The department shall make a reasonable effort within 10 days after seizure to ascertain if a security interest in the seized motor vehicle exists, and shall within 10 days after obtaining actual or constructive notice of such security interest give the secured party notice of the time and place when there is to be any proceeding before the court or the judge pertaining to such confiscation and shall also give such secured party at least 10 days' notice of the time and place of sale. Constructive notice shall be limited to security interests perfected by filing. 29.33 Net and set hook fishing in outlying waters.

(1) LICENSE AUTHORIZED. Any person desiring to conduct commercial fishing operations on any of the outlying waters shall first obtain a commercial fishing license. The department may limit the number of such licenses to be issued and designate the areas in the outlying waters of Lake Superior under the jurisdiction of this state where such licensees may conduct commercial fishing operations. These determinations shall be based on the available harvestable population of fish and in the wise use and conservation of such fish so as to prevent overexploitation. The department may adopt rules defining the qualifications of licensees in the reasonable exercise of this authority, giving due consideration to residency, past record, fishing and navigation ability and quantity and quality of equipment possessed. The application for such license shall be made to the department on a blank provided for that purpose, accompanied by the fee specified in sub.

(2) Such application shall state the name and residence of the applicant, the manner in which he proposes to fish, the name or number, over-all length, gross tonnage and value of his boat, the name of the port from which the boat will operate, and the number and kind of nets and hooks or other gear he intends to use, the value of his real estate used in connection with commercial fishing and such other information as is required for statistical purposes. "Over-all length" means the minimum distance between the extreme outside end of the bow and the stern using the nearest whole number of feet. The license fee shall be based on the over-all length of the boat if a boat is used. Such license shall be issued in accordance with s. 29.09.

(2) FEES. (a) *Resident*. The fees for commercial fishing licenses for residents of this state shall be:

1. For fishing with set hook lines or nets, with or without a boat not exceeding 16 feet in overall length, \$16 per year. Any person using more than a single crew consisting of not to exceed 4 men in fishing with nets or hooks under the ice shall secure a license for each such crew. The department, upon proper application therefor, shall issue with each license to fish with nets or set hook lines under the ice 4 identification cards bearing the number of the license and the year for which issued. Each member of a single crew engaged in the setting, lifting or pulling of nets, set hook lines or other devices set under the ice under authority of said license shall carry such card on his person while so engaged and upon demand of any conservation officer shall exhibit such card. Minnow seines and dip nets used for taking smelt and minnows are exempt from this subdivision.

2. For each boat used in catching, killing, taking or transporting fish caught with nets or set hook lines, \$1 per foot over-all length and \$1 per ton additional for each ton over 10 gross tons. No license is required for a scow used only in transporting nets. Each license for a boat propelled by sail, steam, gas or other mechanical power shall entitle the licensee to operate a rowboat not exceeding 16 feet in over-all length without additional license. Each such rowboat shall bear the same identification as the boat for which the license is issued and shall be used only while attending said boat. No resident shall pay less than \$16 or more than \$75 per year on any boat.

(b) *Nonresident*. The following fees shall be required from nonresidents:

1. Boats 16 feet or less, \$48; boats over 16 feet and up to and including 10 tons gross tonnage, \$3 per foot (over-all length); boats more than 10 tons gross tonnage, \$3 per foot (over-all length) and \$3 per ton in addition for each ton over 10 gross tons. No license is required for a scow used only in transporting nets. No nonresident person shall pay less than \$48 or more than \$225 per year on any boat.

2. Fishing without a boat or with gear set under the ice, \$200.

(c) *Nonresident defined*. For the purpose of this section, the term "nonresident" shall include any individual who is not a resident under s. 29.01 (8), any individual applying for a license for use of nets on a boat registered or of record at a port outside of the state, or any partnership, association or corporation any of whose stock, boats, nets and fishing equipment has been owned by a nonresident at any time during the 2

years immediately prior to the application for a license.

(d) *Transfer of license.* The department may upon application permit the transfer of a license to any similar boat during the time a licensed boat is disabled or undergoing repairs or upon the sale of a licensed boat. The fee for transfer of such license is \$5.

(e) *Effective date of licenses.* Each such license shall be effective from July 1 until June 30 of the succeeding year.

(f) *Registered boats.* Any registered boat used by a resident licensee shall be from a port of record in this state and its hailing port shall be a port in this state.

(3) **MEANING OF BOAT.** In this section the term "boat" includes all types of watercraft.

29.336 Description of nets; use of. (1)

ENTRAPPING NETS. (a) *Fyke net.* A fyke net is a composite net consisting of the following parts:

1. One net of a general hoop or circular-like structure commonly called a crib or pot with numbers of hoops holding, encasing or inclosing net webbing.

2. One or more small funnel-shaped nets commonly called tunnels with a large opening at one end and a small opening or throat at the other end through which the fish can pass from the outer part of the net into the crib or pot. This tunnel or these tunnels are attached to the inside of the crib or pot.

3. Two fence-like nets called wings or hearts attached to and extending obliquely outward from each side of the mouth of the net proper.

4. One fence-like net called a leader running from the center of the tunnel outward between the wings in a straight or angular line away from the net proper.

(b) *Drop net.* A drop net is a composite net consisting of the following parts:

1. One net of a general hoop or circular-like structure called a crib or pot with numbers of hoops holding, encasing or inclosing net webbing.

2. One or more small funnel-shaped nets commonly called tunnels with a large opening at one end and a small opening or throat at the other through which the fish can pass from the outer part of the net into the crib or pot. This tunnel or these tunnels are attached to the inside of the crib or pot.

3. One funnel- or hood-shaped net called a tunnel sloping upward and outward from the pot or crib.

4. Two fence-like nets called wings or hearts attached to and extending obliquely outward from each end of the tunnel.

5. One fence-like net called a leader running from the center of the tunnel outward between

the wings in a straight or angular line away from the net proper.

(c) *Short tunnel pound net.* A short tunnel pound net is a composite net consisting of the following parts:

1. One boxlike receptacle closed at the bottom and sides and open at the top in which the fish are finally caught or impounded and variously known as a pound, pot or crib, but generally and commonly known in Wisconsin as a pot.

