29.02 Title to wild animals. (1) The legal title to, and the custody and protection of, all wild animals within this state is vested in the state for the purposes of regulating the enjoyment, use, disposition, and conservation thereof.

(2) The legal title to any such wild animal, or carcass or part thereof, taken or reduced to possession in violation of this chapter, remains in the state; and the title to any such wild animal, or carcass or part thereof, lawfully acquired, is subject to the condition that upon the violation of any of the provisions of this chapter relating to the possession, use, giving, sale, barter, or transportation of such wild animal, or carcass or part thereof, by the holder of such title, the same shall revert, ipso facto, to the state. In either case, any such wild animal, or carcass or part thereof, may be seized forthwith, wherever found, by the state conservation commission or its deputies.

29.03 Public nuisances. The following are declared public nuisances:

(1) Any unlicensed net of any kind, or other unlicensed device, trap, or contrivance for fishing; or any licensed net or other device, trap or contrivance for fishing set, placed, or found in any waters where the same is prohibited to be used, or in a manner prohibited by law.

(8) Any dog found running deer at any time, or used in violation of this chapter.

(9) Any ferret, rat, weasel, or guinea pig in possession or used while hunting.

29.04 Abandoned dams. (1) The state conservation commission may remove or cause to be removed, in such manner as they may deem fit, old and abandoned dams in streams in the state of Wisconsin, upon giving sixty days' notice in writing to the owner thereof, if he can be found. If the owner of such dam be unknown or cannot, by due diligence, be found, the commission shall publish notice once each week for four successive weeks in some newspaper published in the county in which such dam is situated.

(2) Whenever the conservation commission shall determine that the conservation of any species or variety of wild animals will be promoted thereby, the commission is authorized to maintain and repair any dam located wholly upon lands the title to which is in the state either as proprietor or in trust for the people; subject, however, to the powers of the public service commission to fix the level and regulate the flow of the public waters.

29.05 Police powers; searches; seizures. (1) **ARRESTS.** The state conservation commission and its deputies are hereby authorized to execute and serve all warrants and processes issued by any justice of the peace or police magistrate or by any court having jurisdiction under any law relating to wild animals, in the same manner as any constable may serve and execute such process; and to arrest, with or without a warrant, any person detected in the actual violation, or whom such officer has reasonable cause to believe guilty of the violation of any of the provisions of this chapter, and to take such person before any court in the county where the offense was committed and make proper complaint.

(2) **INVESTIGATIONS.** Such officers shall, upon receiving notice or information that any provision of this chapter has been violated, as soon as possible make a thorough investigation thereof, and cause proceedings to be instituted if the proofs at hand warrant it.

(4) **OPENING PACKAGES.** The state conservation commission and its deputies may examine and open any package in the possession of a common carrier which they suspect or have reason to believe contains contraband wild animals, or carcasses or parts thereof, or is falsely labeled in violation of the provisions of this chapter; and every such common carrier, and every agent, servant, or employe thereof, shall permit any such officer to examine and open any such package. Any package so opened shall be restored to its original condition.

(5) **ACCESS TO STORAGE PLACES.** They shall be permitted by the owner or occupant of any cold storage warehouse or building used for the storage or retention of wild animals, or carcasses or parts thereof, to enter and examine said premises; and the said owner or occupant, or his agent, servant, or employe, shall deliver to any such officer any wild animal, or carcass or part thereof, in his possession during the close season therefor, whether taken within or without the state.

(6) **SEIZURE AND CONFISCATION OF GAME, OR GAME FISH.** They shall seize and confiscate in the name of the state any wild animal, or carcass or part thereof, caught, killed, taken, had in possession or under control, sold or transported in violation of this chapter; and any such officer may, with or without warrant, open, enter and examine all buildings, camps, vessels or boats in inland or outlying waters, wagons, automobiles or other vehicles, cars, stages, tents, suit cases, valises, packages, and other receptacles and places where he has reason to believe that wild animals, taken or held in violation of this chapter, are to be found; but no dwelling house or sealed railroad cars shall be searched for the above purposes without a warrant.

(7) **SEIZURE AND CONFISCATION OF PROPERTY.** They shall seize and hold subject to the order of the court or judge located in the county in which the alleged offense was committed, any apparatus, appliance, or any vehicle or device, declared by any provision of this chapter to be a public nuisance, or which they shall have reason to believe is being used in violation of this chapter, and if it be proven that the same is, or has been within six months previous to such seizure, used in violation of this chapter, the same shall be confiscated if the court shall so direct in its order for judgment. Any seizure of perishable property made by the conservation commission or its wardens may be sold at the highest available price, and the proceeds of such sale turned into court to await disposition of such proceeds as the court may direct. It shall be lawful for any conservation warden or other ministerial officers charged with the enforcement of the laws dealing with the conservation of the natural resources of the state, to destroy any dog found running, worrying, or killing any

deer, or destroying game birds, their eggs or nests, wherein they deem it advisable and necessary.

