~~COMMUNITY DEVELOPMENT ASSISTANCE~~

The legislature finds that there exists in parts of the state substandard, decadent or blighted areas; and that each such area is inimical to the safety, health, morals and welfare of the residents of the area and of the state, decreases the value of private investments and threatens the sources of public revenue. The development or redevelopment of the substandard, decadent or blighted areas requires the stimulation of private investment in those areas. The menace of such areas is beyond remedy and control solely by regulatory process in the exercise of the police power and cannot be dealt with effectively by the ordinary operations of private enterprise without the aids provided in this~~

Of this remainder, the department shall allocate \$163,400 for the period from January 1, 1981, to June 30, 1981, for respite care projects. The capacity building funds for the developmentally disabled and the chronically mentally ill may not be allocated to any mental hygiene or developmental disabilities board unless the board maintains its calendar year 1979 levels of federal, state and county funding of programs for the developmentally disabled or the chronically mentally ill, except to the extent that federal funding available in calendar year 1980 and calendar year 1981 decreases. The department shall

allocate funds for respite care projects by giving priority to the expansion of existing respite care projects and to the achievement of a geographical balance in the availability of respite care services. Funds distributed for expiring federal grant pick-up shall be for funding up to 50% of the expiring federal grants. \$700,100 of the funds distributed for expiring federal grant pick-up shall be used to fund up to 50% of the cost of federal alcohol or other drug abuse and mental health center staffing grants that expire between December 31, 1979, and June 30, 1981. During fiscal years 1979-80 and 1980-81, \$983,900 shall be distributed to cover costs incurred for pick-up of up to 50% of the costs of federal alcohol or drug abuse or mental health center staffing grants that expire or substantially decline between January 1, 1978, and December 31, 1979.

The department may also pay a portion of the operational costs of these 2 centers for up to 3 years after the selection of each center or until the county operating the center generates sufficient revenue from the project to offset operational costs, whichever is sooner. The county operating the center is not required to use county tax revenues for remodeling facilities, start-up costs or initial operation. The percentage of any county's operational costs funded under this subdivision shall decrease in each subsequent year of funding. The department may allocate up to \$300,000 annually from the appropriations under s. 20.435 (2) (b) and (o) for these projects. These funds may be supplemented through reallocation of funds not expended or encumbered at the end of each calendar year, from the appropriations under s. 20.435 (2) (b) and (o).

SECTION 851. 51.42 (8) (e) of the statutes is amended to read:

(c) *Attainment area operating permit for existing source.* After the effective date of this act (1979), a person may apply for a permit for the operation of one or more points of emission from an existing stationary source if the source is an attainment area major source even if no permit is required under par. (b). No person may operate a source under an emission reduction option program unless the person has an operating permit for the source from the department. If a person elects to apply for an operating permit, the source may not be operated without that permit beginning on the date the permit is first issued and the source may not be withdrawn from this permit program.

(3) MINOR SOURCE PERMITS. (a) *Minor source.* A stationary source is a minor source if no mandatory major source permit is required for the source.

(b) *Mandatory minor source permit.* After the effective date of this act (1979), no person may commence construction of a new stationary source or commence modification of an existing stationary source if that source is a minor source unless the person has a permit from the department or unless the source is in a class exempted by rule of the department.

(c) *Operating permit for existing minor source.* After the effective date of this act (1979), a person may apply for a permit for the operation of one or more points of emission from an existing stationary source if the source is a minor source. No person may operate a source under an emission reduction option program unless the person has an operating permit for the source from the department. If a person elects to apply for an operating permit, the source may not be operated without that permit beginning on the date the permit is first issued and the source may not be withdrawn from this permit program.

(4) EXEMPTION FROM PERMIT REQUIREMENTS FOR CERTAIN MINOR MODIFICATIONS.

(a) *Minor modification.* The following actions or events are minor modifications if the action or event does not violate any condition of an existing permit or special order applicable to the source:

1. Routine maintenance and repair.
2. An increase in production rate if that increase does not exceed the operating design capacity of the stationary source.
3. An increase in the hours of operation.
4. Use of an alternate fuel or raw material.
5. Resumption of operation after a period of closure if the existing equipment has been continuously included in the source inventory as an existing source covered by plans under s. 144.31 (1) (f).
6. Change in ownership of the source.

