Analysis by the Legislative Reference Bureau

This bill increases and expands the individual state income tax subtraction for payments or distributions received from qualified retirement plans under the Internal Revenue Code or from certain individual retirement accounts. Under the bill, beginning in tax year 2024, up to \$100,000 of payments or distributions received from qualified retirement plans or certain individual retirement accounts may be subtracted annually from an individual's taxable income, if the individual is at least 67 years of age. If the individual and individual's spouse are both at least 67 years of age, the sum of the amount that the couple may subtract annually from their combined taxable income may not exceed \$150,000.

Under current law, up to \$5,000 of payments or distributions received by certain individuals from qualified retirement plans or from certain individual retirement accounts may be subtracted. To be eligible, the individual must be at least 65 years old and have federal adjusted gross income under \$15,000, or under \$30,000 if married.

Because this bill relates to an exemption from state or local taxes, it may be referred to the Joint Survey Committee on Tax Exemptions for a report to be printed as an appendix to the bill.