2. Two fence-like nets called hearts set one on each side of the tunnel mouth and used to form a preliminary inclosure resembling a heart in shape with no cover on the top or bottom.

3. One or more funnel-shaped nets commonly called a tunnel or tunnels with a large opening at one end and a small opening or throat at the other through which the fish can pass from the hearts into the pot.

4. One fence-like net called a leader running from the opening in the hearts in a straight or angular line away from the net proper.

5. All pound nets licensed or operated under this section must have their tunnels located and fastened entirely on the inside of the pot of the same, forming a net that is commonly known and called a short tunnel pound net.

(2) **ENTANGLING NETS.** (a) *Trammel net.* A trammel net is made of 3 sheets of net webbing, one of them of comparatively small mesh and of fine twine being hung between 2 sheets of net webbing of much larger mesh and heavier twine. This net is equipped at the top and bottom with lead or maitre cord, line, or rope to which at the top are attached floats and at the bottom, sinkers. The inner web of this net is of considerably greater fullness than the outside web.

(b) *Gill net.* A gill net is a net designed to entangle fish and made of a single web of fine thread hung and fitted at the top and bottom with lead or maitre cord, line, or rope to which are attached at the top, floats, and at the bottom, sinkers.

(3) **DRAG NETS; SEINE.** A seine is a net made of a circular, square or long webbing of coarse twine hung very full and fitted at the top and bottom with lead or maitre cord, line or rope. To such lines at the top are attached floats, and at the bottom, sinkers. This net is hung with such fullness that it creates or forms a kind of a bag near the center of the net which holds or entraps the fish while the net is being drawn through the waters.

(4) **USE OF NETS.** (a) *Fyke net.* It shall be lawful for any person using licensed fyke nets to set, place or operate any number of these nets or the pots or cribs of the same in group or other formation while fastened together by means of leader or similar net webbing.

(b) *Drop net.* It shall be lawful for any person using licensed drop nets to set, place or operate any number of these nets or the pots or cribs of the same in group or other formation while fastened together by means of leader or similar net webbing, but no such net or nets shall be in any instance equipped with an outside tunnel of a length greater than 15 feet.

29.34 Net licenses, Mississippi and St. Croix rivers. (1) Licenses which authorize the use of nets in the Mississippi river as limited herein and in that part of the St. Croix river downstream from the dam at St. Croix Falls shall be issued subject to s. 29.09 by the department to any resident applying therefor. This subsection as applicable to the St. Croix river shall not become effective until Minnesota has enacted similar legislation.

(2) Each such license shall expire on April 15 next succeeding the date of its issue, and shall authorize the use of one or more of the following nets only: Seines, gill nets, bait nets to be used without leads, buffalo nets and frame nets.

(3) The fee for each such license is: For seines, \$20 for the first 500 lineal feet, \$10 for the second 500 lineal feet, \$2 for each additional 100 lineal feet; for gill nets, \$10 for the first 2,000 lineal feet, \$1 for each additional 100 lineal feet; for bait nets, \$20 for license; for buffalo and frame nets \$10 for license and 50 cents for each tag.

(4) No such licensed net shall be used until it is equipped with metal tags stamped to designate the kind of net and number of the license covering it. One tag shall be securely fastened to each 500 lineal feet, or fraction thereof, of seine; one to each 2,000 lineal feet, or fraction thereof, of gill net, except when lifting or setting; and one to each bait, buffalo or frame net. Such tags shall be furnished by the department to the licensee at the time of issuing the license, on payment of a fee of 25 cents for each tag other than for a buffalo or frame net and 50 cents for each tag on a buffalo or frame net.

(5) Each such licensee shall keep a strict record and account as to each variety of fish and the number of pounds thereof taken by him in his licensed gear and such other information as the department requires; and shall report thereon to the department on or before the 10th day of each month during the license period.

29.343 Slat and trammel net fishing in the Mississippi. (1) Licenses which shall authorize the use of slat nets in the Mississippi river over which this state has jurisdiction between the Minnesota-Iowa boundary line extended and the Wisconsin-Illinois boundary line extended shall be granted for the taking of commercial fish.

Each license issued under this section expires on April 15 following the date of issue. The license fee shall be \$20 and each licensee or crew may operate not to exceed 50 nets, but each net before use must have attached thereto a metal tag stamped to designate the kind of net and the number of the license. Tags shall be furnished to the licensee at the time of the issuing of the license on the payment of a fee of 50 cents for each tag. Tags must remain attached to the nets until replaced by renewal tags. No slat net shall be set within 100 feet of any muskrat or beaver house. Any slat net found in such waters during the closed season and any slat net found on the Wisconsin banks or shores thereof without a tag and showing evidence of being used in the last 5 months shall be seized and held subject to the order of the court or judge under s. 29.05.

(2) Except as herein provided slat net licenses shall be issued to any resident applying therefor and shall be subject to s. 29.09, except that they shall be issued by the county clerk of the counties bordering on such waters. A sufficient supply of slat net tags shall be furnished such county clerks by the department.

(3) The department may issue annual licenses to residents authorizing the use of trammel nets in the Mississippi river over which this state has jurisdiction. The license fee shall be computed on the basis of \$20 per net not to exceed 300 feet and a tag furnished. The license shall be subject to the same provisions and conditions stated in sub. (1).

History: 1971 c. 266

29.35 Net licenses; whitefish and cisco in inland lakes. (1) Licenses which authorize the use of dip nets and seines, for fishing whitefish or cisco in any of the inland waters of the state, subject to the conditions, limitations and restrictions prescribed in this chapter or by department order, may be issued by the department, subject to s. 29.09, to any resident applying therefor. The fee for each such license is \$1.

(3) No person shall operate a whitefish or cisco net of any kind unless he has first obtained a duly issued license to do so pursuant to sub. (1) and has securely attached to such net a metal tag stamped to designate the kind of net and the serial number of the license covering it. Such tags shall be furnished by the department at the time of issuing the license.

of the county where such set or bank poles are intended to be used, to any resident of the state applying therefor. The fee for such license shall be \$2.25 and it shall expire on December 31 following the date of its issue.