(b) *Exempt modification.* A minor modification is an exempt modification if it does not result in a violation of an ambient air quality standard.

(c) *Exemption from permit requirements.* Notwithstanding subs. (1) (b), (2) (b) and (3) (b), no permit is required to commence modification or to operate a modified source if the modification is an exempt modification.

(d) *Determination of exemption.* 1. "Request for determination." The owner or operator of a source may notify the department of a minor modification and request the department to determine if the modification is an exempt modification.

2. "Considered exempt pending determination." A minor modification is considered an exempt modification until the department issues a determination to the contrary.

3. "Considered exempt if department fails to act." A minor modification shall be considered an exempt modification if the department does not issue a determination to the contrary within 6 months after a request is made under subd. 1 or within one year after the owner or operator files a report under ss. 144.38 and 144.54 following the minor modification.

4. "Determination that a modification is not exempt." The department may issue a determination that a minor modification is not an exempt modification within the time limits under subd. 3 and require the owner or operator to apply for the necessary permit.

(5) EXEMPTION FROM ADDITIONAL PERMIT REQUIREMENTS FOR APPROVED RELOCATED SOURCES. (a) *Approved relocated source*. A source is an approved relocated source if:

1. The source is to be relocated within an attainment area.
2. The source is a stationary source capable of being transported to a different location.
3. The source received an air pollution control permit for the relevant air contaminant prior to relocation.
4. The owner or operator of the source provides notice to and receives approval from the department prior to relocation.
5. The source in its new location meets all applicable emission limitations and does not violate an ambient air increment or ambient air quality standard.

(b) *Exempt from additional permits*. Notwithstanding subs. (2) and (3), no additional permit is required if a source is an approved relocated source.

(6) EXEMPTION BY RULE. Notwithstanding the other provisions of this section the department may, by rule, exempt types of stationary sources from any requirement of this section if the potential emissions from the sources do not present a significant hazard to public health, safety or welfare or to the environment.

144.392 Permit application and review. (1) APPLICANT NOTICE REQUIRED. A person who is required to obtain or who seeks an air pollution control permit shall notify the department of the proposed construction, modification or operation of the stationary source.

(2) PLANS, SPECIFICATIONS AND OTHER INFORMATION. (5) (c). A request for a public hearing shall indicate the interest of the party filing the request and the reasons why a hearing is warranted. The department shall hold the public hearing within 60 days after the deadline for requesting a hearing if it deems that there is a significant public interest in holding a hearing.

(b) *Procedure.* The department shall promulgate by rule procedures for conducting public hearings under this subsection. Hearings under this subsection are not contested cases under s. 227.01 (2).

(8) DEPARTMENT DETERMINATION; ISSUANCE. (a) *Criteria; considerations.* The department may approve the permit application and issue a permit according to the criteria established under s. 144.393 considering the comments received under subs. (6) and (7).

(b) *Time limits.* The department shall act on the permit application within the following time periods after the close of the public comment period or the public hearing, whichever is later, unless compliance with s. 1.11 requires a longer time:

1. Within 60 days for a mandatory permit.
2. Within 120 days for an existing source operating permit.

144.393 Criteria for permit approval. (1) **REQUIREMENTS FOR ALL SOURCES.** The department may approve the application for a permit required or allowed under s. 144.391 if it finds:

(a) *Source will meet emission limitations.* The source will meet all applicable emission limitations promulgated under ss. 144.30 to 144.426, standards of performance for new stationary sources promulgated under section 111 of the federal clean air act and national emission standards for hazardous pollutants promulgated under section 112 of the federal clean air act;

(b) *Source will not violate or exacerbate violation of air quality standard or ambient air increment.* The source will not cause or exacerbate a violation of any ambient air quality standard or ambient air increment;

(c) *Other permits approvable if source is operating under an emission reduction option.* If the source is operating or seeks to operate under an emission reduction option, the required permit applications for other sources participating in that emission reduction option are approvable; and

(d) *Source will not preclude construction or operation of other source.* The source will not degrade the air quality in an area sufficiently to prevent the construction, modification or operation of another source if the department received plans, specifications and other information under s. 144.392 (2) for the other source prior to commencing its analysis under s. 144.392 (3) for the former source.