(8) **ENTIRE SHIPMENT AFFECTED.** Confiscation of any part of a shipment under this section shall include the entire shipment.

(9) **EXEMPTION FROM LIABILITY.** Each commissioner and each deputy conservation warden, in the performance of his official duties, shall be exempt from any and all liability to any person for acts done or permitted or property destroyed by authority of law. In any action brought against the commissioner or warden involving any official action it shall be the duty of the district attorney of the county in which the action is commenced to represent such commissioner or warden. No taxable costs or attorney fees shall be allowed to either party in said action.

A duty to appear for the warden in the trial court would devolve upon the attorney general only where an appropriate request was made by the commission and approved by the governor. The commission has no statutory authority to retain counsel for the warden or to pay any of the expenses of the litigation. 39 Atty. Gen. 560.

29.06 Sale of confiscated game and apparatus. (1) All confiscated wild animals, or carcasses or parts thereof, and all confiscated apparatus, appliances or devices shall, if not destroyed as authorized by law, be sold at the highest price obtainable, by the state conservation commission or its deputies, or by an agent on commission under the written authority and supervision of the state conservation commission or its deputies. The net proceeds of such sales, after deducting the expense of seizure and sale and any such commissions, shall be promptly remitted by the warden by whom or under whose authority and supervision the sales are made, to the state conservation commission; the remittance to be accompanied by a complete and certified report of such sales, supported by proper vouchers covering all deductions made for expenses and commissions, to be filed for records in the office of the state conservation commission. Of the remittance from such sales of confiscated apparatus, appliances or devices, 18 per cent shall be paid into the conservation fund to reimburse it for expenses incurred in seizure and sale, and the remaining 82 per cent shall be paid into the common school fund. In the case of the proceeds from the sale of a confiscated motor vehicle if the holder of a bona fide recorded chattel mortgage or bona fide sales contract with such motor vehicle as security, shall satisfy (and the burden of proof shall be upon him) the court, or after judgment of confiscation, the state conservation commission, that the violation that led to such confiscation was not with his knowledge, consent or connivance or with that of some person employed or trusted by him, there shall also be deducted the amount due under such mortgage or conditional sales contract from the proceeds of such sale and the amount due shall be paid to the one entitled; in case a sufficient amount does not remain for such purpose after the other deductions then the amount remaining shall be paid. After the commission has knowledge of such contract or mortgage and the address of the owner thereof the commission shall give the owner of such contract or mortgage notice of the time and place when there is to be any proceeding before the court or the judge pertaining to such confiscation and shall also give notice of the time and place of sale.

(2) On any such sales of wild animals, or carcasses or parts thereof, the warden or agent selling them shall issue to each purchaser a certificate, on forms to be prepared and furnished by the state conservation commission, covering such sales. The animals, or carcasses or parts thereof, so purchased shall be consumed or otherwise disposed of by the purchaser within a period to be set by the conservation commission, but shall not be resold, bartered, or exchanged, in whole or in part, to any other person, except as provided in subsection (3).

(3) Confiscated fish or game sold to the keeper, manager, or steward of any restaurant, club, hotel, or boarding house may be served to the guests thereof; but in such case the certificate covering the purchase shall be hung in public view in the place where the fish or game is served, and such fish or game shall at the time of sale be tagged by the warden or agent selling it, such tag to show the date of sale and be returned to said warden or agent within 5 days thereafter.

History: 1951 c. 214.

29.07 Assistance of police officers. All sheriffs, deputy sheriffs, coroners, and other police officers are ex officio deputy conservation wardens, and shall assist the state conservation commission and its deputies in the enforcement of this chapter whenever notice of a violation thereof is given to either of them by the commission or its deputies.

29.08 Interstate comity. (1) Whenever and so long as any other state confers upon the officers of this state reciprocal powers, any officer of such other state, who is by the laws of said state authorized or directed to enforce the laws of said state relating to the protection of wild animals, is hereby designated an agent of said state within this state. It shall be lawful for said officer to follow any wild animal, or carcass or part

thereof unlawfully shipped or taken from his state into this state, seize and convey the same back to his own state; and so far as concerns any such wild animal, or carcass or part thereof, the laws of the state from which the same was brought into this state are hereby adopted as the laws of this state. Transportation companies shall deliver to such officer, upon submission of proper proof of his official capacity, any wild animal, or carcass or part thereof, so demanded or seized by him. Said officer may dispose of any such wild animal, or carcass or part thereof, within this state, in accordance with the laws of the state from which the same was taken or shipped, under the supervision of any conservation commissioner or deputy conservation warden of this state, whose expenses for his assistance shall be a lien upon such wild animal or carcass or part thereof, or the proceeds thereof.