(2) No set or bank pole shall be used unless there is securely attached thereto a metal tag stamped with the number of the license covering the same. Tags shall be furnished by the department to the county clerk, or agents of the same or of the department and by such agency to the licensee at the time of issuing the license.

(3) For the purposes of this section a set or bank pole is defined as a pole equipped with one line and not to exceed 2 hooks of a size not smaller than 3-0 which pole is used for fishing from the banks of lakes or rivers and may be operated in the same manner as a set line.

29.37 Set line licenses; inland waters. (1) Set line licenses shall authorize the use of set lines and hooks in inland waters in such manner as shall be determined by the department for taking, catching or killing fish, and shall be issued by the county clerk of the county bordering on the waters where such set lines are intended and permitted to be used, to any resident of the state duly applying therefor. Each such license shall expire on the December 31 next following the date of issue.

(2) The fee for each such license shall be \$1.

(3) No person shall operate any set line unless he has first obtained a duly issued license to do so pursuant to sub. (1) and has securely attached to a buoy or stake at one end of the set line, a metal tag stamped to designate the serial number of the license covering it so that it will be visible above the surface of the water. Such tag shall be furnished by the department to the county clerk, and by the latter to the licensee at the time of issuing the license, on payment of a fee of 25 cents. All fees received by county clerks for such metal tags shall be returned and reported in the same manner as are license fees, as prescribed in s. 29.09, both without deduction.

(4) All fishermen licensed under this section shall file such reports on the amounts and kinds of fish taken as may be requested by the department.

29.38 Clams and mussels. No person shall take, catch or kill any mussel or clam during the close season therefor as established by the department.

29.39 Possession during close season or in excess of bag limit. Except as otherwise expressly provided it shall be unlawful for any person to have in his possession or under his control, or have in storage or retention for any

person, any game or other wild animal or the carcass or part thereof, during the period beginning July 1 and extending to the last day of the close season therefor in each year, or any game fish at any time other than during the open season therefor and 10 days thereafter, or in excess of the bag or possession limit or below the minimum size for any game, game fish or other wild animal at any time. The open and close seasons and the bag, possession and size limits of the state or province in which taken shall apply to game, game fish and other wild animals lawfully killed outside of this state.

29.395 Game, possession in open season.

It shall be unlawful to have in possession or under control at any time the carcass or part of the carcass or skin of any protected wild animal showing that the same has been taken during the close season for such animal.

29.40 Possession of deer; heads and skins. (1) **DEER TAGS.** Any person having killed a deer shall immediately attach and lock and leave attached and locked to the gambrel of either hind leg thereof, the deer tag corresponding to his license. No person shall have in his possession or under his control, or have in storage or as a common carrier, any deer carcass or part thereof unless it is tagged as required by law.

(2) **HOME CONSUMPTION.** Any person residing in this state, having lawfully killed a deer, may have in his possession and consume the meat thereof in his own family at any time, but must leave the tag attached thereto.

(3) **HEADS AND SKINS.** The head and skin of any deer lawfully killed, when severed from the rest of the carcass, are not subject to this chapter; but no person shall have in his possession or under his control the green head or green skin of a deer during the period beginning 30 days after the close of the open deer season and the opening of the succeeding season, or at any time a deer head in the velvet, or a deer skin in the red, blue or spotted coat.

(4) **ANTLERS REMOVED OR BROKEN.** Any deer taken during an open season for hunting antlered deer only or for hunting antlerless deer only from which the antlers have been removed, broken, shed or altered so as to make determination of the legality of the deer impossible is an illegal deer.

29.41 Skins of fur-bearing animals. No person shall have in his possession or under his control the skin of any mink, muskrat, fisher, marten, beaver or otter, showing that the same has been shot or speared, nor the green skin of any fur-bearing animal from the 5th day after the beginning of the closed season for such

animal until the end thereof. No person shall have the raw skin of any muskrat, mink, beaver, otter, fisher or marten in his possession at any time unless such person is the holder of a scientist's certificate, fur dealer's license or trapper's license of current issue. No license shall be required of any person breeding, raising and producing domestic fur-bearing animals in captivity as defined in s. 29.579, nor of any person authorized to take muskrats on a cranberry marsh under a permit issued to him by the department.

29.415 Endangered species protected.

(1) **PURPOSE.** The legislature finds that certain fish and wildlife are endangered and are entitled to preservation and protection as a matter of general state concern. The federal endangered species act of 1969 and the Lacey act together provide for the protection of fish and wildlife threatened with world-wide extinction by prohibiting the importation of endangered fish and wildlife and by restricting and regulating interstate and foreign commerce in fish and wildlife taken in violation of state, federal and foreign laws. The states, however, must also assume their responsibility for conserving these fish and wildlife and for restricting the taking, possession, transportation, processing or sale of endangered fish and wildlife within their respective jurisdictions to assure their continued survival and propagation for the aesthetic, recreational and scientific purposes of future generations. The legislature finds that by eliminating the taking, possession or marketing of endangered species in this state and by establishing a program for conservation and restoration of these endangered species, their potential for continued existence will be strengthened. The legislature further finds that the activities of both individual persons and governmental agencies are tending to destroy the few remaining whole plant-animal communities in this state. Since these communities represent the only standard against which the effects of change can be measured, their preservation is of highest importance, and the legislature urges all persons and agencies to fully consider all decisions in this light.

(2) **DEFINITION.** For purposes of this section, "fish and wildlife" means any species or subspecies of any mammal, fish, wild bird, amphibian, reptile, mollusk or crustacean, any part, products, egg or offspring thereof or the dead body or parts thereof.

(3) **ENDANGERED SPECIES LIST.** (a) No later than 180 days from April 29, 1972, the department shall by rule establish an endangered species list. The list shall consist of 3 parts: fish and wildlife on the U.S. list of

endangered foreign species; fish and wildlife on the U.S. list of endangered domestic species; and a list of endangered Wisconsin species. The list of Wisconsin endangered species shall be compiled by issuing a proposed list of species threatened by state-wide extirpation, followed by solicitation of comments and public hearing. Fish and wildlife shall be deemed threatened with state-wide extirpation if the department determines, based upon the best scientific and commercial data available to it, after consultation with other state game directors, federal agencies and other interested persons and organizations, that the continued existence of such fish and wildlife in this state is endangered.