(2) **REQUIREMENTS FOR NONATTAINMENT AREA MANDATORY MAJOR SOURCE PERMIT.** The department may approve the application for a nonattainment area mandatory major source permit if the department finds the source meets the requirements under sub. (1) and it finds:

(a) *Reasonable further progress.* By the time the source is to commence operation, the emissions from it and from other sources in or significantly affecting the air quality in the nonattainment area will be sufficiently less than the total emissions allowed prior to the application for the permit, so that reasonable further progress toward the attainment and maintenance of any ambient air quality standard will be achieved;

(b) *Lowest achievable emission rate.* The emission from the source will be at the lowest achievable emission rate; and

(c) *Applicant's other major sources meet or on schedule to meet requirements.* All other nonattainment area major sources and attainment area major sources which are located in this state and which are owned or operated by the permit applicant meet or are on schedule to meet the requirements of ss. 144.30 to 144.426 and 144.54 and rules promulgated under those sections.

(3) **REQUIREMENTS FOR ATTAINMENT AREA MANDATORY MAJOR SOURCE PERMIT.** The department may approve the application for an attainment area mandatory major source permit if the department finds the source meets the requirements under sub. (1) and it finds:

(a) *Best available control technology.* The source will be subject to the best available control technology for each applicable air contaminant;

(b) *Effects on air quality analyzed.* The effects on air quality as a result of the source and growth associated with the source were analyzed;

(c) *No adverse affect on air quality related values.* The source will not adversely affect the air quality related values of any federal mandatory class I prevention of significant deterioration area; and

(d) *Monitoring.* The permit applicant agrees to conduct monitoring specified by the department as necessary to determine the effects of the source on air quality.

(4) **EXEMPTION FROM REQUIREMENTS.** The department may waive a requirement under sub. (2) or (3) if:

(a) *Not applicable.* The requirement is not applicable to the source; or

(b) *Not necessary.* The requirement is not necessary to ensure the source will have no adverse effect on air quality if the construction and operation or modification and operation of the source would result in an allowable emission of less than 50 tons per year, less than 1,000 pounds per day or less than 100 pounds per hour of any air contaminant, whichever is most restrictive, but the hourly or daily rates apply only with respect to a pollutant for which an ambient air increment or ambient air quality standard for a period of 24 hours or less is established.

144.394 Permit conditions. (1) **DEPARTMENT MAY PRESCRIBE.** The department may prescribe conditions for an air pollution control permit to assure compliance with the requirements of s. 144.393.

(2) **PERMISSIBLE CONDITIONS.** The conditions for an air pollution control permit may include:

(a) Final inspection and release of the project for permanent operation upon completion of construction or modification.

(d) Construction and applicable operating conditions, emission control equipment maintenance requirements and emergency episode plans.

(e) Emission reduction options.

144.395 Alteration, suspension and revocation of permits. The department, after providing notice, may alter, suspend or revoke an air pollution control permit, part of that permit or the conditions of that permit if there is or was:

(1) **VIOLATION.** A violation of any conditions of the permit;

(2) **MISREPRESENTATION OR FALSIFICATION.** Any misrepresentation or a failure to disclose fully all relevant facts when obtaining the permit;

(3) **CHANGE IN RULES.** A change in any applicable emission limitations, ambient air quality standard or ambient air quality increment that requires either a temporary or permanent reduction or elimination of the permitted emission;

(4) **ELECTION.** An election by the permit holder to meet more stringent emission limitations or to limit hourly, daily or annual emissions beyond what is otherwise required; or

(5) **FAILURE TO PAY FEES.** Failure to pay the required fee.

144.396 Permit duration. (1) **MANDATORY PERMIT.** A mandatory permit is valid for the following time periods unless revoked or suspended:

(a) *Construction or modification.* Eighteen months from the date of issuance for the purposes of commencing construction or modification. The department may extend the term of the permit for the purposes of commencing construction or modification.

