332

1 permit. A municipality may not limit the sale, at a full-service retail outlet, of
2 alcohol beverages produced by the person holding the winery permit. If a
3 municipality limits the scope of alcohol beverages offered for sale, the provision of
4 taste samples is limited to those alcohol beverages authorized to be sold.

5 3. Except as provided in subd. 2., a municipality's approval under subd. 1. shall
6 be based on the same standards and criteria that the municipality has established
7 by ordinance for the evaluation and approval of retail license applications. A
8 municipality may not impose any requirement or restriction in connection with the
9 approval under subd. 1. that the municipality does not impose on retail licensees.

10 (e) 1. A winery may operate a restaurant at any full-service retail outlet under
11 this subsection and on the winery premises.

12 2. If the winery operates a restaurant as provided in subd. 1., the winery may
13 make retail sales of wine in an opened original bottle, in a quantity not to exceed one
14 bottle, for consumption both at the restaurant and away from the restaurant if all
15 of the following apply:

16 a. The purchaser of the wine orders food to be consumed at the restaurant.

17 b. The winery provides a dated receipt that identifies the purchase of the food
18 and the bottle of wine.

19 c. Prior to the opened, partially consumed bottle of wine being taken away from
20 the restaurant, the winery securely reinserts the cork into the bottle to the point
21 where the top of the cork is even with the top of the bottle, or securely reattaches the
22 original cap to the bottle, and the cork is reinserted or the cap is reattached at a time
23 other than during the hours in which the winery is prohibited under sub. (4) (b) from
24 making retail sales for off-premises consumption.

SENATE BILL 332

1 (f) 1. If a winery may establish one or more full-service retail outlets under
2 pars. (b) and (g) and the winery also holds a manufacturer's or rectifier's permit or
3 brewer's permit or both and, as such, may establish full-service retail outlets under
4 s. 125.29 (7) (b) and (g) or 125.52 (4) (b) and (g), the aggregate number of full-service
5 retail outlets that may be established is the maximum number authorized under par.
6 (b), under s. 125.29 (7) (b), or under s. 125.52 (4) (b), whichever is greatest, but not
7 exceeding 3 full-service retail outlets. Under these circumstances, each authorized
8 full-service retail outlet shall serve as the full-service retail outlet associated with
9 each applicable permit, regardless of whether the permittee would otherwise be
10 entitled to fewer full-service retail outlets when calculated under par. (b) or s. 125.29
11 (7) (b) or 125.52 (4) (b).

12 2. If a winery may engage in full-service retail sales on the winery premises
13 as provided in par. (a) 2. and the winery also holds a brewer's permit or
14 manufacturer's or rectifier's permit or both, the winery may make retail sales on the
15 winery premises of fermented malt beverages produced under its brewer's permit or
16 intoxicating liquor produced under its manufacturer's or rectifier's permit without
17 first purchasing the fermented malt beverages or intoxicating liquor from a
18 wholesaler holding a permit under s. 125.28 or 125.54 or receiving the fermented
19 malt beverages under authorization of s. 125.29 (3m) (b), 125.295 (1) (g), or 125.30
20 (4).

21 3. If a person holds more than one winery permit under this section, the retail
22 sales authority under this subsection for winery premises applies with respect to
23 each winery permit, but the limit on full-service retail outlets is an aggregate
24 maximum, regardless of the number of winery permits held.

SENATE BILL 332

1 (g) 1. An application for a winery permit, including an application for an
2 amendment to the winery permit, shall specify each full-service retail outlet of the
3 winery and particularly describe the premises of the full-service retail outlet.

4 2. The division shall establish a process for approval of a winery's full-service
5 retail outlet and for revocation of this approval. The division shall approve a winery's
6 full-service retail outlet, and may not revoke this approval, unless the winery has
7 violated a provision of this chapter related to full-service retail outlets. The
8 division's failure to approve, or revocation of approval of, a full-service retail outlet
9 described in a winery's application or permit does not affect any other full-service

11 3. If the division approves a full-service retail outlet, the winery permit, as
12 initially issued or as amended, shall particularly describe the premises constituting

16 under s. 125.04 (6) for the winery permit shall also serve as the agent for the
17 full-service retail outlet.

18 5. Section 125.04 (12) (a) does not apply to a winery's full-service retail outlet.
19 Upon notice to the division, a winery may relocate any full-service retail outlet to a
20 new location within this state once per calendar year, except that one full-service
21 retail outlet of a winery may be relocated without limitation on frequency in each
22 calendar year.

23 (4) (a) On winery premises, no person may sell alcohol beverages at retail for
24 on-premises consumption, provide taste samples of alcohol beverages, or consume
25 alcohol beverages during the closing hours applicable to a Class "B" licensee under

SENATE BILL 332

1 s. 125.32 (3) (a). A full-service retail outlet under sub. (3) shall be subject to the same
2 closing hours applicable to a Class “B” licensee under s. 125.32 (3) (a).

3 (b) On winery premises and at a full-service retail outlet, no person may sell
4 alcohol beverages at retail for off-premises consumption during the hours in which
5 a Class “B” licensee in the municipality where the winery or retail outlet is located
6 may not make retail sales under s. 125.32 (3) (am) and (d).

7 (c) No member of the public or invited guests may be present on winery