(b) The department shall annually review and, following public hearing, may revise its endangered species list and shall submit to the governor a summary report of the scientific data used to support all amendments to the state's endangered species list during that year.

(c) The department shall upon the petition of 3 persons review any fish and wildlife on the state-wide list if such persons present scientific evidence to warrant such a review, after which the department may by hearing and order amend the state-wide list. This order shall be effective immediately upon issuance.

(4) **PROHIBITION.** Except as permitted by departmental rule or permit, no person may take, transport, possess, process or sell within this state any fish and wildlife specified by the department's list of endangered fish and wildlife.

(5) **ENFORCEMENT.** (a) Whoever violates this section or any rules promulgated thereunder may be fined not less than \$100 nor more than \$1,000 or imprisoned one year or both.

(b) Any officer employed and authorized by the department, or any police officer of this state or of any municipality or county within this state, shall have the authority to execute a warrant to search for and seize any goods, business records, merchandise or fish and wildlife taken, employed, used or possessed in violation of this section. Any such officer or agent may, without a warrant and upon probable cause arrest any person suspected of violating this section. An officer or agent who has made an arrest of a person in connection with any such violation may search such person or business records at the time of arrest and seize any fish and wildlife, records, or property taken, used or employed in connection with any such violation.

(c) Goods, merchandise, fish, wildlife or records seized under par. (b) shall be held by an officer or agent of the department pending disposition of court proceedings and thereafter be forfeited to the state for destruction or disposition as the department deems appropriate. Prior to forfeiture, the department may

direct the transfer of fish and wildlife so seized to a qualified zoological, educational or scientific institution for safekeeping with costs assessable to the defendant.

(6) **PERMITS.** The department may permit, under such terms and conditions as it may prescribe by rule, the taking, exportation, transportation or possession of any fish and wildlife on the list of endangered species for zoological, educational or scientific purposes and for propagation of such fish and wildlife in captivity for preservation purposes, unless such exportation, possession, transportation or taking is prohibited or permitted by any federal law or regulation, or any other law of this state.

(7) **CONSERVATION.** The department shall conduct research on the endangered species of this state and shall review its existing programs to ensure that they are directed at conserving, protecting, restoring and propagating selected state-endangered species to the maximum extent practicable.

(8) **EXEMPTIONS.** This section shall not apply to zoological societies, municipal zoos, or officers or employes thereof.

History: 1971 c. 275.

29.42 Possession of game birds. (1) **WITHOUT LICENSE.** No person, other than the holder of a hunting license or scientist's certificate duly issued to him and in force and carried by him on his person, shall have in his possession or under his control any game bird, or animal, or the carcass or any part thereof.

(2) **NESTS AND EGGS.** No person shall take or needlessly destroy, or have in his possession or under his control, except by virtue of a scientist's certificate, the nest or eggs of any wild bird for which a close season is prescribed in this chapter.

(3) **MOUNTED COLLECTIONS.** This section shall not permit seizure of nor prohibit possession or sale of lawfully obtained wild birds and animals which are mounted or in the process of being mounted for a private collection.

29.44 Interstate transportation of game.

No person shall transport or cause to be transported, or deliver or receive or offer to deliver or receive for transportation, into or through this state, any game or game fish or carcass or part thereof from any other state in violation of the laws of such state relating to the transportation thereof; nor any game or game fish or carcass or part thereof lawfully transported from any other state, nor have the same in his possession or under his control, during the close season or in excess of the limitations prescribed for such animal in this chapter, unless such person shall have in his possession a license to take such animal duly issued to him by the state in which taken; but any person who has lawfully killed a deer in this state may, on his license only, take such deer into any adjoining state, if the laws thereof permit, and ship the same from any point in that state to any point within this state.

abundant supply of food fishes in the waters of the state.

(f) The department shall keep an inventory of the property of the several hatcheries, with the cost of each article, and account in detail and separately of the expenses of each hatchery; also of the distribution of the fish, of maintaining and repairing property and of such improvements as may be ordered.

Such fish or eggs shall be taken only under a special permit issued by the department, and then only in the presence of the department or its wardens. Such permit shall specify the kinds of fish that may be taken and the manner in which they may be taken; and shall be subject to the conditions that the holder shall pay for the services of and furnish free transportation and meals on his boat to a competent person approved by the department to spawn the fish and fertilize the eggs, and that such eggs shall be delivered at such place as may be designated by the department and forwarded to some state hatchery for propagation.

Any such person shall permit the department, or its wardens, or authorized agents to enter any boats, docks, grounds or other places where such fish may be, for the purpose of stripping the same while alive, and shall render such assistance as may be necessary to expedite the work of mixing the eggs and milt for proper impregnation.

(6) **ERECTION OF BARRIERS TO EXCLUDE ROUGH FISH.** The department may for any period in its discretion erect and maintain or

authorize erection and maintenance of a screen or similar barrier in any navigable stream for the purpose of preventing rough fish or other fish found to be undesirable from invading any part of such stream, provided such screen or barrier does not unreasonably interfere with navigation.

(1) Upon complaint in writing by an owner or lessee of land to the department that operation of the well by the department at the Bayfield fish hatchery has caused damage through disruption of well operations located within 10,000 feet of the fish hatchery well, the department shall inquire into the matter. If it appears to the department that the facts stated in the complaint are true, the department shall pay to the claimant the amount of such damages, as determined by the department.

(2) If the department determines not to pay the claim or if the amount of damages cannot be agreed upon, the claimant may present his claim to the claims board in accord with s. 16.007.

(3) Such permit shall be subject to such terms, conditions and limitations as the department deems proper. All work done under the authority of such permit shall be under the supervision of the department or its agents, who shall be afforded free access to such lake at all times for such purpose by the permittee. The expenses of such supervision shall be paid by the permittee.