(b) *Permanent operation.* Five years following inspection and final release by the department under s. 144.394 (2) (a), for the purposes of permanent operation.

(2) **EXISTING SOURCE OPERATING PERMIT.** An existing source operating permit is valid for 5 years following the date of issuance unless revoked or suspended.

(c) *Newspaper notice.* Before renewing an air pollution control permit the department shall publish a class 1 notice under ch. 985 announcing the opportunity for written public comment and the opportunity to request a public hearing on the renewal.

(3) PUBLIC COMMENT. The department shall receive public comment on the renewal for a 30-day period beginning when the department gives notice under sub. (2) (c).

(4) PUBLIC HEARING. (a) *Hearing permitted.* The department may hold a public hearing on the permit renewal if requested by a person, any affected state or the U.S. environmental protection agency within 30 days after the department gives notice under sub. (2) (c). A request for a public hearing shall indicate the interest of the party filing the request and the reasons why a hearing is warranted. The department shall hold the public hearing within 60 days after the deadline for requesting a hearing if it deems that there is a significant public interest in holding the hearing.

(b) *Procedure.* The department shall promulgate by rule procedures for conducting public hearings under this subsection. Hearings under this subsection are not contested cases under s. 227.01 (2).

(5) RENEWAL. The department shall renew an air pollution control permit for a 5-year term after notice, comment and any hearing conducted under this section and after receipt of the fee required under s. 144.399 unless the department finds cause to alter, suspend or revoke the permit. This 5-year term does not apply to an extension granted under s. 144.396 (1) (a).

144.398 Failure to adopt rule or issue permit or exemption. The failure to adopt a rule or issue an air pollution control permit or the exemption or granting of an exemption from an air pollution control permit requirement does not relieve any person from compliance with any emission limitation or with any other provision of law.

144.399 Fees. (1) DEPARTMENT MAY PRESCRIBE. The department may by rule prescribe and provide for the payment and collection of reasonable fees for:

(a) *Application or renewal.* Reviewing and acting upon any application for an air pollution control permit or an air pollution control permit renewal; and

(b) *Implementation and enforcement.* Implementing and enforcing the conditions of any air pollution control permit but these fees may not include any court costs or other costs associated with an enforcement action.

(b) The legislature recognizes the need for efficient administration of public policy. In creating agencies and designating their functions and purposes, the legislature may deem it necessary to delegate rule-making authority to these agencies to facilitate administration of legislative policy. The delegation of such rule-making authority is intended to eliminate the necessity of establishing every administrative aspect of general public policy by legislation. In so doing, however, the legislature reserves unto itself:

- 1. The right to retract any such delegation of rule-making authority;*
- 2. The right to establish any aspect of general policy by legislation, notwithstanding any delegation of rule-making authority;*
- 3. The right and responsibility to designate methods of rule promulgation and rule review and modification; and*
- 4. The right to delay or suspend the implementation of any rule or proposed rule while under review by the legislature.*

(2) NOTIFICATION OF STANDING COMMITTEES. An agency shall notify the presiding officer of each house of the legislature when a proposed rule is in final draft form by submitting a notice to the officer to this effect. The notice shall be submitted in triplicate and shall be accompanied by the report required under sub. (3). A notice received under this subsection on or after November 1 of an even-numbered year shall be considered received on the first day of the next regular session of the legislature. Each presiding officer shall, within 7 working days following the day on which the notice and report is received, refer the notice and report to one standing committee. An agency may withdraw the entire draft of a proposed rule by notifying the presiding officer of its intention not to promulgate the rule. The agency shall cause a statement to appear in the Wisconsin administrative register to the effect that a proposed rule has been submitted to the presiding officer of each house of the legislature. The presiding officers shall each cause a similar statement to appear in the journal of each house.