(2) Except as provided in subsection (1), the state conservation commission or its deputies shall seize, hold and dispose, according to the laws of this state, of any wild animal, or carcass or part thereof, brought or shipped into or through this state, or attempted to be carried through this state, in violation of the laws of any other state.

(3) The state game warden of every other state, and his deputies and all other officers therein charged with the enforcement of the laws relating to wild animals are hereby designated agents of this state for the taking possession, seizing, holding and disposing, within such state, of any wild animal, or carcass or part thereof, protected by the laws of this state.

(4) Whenever and so long as any other state confers upon the officers of this state reciprocal powers, the state conservation commission is hereby authorized to appoint persons who shall have been appointed game wardens or deputy game wardens of such other state to act as and have all the powers of deputy conservation wardens of this state, but without compensation from this state.

29.085 Commission to regulate hunting and fishing in interstate waters. The conservation commission is hereby authorized to regulate hunting and fishing on and in all interstate boundary waters, and outlying waters specified in subsection (4) of section 29.01. Any act of the conservation commission in so regulating the hunting and fishing on and in such interstate boundary waters and outlying waters shall be valid, all other provisions of the statutes notwithstanding, provided such powers shall be exercised pursuant to and in accordance with section 29.174 and subsection (7) of section 23.09.

The application for such license shall bear the applicant's signature and shall state the residence and post-office address of the applicant, a description of his person, that he has complied with all of the laws regulating the issuance and purchase of the license applied for, and such other facts, showing him to be entitled to the license for which he applies, as may be required by the commission, and no license shall be issued until the foregoing provisions have been complied with by the applicant. (3) FORM OF LICENSE. Each license shall state for what year the same is issued and the date of expiration, and except as otherwise provided shall be effective only from the first day of September until the next succeeding 31st day of August, subject to the conditions, limitations and restrictions prescribed in this chapter. Resident hook and line fishing licenses shall be effective from the date of issuance to the succeeding 30th day of April. Each license issued shall further state the name and residence of the licensee, a description of his person, and such other matter as may be determined by the commis-

(4) **DUPLICATES.** Whenever any such license is lost the person to whom the same was issued may present to the authority from whom he purchased the license an affidavit proving such loss, together with a fee of fifty cents, whereupon a duplicate license shall be issued to such person. After application furnished him by the county clerk or conservation commission has been properly filled out and sworn to, such application and fee shall then be forwarded to the conservation commission at the time of making the next regular monthly report and remittance.

(4a) **DUPLICATE DEER TAG.** Whenever any deer tag is lost the person to whom the same was issued may present to the county clerk of his county an affidavit proving such loss, together with a fee of fifty cents, whereupon such county clerk shall issue a duplicate deer tag to such person.

The licenses shall be numbered consecutively, at the time of printing, in a separate series for each kind of license; and each license blank shall be provided with a corresponding stub numbered with the serial number of the license. Each requisition for the printing of such license blanks shall specify the serial numbers thereof.

(6) **LICENSES ISSUED BY COUNTY CLERK.** Of each license issued by a county clerk he shall retain the stub for record in his office. All license stubs and all unused license blanks shall be returned by the county clerk to the commission at the close of the year for which they are supplied.

(8) **RECORD OF LICENSES ISSUED.** A complete record of all licenses issued shall be kept by the commission, which shall also be accountable for all unused license blanks.

(10) **ADDITIONAL CHARGE PROHIBITED.** No county clerk, issuing agent or other person authorized to issue any license prescribed in this chapter shall make any charge, or accept any additional fee, for his services in issuing such licenses.

(11) **BOND REQUIRED.** Each county clerk shall execute and file with the commission a surety bond, guaranteed by 2 duly qualified personal sureties or by a surety company, running to the state of Wisconsin conservation commission. One or more small funnel-shaped nets commonly called tunnels with a large opening at one end and a small opening or throat at the other end through which the fish can pass from the outer part of the net into the crib or pot. This tunnel or these tunnels are attached to the inside of the crib or pot.

3. Two fence-like nets called wings or hearts attached to and extending obliquely outward from each side of the mouth of the net proper.

