Assembly Resolution 8

Requesting the President to not raise import quotas on nonfat dry milk.

Whereas, the U.S. secretary of agriculture is submitting a draft proclamation to the

President that would raise import quotas of powdered milk from 1.8 million pounds to 25 million pounds; and

Whereas, the present situation of dairy farmers is one of severe income crisis. Costs are up drastically and there is an immense income squeeze. Present and future productive capacity is greatly threatened. The situation is one of emergency crisis, aside from the threatened flood of imports; and

Whereas, the threatened import flood would drastically worsen the present situation; and

Whereas, we already are absorbing heavy cheese imports with inadequate import control. Increased powder imports would have the purpose and effect of breaking powder prices. This would

JOURNAL OF THE ASSEMBLY (January 2, 1973)

decrease farm income to 1970 or 1971 levels of income without compensating for the immense cost increases that have since occurred. Farm support prices for milk, already at less than 76% of parity, would be pushed down below the legal minimum of 75%. This massive reduction in farm income would endanger the capacity to meet public needs for milk; and

Whereas, in effect the federal government has facilitated feed exports to enhance foreign production while opening import quotas in this country to allow such increased foreign production to destroy our markets. The effect domestically is to raise feed prices to farmers while lowering milk prices to farmers; and

Whereas, income of dairy farmers is now at a level that drastically threatens to shrink the productive capacity of the dairy industry. There have been increases in farm prices for milk during this past year, but costs have risen vastly more than prices. Feed costs have virtually doubled in parts of our country. Feed prices rose by 17% in the single week ending on December 13, 1972. Harvests are delayed or lost in other parts of the nation; and

Whereas, that flood of imported powdered milk would gravely compound the dangers to the dairy economy of an income situation that already is in a state of crisis. We are absorbing accelerating cheese imports in consequence of utterly inadequate import regulation. Increased powder imports must be intended to break domestic prices and incomes, and certainly that would be their effect. Dairy farmers already in real and deep distress will be driven from their farms. This action would deny over the long run an adequate supply of milk and milk products to our own people;

Now, therefore, be it resolved by the assembly, That the President refuse to approve the proposal to raise import quotas on nonfat dry milk, not only for the interest of the dairy farmer but for the basic interest of the American consumer; and

Be it further resolved, That duly attested copies of this resolution be immediately transmitted to the U.S. Secretary of Agriculture, the President, the secretary of the senate of the United States, the clerk of the house of representatives of the United States and to each member of the congressional delegation from Wisconsin.

By Representatives HEPHNER, SWEDA, DAY, OESTREICHER, KEDROWSKI, EVERSON and MOHN.