(3) FORM OF REPORT. The report required under sub. (2) shall include the proposed rule in the form specified in s. 227.024, any recommendations of the legislative council staff and an analysis. The analysis shall include:

- (a) Findings of fact;*
- (b) A statement explaining the need for the proposed rule;*
- (c) Explanations of modifications made in the proposed rules as a result of testimony received at public hearings;*
- (d) A list of persons who appeared or registered for or against the proposed rule at any public hearing held by the agency; and*
- (e) A response to legislative council staff recommendations under s. 227.029 indicating:*
 - 1. Acceptance of recommendations in whole;*
 - 2. Acceptance of recommendations in part;*
 - 3. Rejection of recommendations; and*
 - 4. Reasons for not accepting recommendations.*

(4) STANDING COMMITTEE REVIEW. (a) Standing committee meeting. A committee may be convened upon the call of its chairperson to review a proposed rule. A committee may meet separately or jointly with the other committee to which the notice is referred, and may direct the agency to send a representative to attend the meeting. A committee may hold a public hearing to review the proposed rule.

(b) Standing committee review period. The standing committee review period extends for 30 days after the notice is referred by a presiding officer and if within the 30-day period a standing committee directs the agency to meet with it to review the draft, the standing committee review period is continued for 30 days from the date of that request. If a standing

committee and an agency agree to modifications in a proposed rule, then the period for review by both standing committees is extended to the 10th day following receipt by the committees of the modified proposed rule.

(c) Agency not to promulgate rule pending standing committee review. An agency may not promulgate a proposed rule during the standing committee review period unless both committees waive their authority to object to the proposed rule prior to the expiration of that period.

(d) Standing committee action. Either standing committee may object to the proposed rule or part of the proposed rule by taking action in executive session to object to the rule within the standing committee review period. An agency may promulgate a proposed rule or part of a proposed rule if neither committee objects to the rule or part of the rule.

(5) JOINT COMMITTEE FOR THE REVIEW OF ADMINISTRATIVE RULES. (a) Referral. If either standing committee objects to a proposed rule or part of a proposed rule, the committee shall refer the proposed rule or the part to which an objection has been made to the joint committee for review of administrative rules.

(b) Joint committee review period. The joint committee review period extends for 30 days after a proposed rule is referred to it. The joint committee shall meet and take action in executive session during that period.

(c) Agency not to promulgate rule pending joint committee review. An agency may not promulgate a proposed rule or any part thereof which is objected to by a standing committee unless the action of the standing committee is nonconcurrent in by the joint committee for the review of administrative rules under par. (d) or until the bill introduced under par. (e) fails enactment. An agency may promulgate any portion of a rule to which no objection is made under this section.

(d) Joint committee action. The joint committee for the review of administrative rules may nonconcur in an objection to a proposed rule or portion thereof by a standing committee by taking action to this effect within the joint committee review period. If the joint committee objects to a proposed rule or portion thereof, an agency may not promulgate the proposed rule or portion thereof until the bill introduced under par. (e) fails enactment. A proposed rule or portion thereof may be objected to by the joint committee only for one of the following reasons:

- 1. An absence of adequate statutory authority.*
- 2. An emergency relating to public health, safety or welfare.*
- 3. Failure to comply with legislative intent.*
- 4. Being contrary to state law.*
- 5. A change of circumstances since the original date of passage of the earliest law upon which the rule is based.*
- 6. Being arbitrary and capricious or imposing an undue hardship.*

(e) Bill to prevent promulgation. When the joint committee for the review of administrative rules objects to a proposed rule or portion of a proposed rule, the committee shall within 30 days of the date on which objection is made place before each house of the legislature, for consideration at any regular session, a bill to support the objection. If both bills are defeated, or fail enactment in any other manner, the proposed rule or portion thereof which is objected to may be promulgated. If either bill becomes law, the proposed rule or portion thereof objected to may not be promulgated unless a properly enacted law specifically authorizes the adoption of that rule or the portion to which objection is made under this section.