4. One fence-like net called a leader running from the center of the tunnel outward between the wings in a straight or angular line away from the net proper.

(f) The commission shall keep an inventory of the property of the several hatcheries, with the cost of each article, and account in detail and separately of the expenses of each hatchery; also of the distribution of the fish, of maintaining and repairing property and of such improvements as may from time to time be ordered.

(2) **TRANSPLANTATION OF FISH.** The commission may take or cause to be taken fish at all seasons of the year from any waters of the state for stocking other waters, or for the purpose of securing eggs for artificial propagation in the state hatcheries. Such fish or

eggs shall be taken only under a special permit issued by the commission, and then only in the presence of the commission or its deputies. Such permit shall specify the kinds of fish that may be taken and the manner in which they may be taken; and shall be subject to the conditions that the holder shall pay for the services of and furnish free transportation and meals on his boat to a competent person approved by the commission to spawn the fish and fertilize the eggs, and that such eggs shall be delivered at such place as may be designated by the commission and forwarded to some state hatchery for propagation.

Any such person shall permit the commission, or its deputies, or authorized agents to enter any boats, docks, grounds or other places where such fish may be, for the purpose of stripping the same while alive, and shall render such assistance as may be necessary to expedite the work of mixing the eggs and milt for proper impregnation.

(6) **ERECTION OF BARRIERS TO EXCLUDE ROUGH FISH.** The commission may for any period in its discretion erect and maintain or authorize erection and maintenance of a screen or similar barrier in any navigable stream for the purpose of preventing rough fish or other fish found to be undesirable from invading any part of such stream, provided such screen or barrier does not unreasonably interfere with navigation.

29.52 Private fish hatcheries. (1) Private fish hatchery licenses shall be issued by the commission to any person applying therefor who is the owner or lessee of lands suitable for propagating fish.

(2) The term "private fish hatchery" includes private fish hatcheries already (June 23, 1951) registered with the commission and private fish hatcheries hereafter licensed by the commission.

(3) As to private fish hatcheries hereafter established, such private fish hatcheries shall be licensed only under the following conditions:

(a) The water areas included in the license shall not include the bed of any navigable stream and shall be limited to artificially constructed ponds and lakes, and springs or natural landlocked ponds wholly surrounded by the lands of the applicant and where no substantial public interest in such ponds or springs exists. Such public interest shall be determined by the commission through public hearing.

(b) The supply of water for the hatchery may be obtained by the use of flumes, pipes or ditches from flowing streams. All such flumes, pipes or ditches shall be properly screened so as to prevent the passage of fish from such streams to the hatchery.

(4) Application for license shall be made on forms prepared by the conservation commission and shall include a verified declaration describing the lands to be used for a private fish hatchery and setting forth the title or lease of the applicant.

(5) Upon the filing of the application the commission shall inspect and investigate the same. All expenses of the inspection, except the salary of the employe who inspects the hatchery, shall be paid by the applicant. When satisfied that the applicant is the owner or lessee of the lands described and that he has complied with the provisions of this section, the commission shall issue a license to propagate, rear and sell fish of the kind specified in the application. All private fish hatchery licenses shall expire on December 31 of each year and shall be renewed, subject to the provisions of this section, upon filing of a verified report with the commission within 30 days thereafter, containing the information on the operation of the hatchery requested by the commission, together with the license fee. The fee for each license shall be \$5.

(6) Each package, box or container containing fish propagated and raised in any private fish hatchery shall have attached thereto a label as follows: "Shipped from the private fish hatchery of (Name: Location: License Number:)".

(7) No person shall stock any private fish hatchery with fish or fry obtained from any Wisconsin state-owned fish hatchery, or from any waters of the state except when such fish have been taken in a lawful manner.

(8) Any person who shall, without permission of the licensee, trespass on any licensed fish hatchery shall be fined not less than \$15 nor more than \$25 or imprisoned not more than 30 days; provided that the licensee gives notice by maintaining signboards at least one foot square, in at least 2 conspicuous places on each 40 acres of the lands included in such license. Prosecutions under this subsection shall be by the licensee.

History: 1951 c. 391.

29.53 Private hatcheries and fisheries. (1) The owner or lessee of all of the lands underlying, surrounding, or bordering upon any pond, lake or slough, natural or artificial, navigable or nonnavigable, meandered or not meandered, tributary to and connected with the Mississippi river, which pond, lake or slough does not exceed at low water one square mile in surface area, shall have the right, upon complying with the provisions of this section, to erect, establish, operate and maintain on, in or about such pond, lake, or slough, a private hatchery and fishery for the purpose of hatching, propagating and fishing therein rough fish, including buffalo fish and carp.