(b) The supply of water for the hatchery may be obtained from lakes and ponds and flowing streams by the use of flumes, pipes, ditches and pumps, but the water so obtained shall be discharged from the hatchery into the pond, lake or stream from which taken. All flumes, pipes and ditches used to lead water into and from such hatchery shall be equipped at all times with screens so constructed, placed and maintained as to prevent the passage of fish to or from such hatchery.

purpose of hatching, propagating and fishing game fish therein, and a description of all the lands underlying, surrounding or bordering upon such water. Such municipality shall also state in square miles and fraction of square miles the area of such pond, lake or slough, at low water.

(3) Upon the filing of such declaration, the department shall forthwith examine and investigate the same. If upon such examination it shall appear that the pond, lake or slough designated in the declaration is suitable for a fish hatchery it may direct the declarant to acquire, lease or contract for the same. Thereupon such municipality may acquire, lease or contract for the lands underlying, surrounding or bordering upon such water, and thereafter the department shall issue to the municipality a certificate under seal of the department, which shall designate such pond, lake or slough, and certify that it is lawfully entitled to use the same for the hatching, propagation and fishing of game fish therein and to erect, establish, operate and maintain a hatchery and fishery for the purpose of hatching, propagating and fishing therein game fish.

The secretary may designate the opening date for harvesting wild rice in any navigable lake or stream by posting notice of such opening date on the shores of and at places of public access to such lake at least 48 hours before such opening date. Such posting is deemed sufficient notice of such opening date and no other publication thereof is required.

(b) The department shall obtain the advice and recommendations of the tribal council before establishing any rules governing the harvest, use and disposition of wild rice growing within the bounds of an Indian reservation.

(3) **LICENSE REQUIRED.** Every person over the age of 16 and under the age of 65 shall obtain a license and pay a license fee to harvest or deal in wild rice but no license to harvest shall be required of the members of the immediate family of a licensee or of a recipient of old-age assistance or general relief or members of their immediate families. Such cutting, removing, controlling or harvesting of aquatic plants in the above named waters shall be done only by persons after obtaining from the department a written permit therefor, which shall be issued without charge.

There shall be attached to or accompany the plants or parts thereof a copy of the nursery certificate issued such nursery and the same shall be prima facie evidence that the plants or parts thereof legally were taken or transported.

(3) The department shall erect or cause to be erected in suitable places near public waters or public property where the American lotus is found or the restricted areas where the arbutus or lady's-slipper or trillium are prevalent, substantial and permanent signs warning all persons against violations of this section. All state game or wildlife refuge boundary lines shall be marked by posts placed at intervals of not over 500 feet and bearing signs with the words "Wisconsin Wildlife Refuge".

29.565 Animal wildlife exhibit. The department shall establish an animal wildlife exhibit where wild animals, allowed to roam at will, may be viewed by the public without charge on state owned lands over which the department has jurisdiction, or upon lands donated to the state for the purpose. The boundary of the area shall be marked by posts placed at intervals of not over 500 feet and bearing signs with the words "Wisconsin Wildlife Exhibit Area". The department shall provide shelters thereon, for the housing of the caretaker, and the sheltering, nursing and caring for orphaned wild animals, which shall be furnished by the department, which may accept private donations of such animals. Such animals shall be sheltered and cared for until they are old enough to release, but by providing food and shelter efforts shall be made to induce the animals to return to the area year after year.

The department may thereupon employ such means as it deems wise to inform itself regarding the premises; and if, upon inspection, investigation, hearing, or otherwise, it shall appear to the satisfaction of the department that the establishment of said lands as a wildlife refuge will promote the conservation of one or more useful species or varieties native within this state, it may by order designate and establish the said lands as a wildlife refuge.

(2) **SIGNS.** Within 30 days after the date of such order the owner or owners of the said lands shall post or erect signs or notices as required and furnished by the department, proclaiming the establishment of said refuge.

(3) Upon the filing of such declaration the department shall forthwith investigate the same and may require the applicant to produce satisfactory evidence of the facts therein stated. It will be necessary for the licensee to purchase all wild game within the boundaries of the proposed farm of the species designated in the license, and to effect this purpose the department thereupon shall appoint one man, the applicant one man, and these two shall select a 3rd man, the 3 to act as a board to go upon the lands embraced within the proposed license and determine as near as possible the number of wild birds and animals of the desired species thereon at the time of the granting of the license. days after the date of such determination as accepted by the department the licensee shall pay to the department a specified sum as may be determined by the department for those species of wild birds or wild animals on the said lands that are desired for propagation purposes, the title of which rests in the state. If upon such examination it shall appear that the applicant is the owner or lessee of said lands, and the applicant intends in good faith to establish, operate and maintain a game bird and animal farm, the department shall inform him that as soon as he has built a suitable fence around the area to be included within the license, it will issue the same. Said fence shall be built as the department may direct. After the complete installation of such fence and after the department has satisfied itself that it is satisfactory and complies with the law, it shall issue a license to the applicant describing such lands, and certifying that the licensee is lawfully entitled to use the same for the breeding, propagating, killing and selling of such game birds and animals thereon according to this section. The applicant shall certify to the department that mallards liberated or propagated for shooting were produced and reared in captivity and are more than 2 generations removed from the wild. Hand-reared mallards shall not be released for shooting purposes unless such mallards have first been identified as the department directs. No such game bird or animal or mallards killed on such farm and no live game bird or animal or mallards to be consumed as food shall be removed therefrom until there has been securely fastened to each bird or animal a band or tag furnished by the department to the licensee at cost. Such band or tag shall remain attached to the bird or animal until prepared for consumption. Live birds and animals may be sold or transported. 5. The permittee agrees that the department or its wardens shall have the right to inspect the premises where such venison is retained or served.

(c) Each permittee under par. (b) shall file a verified report to the department within 30 days after the expiration of the permit containing such information regarding the operations under the permit as the department requires on forms furnished by the department.

(15) Any person who shall unlawfully and without the permission of the owner, hunt within the enclosure of said deer farm or who shall violate this section shall be fined not less than \$100 nor more than \$200 or imprisoned not less than 60 days nor more than 6 months, or both.

(16) The department may sell to owners of licenses hereunder for propagating purposes, fawns and deer at a price to be fixed by the department not exceeding \$25 each, and the department is directed to make all necessary orders, rules and regulations not inconsistent herewith, carrying out the provisions hereof to the end that the industry may be encouraged.