(f) Late introduction of bills; effect. If the bills required by this subsection are introduced 60 days or less before a time at which any rule or resolution of the legislature provides that no additional legislation may be introduced, unless either house adversely disposes of

either bill, the committee shall reintroduce the bills on the first day of the next regular session of the legislature. In such case, the proposed rule or portion of the rule to which the bills pertain may not be promulgated except as provided in par. (e). If either house adversely disposes of either bill, then the rule or portion of the rule to which objection is made may be promulgated. In this paragraph, "adversely disposes of" means that one house has voted:

1. *To indefinitely postpone the bill.*
2. *To nonconcur in the bill.*
3. *Against ordering the bill engrossed.*
4. *Against ordering the bill to a 3rd reading.*
5. *Against passage.*
6. *Against concurrence.*

(6) PROMULGATION PREVENTION PROCEDURE. (a) No bill required by this section may be acted upon by the legislature until the joint committee for review of administrative rules submits a written report on the proposed bill. The report shall accompany the introduced bill required by this section and be printed as an appendix to the bill. The report shall contain:

1. *An explanation of the issue involving the rule or portion of the rule objected to and the factual situation out of which the issue arose;*
2. *Arguments presented for and against the rule or portion of a rule at the executive session held under sub. (5);*
3. *A statement of the action taken by the committee regarding the rule or portion of the rule; and*
4. *A statement and analysis of the grounds upon which the committee relies for objecting to a rule or portion of a rule.*

(b) Upon introduction of the bills by the committee under this section, the presiding officer of each house of the legislature shall refer the bill introduced in that house to the appropriate standing committee, to the calendar scheduling committee or directly to the calendar in each house of the legislature. If a bill is referred to a standing committee and the standing committee makes no report within 30 days after referral, the bill shall be considered reported without recommendation. No later than 40 days after referral, the bills shall be placed on the calendars of the respective houses of the legislature as special orders of business according to the rules of the respective houses governing the placement of proposals on calendars and the priorities of special orders of business.

(7) NONAPPLICATION. (a) This section does not apply to emergency rules adopted under s. 227.027.

(b) This section does not apply to any proposed rule which is subject to review, approval or disapproval under s. 5.05 (9), 13.565, 13.685 (8), 19.57, 29.33 (9), 30.92 (5m), 33.02 (1), 40.95, 55.068 (5), 71.09 (12) (j), 83.42 (9), 84.30 (14), 97.42 (2m), 101.57 (11), 101.655 (9), 101.955, 110.06 (2), 110.075 (6), 144.50 (10), 144.939, 145.25 (4), 146.35 (8), 163.04 (3), 194.41 (4), 196.97 (4), 628.04 (3m), 655.015, 757.83 (3) or 973.155 (4).

SECTION 2054. Nonstatutory provisions; university of Wisconsin system. (1) **STUDY ON COOPERATIVE EXTENSION FUNDING.** The board of regents of the university of Wisconsin system shall conduct a study and report to the governor and the joint committee on finance by November 1, 1979, on the prospects for funding for cooperative extension under P.L. 95-113. If projections indicate that there will be insufficient funds after fiscal year 1979-80 to maintain the current cooperative extension program level, the board of regents shall identify in its report a plan for reducing the cooperative extension program to a level at which it can operate within available revenues. The board of regents shall transmit a copy of the report to the presiding officer of each house of the legislature, who shall refer the report to one standing committee and cause notice of the referral to be spread upon the journal of the house.

(2) **REPORT ON REPROGRAMMING OF PUBLIC SERVICE FUNDS.** The board of regents of the university of Wisconsin system shall conduct a study and report to the governor and joint committee on finance by May 1, 1980, on the methods the board uses to ensure that the board's priorities are reflected in decisions to reprogram public service funds within the university of Wisconsin-extension. The report shall also identify a method by which the governor and the legislature may be regularly informed of public service projects that have been completed. The board of regents shall transmit a copy of the report to the presiding officer of each house of the legislature, who shall refer the report to one standing committee and cause notice of the referral to be spread upon the journal of the house.

(3) **REPORT ON CONTINUING EDUCATION FEES.** The board of regents of the university of Wisconsin system shall assess and report to the governor and the joint committee on finance by May 1, 1980, on the progress that has been made by the university of Wisconsin-extension in implementing the continuing education fee study required under section 727 (5) of chapter 39, laws of 1975. The board shall include in the report any modifications found necessary to apply a consistent education fee policy to the university of Wisconsin-extension and inter-institutional offerings in the university of Wisconsin system or to make other changes for efficient and effective delivery of continuing education. The board of regents shall transmit a copy of the report to the presiding officer of each house of the legislature, who shall refer the report to one standing committee and cause notice of the referral to be spread upon the journal of the house.