(2) Such owner or lessee desiring to erect, establish, operate and maintain a private hatchery and fishery in conformity with this section, shall file with the state conservation commission a verified declaration designating and describing the pond, lake or slough, which the declarant desires to use for the purpose of hatching, propagating and fishing rough fish therein, a description of all the lands underlying, surrounding, or bordering upon such water and the title or leasehold of the declarant therein. Such declaration shall also state in square miles and fraction of square miles the area of such pond, lake or slough, at low water.

(3) Upon the filing of such declaration, the state conservation commission shall forthwith examine and investigate the same and may require the declarant to produce satisfactory evidence of the facts therein stated. If upon such examination it shall appear that the pond, lake or slough designated in the declaration does not exceed at low water one square mile in surface area and that the declarant is the owner or lessee of all of the lands underlying, surrounding, or bordering upon such water, and that the declarant intends in good faith to erect, establish, operate, and maintain a hatchery and fishery on, in and about such water for the propagation or fishing of rough fish therein, the commission shall issue to the declarant a certificate under seal of the commission, which shall designate such pond, lake or slough, and certify that the declarant is lawfully entitled to use the same for the hatching, propagation and fishing of rough fish therein and to erect, establish, operate and maintain a private hatchery and fishery for the purpose of hatching, propagating and fishing therein of rough fish, including buffalo fish and carp.

(4) Such certificate of the commission shall be prima facie evidence in all courts and proceedings of the lawful right of the declarant therein named, his or its successors or assigns for the full term of twenty-five years from the date of issuance thereof, to erect, establish, operate and maintain a private hatchery and fishery in the pond, lake or slough therein designated and shall, unless and until sooner revoked as hereinafter provided, entitle the declarant therein named, his or its successors or assigns, to the exclusive right for and during said term to propagate and fish rough fish therein and to exclusive and sole ownership of and property in all rough fish caught or taken therefrom.

(5) If it shall be reasonably necessary to the successful operation of such hatchery and fishery that screens or other structures shall be erected and maintained in any brook, creek or stream flowing into or out of such pond, lake or slough, in order to prevent the escape from any such hatchery or fishery of rough fish, authority is hereby granted to erect, and maintain the same in such brook, creek or stream and upon the land owned or leased by the holder of such certificate, provided that the character and location of such screens or other structures for such purpose shall be determined by the commission in said certificate and, provided further, that if it shall at any time appear that such brook, creek or stream is used by the public for the purposes of navigation, the commission may, if such public use is substantial and reasonably necessitates the same, require locks or boatways to be erected and maintained in connection with and as a condition of the right to erect and maintain such screens or structures and may fix the character of such locks or boatways.

(6) The failure at any time for a period of two years to operate or maintain any such hatchery or fishery for which a certificate has been issued hereunder for propagating or fishing rough fish therein shall work a forfeiture of such certificate and of all right thereunder. Such certificate and all rights thereunder shall be assignable and shall pass with the title or leasehold stated in the declaration upon which the same was issued and, if issued upon a leasehold merely, shall terminate with such leasehold.

(7) Nothing in this section contained shall be construed to affect any public right of fishing or navigation, except as herein expressly provided.

29.535 Introducing foreign fish and game. (1) It shall be unlawful for any person, firm or corporation, to bring into the state of Wisconsin for the purpose of planting or introducing, or to plant or introduce into any of the inland or outlying waters of the state, any fish or the spawn thereof that are not native to such waters, or to bring into the state of Wisconsin, for the purpose of releasing or introducing, or to release or introduce in the state any wild bird or animal of any kind that is not found in, or is not native to, the state of Wisconsin at the present time, unless they shall first apply in writing to the state conservation commission for a permit therefor. Such permit shall be granted only after the state conservation commission or its duly authorized agents have made such investigation and inspection of the fish, birds or animals as they may deem necessary and approve such planting, releasing or introduction.

(2) Nothing in the provisions of this section shall prohibit the state conservation commission, the state conservation department, or its duly authorized agents from bringing into the state of Wisconsin, for the purpose of planting, introducing or releasing, or to plant, introduce or release in this state, any fish, bird or animal.

29.536 Municipal fish hatcheries. (1) Any city, town or village, upon direction and supervision of the conservation commission, is authorized to appropriate money for and may acquire, lease or contract for any land, pond, lake or slough for a fish hatchery, and to erect, establish, operate and maintain on, in or about such pond, lake or slough, a fish hatchery and fishery for the purpose of hatching, propagating and fishing therein game fish.