29.579 Domestic fur-bearing animal farms. The breeding, raising and producing in captivity, and the marketing, by the producer, of foxes, fitch, nutria, marten, fisher, mink, chinchilla, rabbit or caracul, as live animals, or as animal pelts or carcasses shall be deemed an

agricultural pursuit, and all such animals so raised in captivity shall be deemed domestic animals, subject to all the laws of the state with reference to possession, ownership and taxation as are at any time applicable to domestic animals. All persons engaged in the foregoing activities are farmers and engaged in farming for all statutory purposes.

29.58 Mink farms on muskrat farm lands.

(1) The owner or lessee of any licensed muskrat farm under s. 29.575 shall have the right, upon complying with this section, to establish upon such muskrat farm lands, a mink farm, for the purpose of breeding, propagating, trapping and controlling nondomesticated mink thereon.

(2) Such owner or lessee desiring to establish, operate and maintain a mink farm in conformity with this section, shall file with the department a verified declaration describing the lands which such applicant for a license desires to use for the purpose of breeding and propagating or controlling nondomesticated mink, and setting forth also the title or leasehold of the applicant and the number of acres embraced in the tract.

(3) Upon the filing of the declaration, the department shall forthwith investigate the same and may require the applicant to produce satisfactory evidence of the facts therein stated. If upon such examination it appears that the applicant is the owner or lessee of said lands, and that the applicant intends in good faith to establish, operate and maintain a mink farm, the department shall issue a license to the applicant describing such lands, and certifying that the licensee is lawfully entitled to use the same for the breeding, propagating, trapping of and dealing with mink.

(4) Thereupon the department shall appoint one man and the applicant one man, and these 2 shall select a 3rd man, the 3 men to act as a board to go upon the lands embraced within the license, and determine as near as possible the number of nondomesticated mink thereon at the time of the granting of the license. Such estimates shall only be made during that part of the year when there is snow on the ground. The necessary expenses of the members of such board shall be paid by the licensee. Within 10 days after the date of such determination, the licensee shall pay to the department \$2.50 for each mink so found on such lands. When such payment has been made the licensee shall become the owner of all of the mink on said lands and of all of their offspring remaining thereon. He has the right to manage and control said lands and the mink thereon, to take and trap the same at any time or in any manner which he sees fit and deems to the best advantage of his business, and to sell and

transport at any time said mink or the pelts taken from them.

(5) The holder of any such license shall pay an annual license fee of \$3.75, and such annual fee shall be for the same lands as are duly licensed as a muskrat farm under s. 29.575, without additional acreage tax.

(6) The licensee shall maintain at intervals of not more than 80 rods along the boundary of the land embraced in said license, wherever the same are not already enclosed, notices proclaiming the establishment of a muskrat or mink farm. Such notices shall be furnished by the department to the licensee at cost.

(6m) If any sign under sub. (6) is damaged or removed through no fault of the licensee, the department shall mail a notice to the effect that a sign is damaged or has been removed, stating the location where the sign is damaged or removed. Within 30 days after receipt of such notice, the licensee shall repair or replace such sign.

(7) Such license shall be prima facie evidence in all courts and proceedings of the lawful right of the licensee therein named, his successors or assigns, for the term of the license, to establish and operate a nondomesticated mink farm upon said premises, and shall entitle the licensee therein named or his successors or assigns, to the exclusive right for and during said term to breed and propagate mink thereon, and to the exclusive and sole ownership of any property in all mink caught or taken therefrom. Such licenses shall expire on December 31 of each year, but may be renewed from year to year upon payment by the licensee of the annual license fee.

(8) Any person other than the licensee or his agents who shall hunt or trap mink upon any lands described in any such license, shall be liable to the licensee in the sum of \$25, in addition to all damage which he may do to said farm or to the mink and property thereon, but all actions for such trespass shall be brought by the licensee.

(9) On or about January 1 of each year, each such licensee shall make a report to the department, covering the period from January 1 to December 31 of the previous year, upon blanks furnished by the department, stating the number of his license and the total number and value of mink killed, transported or sold from said mink farm, and such other information as the department requires.

(10) Nothing in this section shall be construed to affect any public right of hunting, trapping, fishing or navigation except as herein expressly provided, nor shall this section apply to mink raised in captivity. No mink on licensed farms shall be killed at any time by gunshot or spear.

29.582 Trespass on fox or mink farm punished. (1) Any person owning or breeding silver, silver black, black foxes, or mutations thereof, or mink which have been raised in captivity shall have the same property rights therein as enjoyed by owners or breeders of domestic animals.

(2) Whenever the owner of any premises upon which silver, silver black, black foxes, or mutations thereof, or mink which have been raised in captivity are being bred or raised shall maintain large sign boards with the following inscription painted in large letters on the side facing from the enclosure: "Fur Farm—Keep Out" in such manner and size as to be legible for a distance of 100 feet, at points not more than 200 feet apart, along the boundary lines of such premises, no person, without the consent of such owner, shall enter upon such premises and approach within a distance of 150 yards from any point of an outer fence or enclosure within which the dens or pens of such animals are located. Maintenance of signs herein provided shall not be construed as posting, nor prevent recovery of damages, under s. 29.595 (2). Any person violating this subsection shall be fined not more than \$200, or imprisoned not more than 6 months.

(3) No person, without the permission of the owner of an enclosure within which silver, silver black, black foxes, or mutations thereof, or mink which have been raised in captivity are kept for breeding purposes, shall enter such enclosures. Any person violating this subsection shall be fined not more than \$200 or imprisoned not more than 6 months.

(4) The department is not required to enforce this section.

29.585 Wildlife exhibit licenses. (1) The department may grant licenses for wildlife exhibits which are defined as any place where one or more live wild animals are kept in captivity for the purpose of exhibition or for advertising purposes. The form of application and license shall be prescribed by the department.

(2) (a) "Wildlife exhibit" does not include the exhibition of any live wild animal by any educational institution, state department, public zoo, park or garden, circus or theatrical exhibition or any such exhibition sponsored by any organization with the approval of the department.

(b) The term "wild animal" as used in this section means any mammal or bird of a wild nature as distinguished from domestic animals under the common law or under the Wisconsin statutes whether or not such mammal or bird was bred or reared in captivity.