(4) **ENROLLMENT DECLINE STUDY.** (a) The legislature finds that declining enrollments in the university of Wisconsin system have led to imbalances in the allocation of funding among the campuses of the system and to substantial variations in the support available at each campus for the education of students; that prospective, further enrollment declines are likely to widen the already substantial variations in support among the campuses; that the institutional and program array of the university system must be reviewed in light of prospective enrollment declines; and that appropriate planning activities must be undertaken to ensure the maintenance of program quality within a university system of reduced enrollment. The state of Wisconsin will not continue the current level of fiscal support of the university system when enrollments no longer justify that level. Accordingly, the board of regents of the university of Wisconsin system shall:

1. Review the missions, program arrays and corresponding fiscal requirements and issues related to faculty tenure, tenure density and nontenured faculty of each of the institutions of the university of Wisconsin system in light of enrollment levels in the 1980's and 1990's.

2. Establish system policies and procedures for the development and review of institutional plans for program reductions and mission changes in response to enrollment declines.

3. At institutions where current missions and program arrays are not sustainable at anticipated levels of enrollment and at costs which are comparable to other institutions within the same doctoral or nondoctoral campus grouping, take actions within its statutory powers to achieve scopes of operation consistent with enrollments at those institutions or, in instances where legislative action is required, request such action.

(b) If, in the judgment of the board of regents of the university of Wisconsin system, a campus cannot be sustained as a 4-year and graduate campus at a level of fiscal support within 30% of average support within the same doctoral or nondoctoral campus grouping, the board of regents shall prepare an implementation plan for altering the mission of the campus.

(c) The board of regents of the university of Wisconsin system shall report the results of their review and their determinations to the legislature and the governor prior to November 30, 1979.

(5) NATIONAL DIRECT STUDENT LOANS. The board of regents of the university of Wisconsin system and the higher educational aids board shall report to the joint committee on finance by January 1, 1980, on the status of their respective functions and costs in administering the national direct student loan program and on their recommendations for improving billing and collection services for these accounts.

(6) VARIABLE NONRESIDENT TUITION STUDY. The board of regents of the university of Wisconsin system and the department of administration shall develop and report to the committee on joint finance by January 1, 1980, an experimental proposal for utilizing a schedule of variable nonresident tuition which can be adapted to any university of Wisconsin system campus and which will serve to maximize usage of university of Wisconsin system facilities in a period of declining enrollment. The proposal shall include reasonable projections of the number of additional nonresident students who will be attracted by such a program and a determination that such increases in enrollment will offset the gross loss of revenue resulting from the tuition reduction and that enrollments which exceed that number will serve to stabilize resident fees.

SECTION 2056. Nonstatutory provisions; veterans affairs. (1) CONVERSION OF VETERANS HOME BUDGET TO PROGRAM REVENUE. By October 1, 1979, the department of veterans affairs shall submit to the department of administration a detailed plan for implementing the conversion of the Wisconsin veterans home budget from applied receipts to program revenue including a detailed breakdown of the appropriations under section 20.485 (1) (a) and (k) of the statutes by expenditure types for fiscal year 1980-81.

(b) The secretary of administration may also authorize expenditures to be made from the appropriation under section 20.865 (2) (a) of the statutes, as affected by this act, for the purpose of terminating a lease when the termination relates to a relocation of state agency operations which is approved by the secretary.

(c) The authority granted by this subsection is limited to such expenditures as are incurred as part of the relocations made pursuant to the initial occupancy of the general executive facility-2 and general executive facility-3 state office buildings in Madison.

(d) The secretary of administration may establish procedures which he or she deems appropriate to ensure that expenditures for the purposes authorized by this subsection are minimized and that expenditures made on behalf of state agencies whose operations are partially or wholly funded from nongeneral purpose revenue sources are appropriately reduced in determining the allocation of moneys, to the maximum extent possible.
