To

the extent that allotments are made pursuant to this subsection in any fiscal year, the appropriation made by subsection (1) for such fiscal year shall be correspondingly reduced, with the exception that allotments made from the conservation fund for emergency forest fire fighting purposes shall not correspondingly reduce the appropriations made by subsection (1) for such fiscal year.

Appropriations of receipts and of a sum sufficient shall for the purposes of this section be regarded as equivalent to the amounts expended thereunder in the prior fiscal year which ended June 30. It is the intent of this section that all functions of said departments shall be continued in an efficient manner, but because of the uncertainties of the existing situation it is necessary that no public funds be expended or obligations incurred unless there shall be adequate revenues to meet the expenditures therefor. For such reasons the emergency board shall, if it deems it necessary, make such reductions of such appropriations as in its judgment will secure sound financial operations of the government for said departments and at the same time interfere least with their services and activities.

(2) No reduction in any such appropriation shall be made under authority of this section until after an opportunity to be heard is given, in writing or through publication in the official state paper, to the department, board, commission, bureau or university to whom such appropriation is made. Any reduction in appropriations determined upon shall be communicated to the department, board, commission, bureau or university affected, and to the director of budget and accounts.