(3) No wildlife exhibition license shall be granted by the department until it is satisfied that the provisions for housing and caring for such wild animals and for protecting the public are proper and adequate and in accordance with the standards therefor established by the department.

(4) The department shall adopt and enforce rules and regulations for the housing, care, treatment, feeding and sanitation of wild animals kept in wildlife exhibits and for the protection of the public from injury by such wild animals.

(5) It is unlawful for any person to keep any live wild animal in captivity for the purpose of exhibition or for advertising purposes or to have any wild animal in his custody or under his control for such purpose, unless a wildlife exhibit license has been issued by the department. Such license shall be required in addition to game bird and animal farm, deer farm or fur farm licenses required by statute for the possession, breeding, propagating or dealing of such wild animals when such licensed farms are wildlife exhibits as defined in sub. (1). The fee for such license shall be \$10 and such license shall expire annually on December 31.

(6) Each licensee shall file an annual, verified report with the department within 30 days after the expiration of such license containing such information on the operation of the wildlife exhibit as the department may require and on forms furnished by the department.

29.586 Humane, adequate and sanitary care of wild animals. (1) The department has the authority to examine all lands, together with buildings, licensed as game bird and animal farms, deer farms or fur farms to determine that all wild animals held in captivity on such licensed farms are treated in a humane manner and confined under sanitary conditions with proper and adequate housing, care and food.

(2) The department may order any licensee to comply with standards prescribed in such order for the housing, care, treatment, feeding and sanitation of wild animals held in captivity by the licensee.

(3) Any such licensee who fails to comply with such order of the department within 10 days of its issuance will be subject to penalties provided in s. 29.63 (1) (d).

(1) Upon complaint in writing, by the owner or lessee of any lands, to the department, that beaver are causing damage thereto, the department shall employ such means as it deems wise to inquire into the matter. If, upon inspection, investigation, hearing or otherwise, it shall appear to the

satisfaction of the department that the facts stated in such complaint are true, it may, by written permit, authorize any conservation warden or other employe of the department to capture and remove such beaver. Any beaver dam or beaver house causing damage shall not be removed until consent is given by the owner or occupant of the land on which it is located. The owner or occupant of the land failing to give such consent after receiving notice and solicitation shall be liable for all damages arising thereafter by reason of the continuing existence of beaver structures.

(2) All such beaver or the skins of such beaver shall be shipped without delay to Madison, consigned to the department. Unless other orders in writing are issued, they shall be sold in the manner of a sale of confiscated game, and the proceeds paid into the conservation fund.

29.594 Damages caused by wild ducks or geese.

(1) Any owner or grower of crops on any agricultural land, except lands under state or federal control, may claim damage to such crops caused by wild ducks or geese, by filing a verified statement of his claim with the department within 5 days after such damage allegedly occurred. Such claim shall certify that the damage was caused on agricultural lands to crops or to old or new seedings except unharvested sweet corn or any crops on farms where any crops are planted or manipulated for purposes of attracting wild ducks or geese or crops not harvested in accordance with normal agricultural practices. However, if the condition causing damage is in the nature of a continuing trespass or depredation, the claimant may, in lieu of a claim, file with the department within 5 days from the time such damage first occurs, a notice of claim, stating the nature of the condition and that damages will be claimed as soon as the total damage can be ascertained. In such case, the claimant, if he has cooperated with the department to prevent or alleviate the damage by dispersal of waterfowl or other means, shall be entitled to recover the total damages but not to exceed \$1,500 sustained during the continuance of the condition but not beyond 6 months after the date of the notice, provided he files a verified statement of his claim with the department within 10 days after the abatement of the condition but not after 6 months of the date of the notice if the condition persists. No person shall be entitled to damages under this section caused by wild ducks or geese in any area during the open season for shooting same in such area unless such open season is subject to provisions limiting the number of hunters. Any owner or occupant of agricultural lands shall deduct from his claim any amounts

received by both the owner and occupant for hunting or shooting rights upon said lands during said crop season.

(2) The department shall investigate and settle all claims. In all cases where the department and claimant cannot agree upon the amount of the damage, the department shall, upon not less than 10 days' written notice to such claimant, apply to a county judge of the county wherein the claimant resides to try and determine all issues. At the time set such judge shall hear the parties, and in such manner as he determines, inform himself in respect to the matter, and within 5 days make his award in writing and file the same. All witnesses necessary to such proceedings shall receive the same pay as witnesses in a court of record. The findings and awards of the judge are subject to review on petition of either party under ch. 227.

(3) All claims for damage caused by wild ducks or geese shall be filed with the department and shall be paid on a pro rata basis at the end of each fiscal year from the funds provided under s. 20.370 (1) (ue).

(2) CLAIMS FOR DEER OR BEAR DAMAGE. (a) Any person claiming damage to property caused by deer or bear shall file a verified statement of his claim with the department within 10 days from the time such damage is alleged to have been done. Such claim shall certify that the damage was caused on agricultural lands to growing crops, orchard trees, nursery stock, apiaries or to farm animals and poultry or on silvicultural lands to trees grown for sale to or by Christmas tree dealers licensed under s. 134.60. However, if the condition causing damage is in the nature of a continuing trespass, the claimant may, in lieu of a claim, file with the department, within 10 days from the time such damage first occurs, a notice of claim, stating the nature of the condition and that damages will be claimed as soon as the total damage can be ascertained. In such case, the claimant is entitled to recover 80% of the total damages sustained during the continuance of the condition but not beyond 6 months after the date of the notice, provided he files a verified statement of his claim with the department within 10 days after the abatement

of the condition but not after 6 months of the date of the notice if the condition persists. No person shall be entitled to damages under this section who has posted his lands against trespass or hunting.

(b) The department shall investigate and settle all claims. In all cases where the department and the claimant cannot agree upon the amount of the damage the department shall, upon not less than 10 days' written notice, to such claimant, apply to the judge of the circuit court of the county wherein the claimant resides to try and determine all the issues. At the time set such judge shall hear the parties, and in such manner as he may determine, inform himself in respect to the matter, and within 5 days make his award in writing and file the same. The findings and awards of the judge are subject to review on petition of either party as provided in ch. 227.

