Ch. 321. Storage of Petroleum Products.

168.10. Definitions. 

A. "Petroleum product" means any product produced from petroleum, including but not limited to gasoline, kerosene, fuel oil, and lubricating oils.

B. "Commingled petroleum product" includes any petroleum product which is mixed or intermingled with another petroleum product.

168.11. Requirements for Storage.

A. All storage tanks, tanks, and storage vessels containing petroleum products must be constructed and maintained in accordance with the rules and regulations promulgated by the Department of Natural Resources.

B. The storage of petroleum products within the state must be approved by the department.

A. All containers used for storing petroleum products must meet the standards prescribed by the department.

B. Containers must be marked with the name of the owner and the manufacturer, as well as the grade and kind of petroleum product contained.

C. Containers must be painted red if they contain more than one quart of petroleum product.

168.13. Inspection.

A. The department may inspect any storage tank or container of petroleum products.

B. If a container is found not to be in compliance with the standards, the owner must correct the violation within a specified time period.

A. Inspection fees may be charged to the owner of the storage tank or container.

B. Fees are due upon the approval of the inspection.

168.15. Penalties.

A. A violation of the storage requirements may result in a fine of up to $1,000.

B. Repeat violations may result in the revocation of the owner's permit.

CHAPTER 170. Strays and Lost Chattels.
