(b) “Agricultural production drought assistance loan” means a loan to a farmer to finance extraordinary drought-related costs, including the cost of any of the following:

1. Fertilizer, seed, fuel, pesticides, tillage services, crop insurance, or any other service or consumable good necessary to produce an agricultural commodity to replace or supplement an agricultural commodity adversely affected by drought conditions.

2. Water delivery in connection with agricultural commodities adversely affected by drought conditions.

3. Feed and associated expenses for animals to supplement feed supplies adversely affected by drought conditions.

(c) 1. “Deficiency” means that portion of the unpaid principal amount of a defaulted agricultural production drought assistance loan guaranteed under sub. (4) which exceeds 10% of the unpaid principal amount of the guaranteed loan.

2. “Deficiency” does not include any interest, any origination fees or other charges relating to the guaranteed loan or any expenses incurred by the lender in enforcing any security on the guaranteed loan.

(d) “Farmer” has the meaning given under s. 102.04 (3).

(e) “Guaranteed loan” means an agricultural production drought assistance loan on which the authority guarantees collection.

(f) “Participating lender” means a bank, production credit association, credit union, savings and loan association or other person who makes agricultural production drought assistance loans and who has entered into an agreement with the authority under sub. (7).

(2) ELIGIBLE LOANS. An agricultural production drought assistance loan made by a participating lender is eligible for guarantee of collection by the authority if all of the following apply:

(a) The total of the principal amounts of all guaranteed loans extended to the borrower under this section will not exceed $100,000.

(b) The rate of interest on the agricultural production drought assistance loan, including any origination fees or other charges relating to the agricultural production drought assistance loan, does not exceed 9.5% annually.

(c) The participating lender shall pay directly any supplier of fertilizer, seed, fuel, pesticides, tillage services, crop insurance, animal feed, water or other service or consumable good necessary to produce an agricultural commodity, if the borrower obtains the agricultural production drought assistance loan to pay that supplier.

(d) The participating lender obtains security for repayment of the agricultural production drought assistance loan or follows other procedures required by the authority to secure repayment of the agricultural production drought assistance loan.

(e) The term of the agricultural production drought assistance loan is not longer than 3 years.

(f) The proceeds of the agricultural production drought assistance loan may not be applied to the outstanding balance of any other loan.

(g) The proceeds of the agricultural production drought assistance loan may not be used to refinance a loan made under this section.

(3) ELIGIBLE FARMERS. A farmer is eligible for a guaranteed loan if all of the following apply:

(a) The farmer does not meet the participating lender’s minimum standards of creditworthiness to receive an agricultural production drought assistance loan in the normal course of the participating lender’s business.

(b) The participating lender projects the amount of the farmer’s debts to be approximately 40% or more of the amount of the farmer’s assets.

(c) In the judgment of the participating lender, it is reasonably likely that if the farmer receives a guaranteed loan the farmer’s assets, cash flow and managerial ability are sufficient to preclude voluntary or involuntary liquidation before the end of the loan term.

(d) The authority has not received a certification under s. 46.255 (7) that the farmer is delinquent in making child support or maintenance payments.

(e) The participating lender projects that the farmer will lose approximately 40% or more of the farmer’s crops because of drought conditions.

(b) 1. Except as provided in subd. 2, the total principal amounts of all agricultural production drought assistance loans which the authority may guarantee under par. (a) may not exceed $35,000,000.

2. The authority may request permission from the secretary of administration to increase the total princi-
pal amounts of all agricultural production drought assistance loans it may guarantee under this section. The secretary of administration may authorize the increase if the secretary determines that the agricultural production drought assistance loan fund and the agricultural production loan fund under s. 234.91 contain sufficient funds to guarantee agricultural production drought assistance loans in the requested total principal amount. If the secretary authorizes the increase, the secretary shall notify the joint committee on finance in writing. The authority may proceed with the proposed increase if within 14 working days after notification the committee does not schedule a meeting to review the proposed increase. If the committee schedules a meeting to review the proposed increase, the increase may not take effect unless the committee approves it.

(5) INTEREST REDUCTION. The authority shall pay, from the moneys in the agricultural production drought assistance loan fund, to each participating lender an amount equal to 3.5% of the principal amount of any guaranteed loan to reduce interest payments on the guaranteed loan paid by a farmer.

(6) DEFAULT. (a) A participating lender shall determine when a guaranteed loan is in default, except that any guaranteed loan not repaid in full at or before the end of the loan's term is in default. Upon default, if there is any deficiency remaining after the participating lender has enforced to the fullest extent possible any security on the guaranteed loan and has followed any procedures required by the authority to secure the guaranteed loan, the participating lender may so notify the authority. The authority may not accept notice of enforcement and deficiency after June 1, 1992.

(b) Not more than 60 days after accepting notice of enforcement and deficiency under par. (a), the authority shall pay to a participating lender, from the agricultural production drought assistance loan fund under s. 234.92, the amount of the deficiency.

(c) If the funds in the agricultural production drought assistance loan fund are insufficient to pay a deficiency under par. (b), the authority may pay the deficiency from uncommitted funds in the agricultural production loan fund under s. 234.91.

(7) ADMINISTRATION. (a) The authority shall enter into a guarantee agreement with any bank, production credit association, credit union, savings and loan association or other person who makes agricultural production drought assistance loans and who wishes to have those loans guaranteed under this section. (7m) BALANCE TRANSFER. (a) No later than August 31, 1992, the authority shall transfer to the general fund any balance remaining in the agricultural production drought assistance loan fund on that date after deducting an amount equal to all claims outstanding on the date of transfer.

(b) If under par. (a) the authority deducts an amount sufficient to pay outstanding claims, the authority shall transfer moneys to the general fund from the moneys in the agricultural production drought assistance loan fund.

(8) MORAL OBLIGATION. Recognizing its moral obligation to do so, the legislature expresses its expectation and aspiration that, if ever called upon to do so, it shall make an appropriation to meet all demands for funds under this section.

(9) ANNUAL REPORT. On or before November 1 annually beginning in 1988 and ending in 1992, the authority shall submit to the chief clerk of each house of the legislature for distribution under s. 13.172 (2) a report on the number of agricultural production drought assistance loans made under this section, the default rate on the loans and any other information on the program under this section which the authority determines is significant.