(c) All claims for deer and bear damage shall be filed with the department and 80% of such claims shall be paid from the funds provided for such purposes under s. 20.370 (1).

(3) **DEER FENCES.** If, upon careful examination by the department, it appears that a deer proof fence can be built or that other appropriate preventive measures can be taken at less cost than the estimated damage that might be done by deer in any area inhabited by deer, the department may pay any part or all of the costs of a deer proof fence around such area or any part thereof, or take such other measures as it may deem advisable and necessary to prevent deer damage in such area. Expenditures hereunder shall be charged against the funds provided by s. 20.370 (1).

29.596 Wild animals causing damage.

Upon complaint in writing by an owner or lessee of land to the department that wild animals are causing damage thereon the department shall inquire into the matter; and if upon investigation, or otherwise, it appears to the department that the facts stated in each such complaint are true, the department, by its agents, may capture or destroy such wild animals or issue permits to the owner or lessee of the land to capture or destroy such wild animals. All such wild animals captured or destroyed by permit shall immediately be turned over to authorized department agents who shall dispose of them as provided in s. 29.06.

29.60 Use of poison and explosives. (1) It shall be unlawful to put out baits containing poison of any description in any forests, fields or other places where it might destroy or cause the destruction of wild animals or birds, and the

possession of any such poison or poison baits in a hunting or trapping camp or on any person or persons while hunting or trapping shall be prima facie evidence of a violation hereof.

(2) It shall be unlawful to take, capture or kill or attempt to take, capture or kill any wild animal with the aid of dynamite or any other explosive or poison gas, or set any dynamite or other explosives near or on any beaver or muskrat houses. 29.65 Civil actions for damages caused by law violations. (1) The department may bring a civil action in the name of the state for the recovery of damages against any person unlawfully killing, wounding, catching, taking, trapping, or having unlawfully in possession any of the following named protected wild animals, birds, or fish, or any part thereof, and the sum assessed for damages for each wild animal, bird, or fish shall be not less than the amount hereinafter stated in this section:

(a) Any moose, elk, fisher, or sand hill crane, \$50.

(b) Any bear, \$30.

(c) Any deer, marten, black raccoon or wild swan, \$25.

(d) Any beaver or otter, \$20.

(e) Any gray raccoon or mink, \$5.

(f) Any grouse, prairie chicken, wood duck, wood cock, spruce hen, wild goose or brant, \$5.

(g) Any pheasant, Hungarian partridge, quail, rail, Jack snipe or shore bird, or protected song bird or harmless bird, \$3.

(h) Any wild duck, coot, or squirrel, \$2.

(i) Any muskrat, \$1.

(j) Any muskellunge or rock or lake sturgeon, \$10.

(k) Any large or small-mouthed black bass, \$5.

(2) Any damages recovered in such action shall be paid into the state conservation fund and disbursed therefrom by the department. The costs of such action in case of a judgment in favor of the defendant shall be paid out of the conservation fund.

(3) A civil action brought under this section shall be a bar to a criminal prosecution for the same offense, and vice versa.

The civil remedy is coextensive with the criminal sanctions of the chapter, and since the chapter does not prohibit killing fish by opening a dam unlawfully, there is no civil remedy. *Dept. of Natural Resources v. Clintonville*, 53 W (2d) 1, 191 NW (2d) 866

29.66 Deposit of money to obtain release from arrest.

(1) HOW DEPOSIT IS MADE. (2) AMOUNT OF DEPOSIT. The amount of deposit shall be based on a predetermined schedule established by the court before whom the person arrested is to appear. The maximum amount which may be deposited shall not exceed the maximum fine and costs which may be imposed for the violation.

If the court accepts the plea of nolo contendere, the defendant may move within 20 days to withdraw it and enter a plea of not guilty if he shows to the satisfaction of the court that his failure to appear was due to mistake, inadvertence, surprise or excusable neglect. 29.68 Liability of landowners. (1) SAFE FOR ENTRY; NO WARNING. An owner, lessee, or occupant of premises owes no duty to keep the premises safe for entry or use by others for hunting, fishing, trapping, camping, hiking, snowmobiling, berry picking, water sports, sightseeing or recreational purposes, or to give warning of any unsafe condition or use of or structure or activity on such premises to persons entering for such purpose, except as provided in sub. (3).

(2) PERMISSION. An owner, lessee or occupant of premises who gives permission to another to hunt, fish, trap, camp, hike, snowmobile, sightsee, berry pick or to proceed with water sports or recreational uses upon such premises does not thereby extend any assurance that the premises are safe for such purpose, or constitute the person to whom permission is granted an invitee to whom a duty of care is owed, or assume responsibility for or incur liability for any injury to person or property caused by any act of persons to whom the permission is granted, except as provided in sub. (3).

(3) LIABILITY. This section does not limit the liability which would otherwise exist for wilful or malicious failure to guard or to warn against a dangerous condition, use, structure or activity; or for injury suffered in any case where permission to hunt, fish, trap, camp, hike, snowmobile, sightsee, berry pick or to proceed with water sports or recreational uses was granted for a valuable consideration other than the valuable consideration paid to said landowner by the state; or for injury caused by acts of persons to whom permission to hunt, fish, trap, camp, hike, snowmobile, sightsee, berry pick or to proceed with water sports or recreational uses was granted, to other persons as to whom the person granting permission, or the owner, lessee

or occupant of the premises, owed a duty to keep the premises safe or to warn of danger. As used in this subsection "valuable consideration" shall not include contributions to the sound management and husbandry of natural and agricultural resources of the state resulting directly from the recreational activity.

(4) INJURY TO PERSON OR PROPERTY. Nothing in this section creates a duty of care or ground of liability for injury to person or property.

(5) DEFINITION. The word "premises" as used in this section includes lands, private ways and any buildings, structures and improvements thereon.

A visitor at a resort which allowed people to enter and which expected to sell them small items was an invitee for a valuable consideration. The exclusion for "contributions to the sound management and husbandry" is a limited exclusion. *Copeland v. Larson*, 46 W (2d) 337, 174 NW (2d) 545
