The amount transferred pursuant to this paragraph shall be credited to each county in the ratio that the accumulated total previously transferred from such county's allotment pursuant to paragraph (a) and not replaced bears to the accumulated total previously so transferred from the allotments of all counties and not replaced.

(c) As used in this subsection, the first of the 3 successive post-war fiscal years shall be that fiscal year so determined as defined in section 2 of the Federal-Aid Highway Act of 1944 (Public Law 521 - 78th Congress).

Zimmerman*, 238 W 148, 298 NW 760.

Under (8), town may authorize its road improvement for year to be done by county and direct that its allotment for next year under above statute be turned over to county in payment for such work done by county. 26 Atty. Gen. 522.

County highway committee may not set uniform wage scale to be paid by all towns and villages in expending funds allotted under (8). 27 Atty. Gen. 366.

All moneys collected as motor vehicle registration fees, operator's license fees, motor vehicle fuel taxes, and motor carrier fees and taxes and all federal aid for highways and other funds received in connection with highway operations or for highway purposes shall be deposited in and constitute the separate nonlapsible trust fund which is created and designated the state highway fund.

(1) Payments made from such fund, except from appropriations made by sections 20.052, 20.091, and 20.511, shall be made only on the order of the state highway commission, from which order the director of budget and accounts shall draw his warrant in favor of the payee and charge the same to the state highway fund.

[1943 c. 364, 491; 1945 c. 358, 391; 1947 c. 9, 469, 474, 518]

Gen. 160.

Towns are entitled to obtain allotment under (8) for improvement of town roads over lands owned by federal government in area known as Camp McCoy Military Reservation where state has not ceded jurisdiction over lands in question to United States. Roads are "open and used for travel" when they are physically passable and used in fact for travel. 32 Atty. Gen. 191.

Highway commission is not bound to allocate aids by plat filed with it under 20.49 (8). Order creating town highway 2 rods wide cannot be collaterally attacked if it does not show on its face that it was not issued under 80.13. No opinion expressed as to whether order may be collaterally attacked if it does. Commission must consider highway as public for purposes of distributing aids under 20.49 (8) if order establishes it is not open to collateral attack and is not set aside by direct attack. 33 Atty. Gen. 4.

20.746 Reduction of appropriations by emergency board. (1) As an emergency measure necessitated by decreased state revenues and to prevent the necessity for a state tax on general property, the emergency board is authorized to reduce any appropriation made to any board, commission, bureau, department, the university or to any other state agency or activity for the fiscal years ending June 30, 1948, and June 30, 1949, by such amount as it deems feasible, not exceeding 25 per cent of the appropriations for these years made or continued by this legislature in its regular session of 1947, except appropriations made by section 20.07 (2) (a) and sections 20.18, 20.25, 20.27, 20.434 and 20.49 or any other moneys distributed to any county, city, village, township or school district. Appropriations of receipts and of a sum sufficient shall for the purposes of this section be regarded as equivalent to the amounts expended thereunder in the fiscal year which ended June 30, 1947. It is the intent of this section that all functions of said departments shall be continued in an efficient manner, but because of the uncertainties of the existing situation it is necessary that no public funds be expended or obligations incurred unless there shall be adequate revenues to meet the expenditures therefor. For such reasons the emergency board shall, if it deems it necessary, make such reductions of such appropriations as in its judgment will secure sound financial operations of the government for said departments and at the same time interfere least with their services and activities.

(2) No reduction in any such appropriation shall be made under authority of this section until after an opportunity to be heard is given, in writing or through publication in the official state paper, to the department, board, commission, bureau or university to whom such appropriation is made; except that for the fiscal years 1947-1948 and 1948-1949 the emergency board shall reduce the specific appropriation of each department, board, commission and institution by an amount equal to the difference between the total allotment for salaries computed pursuant to sections 14.71 (1m) and 16.105 (2) of the statutes of 1945 and the total of such salaries computed pursuant to section 16.105 (2) effective July 1, 1947, such reduction to be made without such hearing and publication. Any reduction in appropriations determined upon shall be communicated to the department, board, commission, bureau or university affected, and to the director of budget and accounts. Thereafter the director of budget and accounts shall not release and shall not draw his warrant in payment of any amount exceeding the reduced appropriations. [1935 c. 535; 1937 c. 181 s. 4; 1939 c. 142; 1941 c. 49 s. 90; 1943 c. 132; 1945 c. 293; 1947 c. 9, 331, 332]

Note: The fact that the appropriation of the Wisconsin board of dental examiners is derived entirely from licensing members of the dental profession does not render the appropriation immune from reduction by the emergency board, pursuant to this section. 28 Atty. Gen. 384.

Any funds received in repayment for expenditures made under this subsection for appliances, X-rays, emergency hospitalization, emergency medical care or transportation to or from a hospital, for crippled children under orthopedic care, which had been authorized by the bureau of handicapped children, pending other arrangements for final payments, shall be credited to the appropriation made under this subsection.

20.75 Forestalling appropriations. (1) It shall be unlawful for any state officer, department, board, commission, committee, institution or other body, or any officer or employe thereof, to contract or create, either directly or indirectly, any debt or liability against the state or for or on account of any state officer, department, board, commission, committee, institution or other body, for any purpose whatever, without authority of law

therefor, or prior to an appropriation of money by the state to pay the same, or in excess of an appropriation of money by the state to pay the same. It shall also be unlawful for any of the above-mentioned persons or bodies to authorize, direct or approve the diversion, use or expenditure, directly or indirectly, of any funds, money or property belonging to, or appropriated or set aside by law for a specific use, to or for any other purpose or object than that for which the same has been or may be so set apart. The director of budget and accounts may require such statements of outstanding accounts receivable as he deems necessary before allotting sums in excess of the unincumbered appropriation balance. [1931 c. 67 s. 144; 1947 c. 332]

20.76 Transfer of appropriation charges. (1) Whenever for economy or convenience, any materials or services are purchased, or expense is incurred by any state officer, department, board, commission, committee, institution or other body and the same is properly apportionable and chargeable to more than one appropriation, but such proportionate amounts are not determinable at that time, such officer or body is authorized to direct payment of the same out of an appropriation, to the officer or body, chargeable with some part of such materials, services or expense.

(2) In any such case the officer or body making the purchase or incurring the expense shall be held and required to determine as soon as practicable, the amounts chargeable to the several appropriations and shall issue transfer vouchers setting forth in each the reason therefor and the director of budget and accounts shall credit the appropriation from which payment was originally made and shall debit the appropriation directed to be charged by the transfer voucher in the amount named therein.

(3) Such charges and subsequent transfers shall not be construed as subjecting any person to the penalty provided in section 20.75, but in case the appropriation first charged is not fully reimbursed by such transfers, the penalty provided in the above-named section shall be held to apply as in other cases. [1931 c. 67 s. 144; 1933 c. 140 s. 1; 1947 c. 9]
