SUBCHAPTER I

GENERAL PROVISIONS

4.001 Legislative redistricting; equal population. (1) Based on the certified official results of the 1980 census of population of Wisconsin, as received by this state from the U.S. bureau of the census on March 23, 1981, under P.L. 94-171, the state is divided into 33 senate districts each composed of 3 assembly districts. Each senate district shall be entitled to elect one member of the senate. Each assembly district shall be entitled to elect one representative to the assembly.

(2) All senate districts, and all assembly districts, are as equal in the number of inhabitants as practicable within the guidelines further set forth in this section. Because the certified total number of inhabitants of this state on the 1980 census date was 4,705,521, each of the 33 senate districts contains approximately 142,592 inhabitants and each of the

99 assembly districts contains approximately 47,531 inhabitants.

(3) In redistricting the state based on the 1980 census of population, the legislature has assigned the highest priority to achieving the constitutionally mandated goal of precise population equality among the districts, resulting in an assembly deviation range of 1.72 percent (high assembly district plus 0.87 percent, low assembly district minus 0.85 percent) and a senate deviation range of 1.05 percent (high senate district plus 0.38 percent, low senate district minus 0.67 percent). To the very limited extent that precise population equality is unattainable, ss. 4.009 and 4.01 to 4.99 reflect a good faith effort to apportion the legislature giving due consideration to the need for contiguity and compactness of area, the maintenance of the integrity of political subdivisions and of communities of interest, and competitive legislative districts. Island territory (territory belonging to a city, town or village but not

4.001 LEGISLATIVE DISTRICTS

contiguous to the main part thereof) has been treated as a contiguous part of its municipality.

(4) The enactment of the redistricting based on the 1980 census of population reflects the legislature's recognition of its responsibility under the constitution to district anew the senate and assembly after every decennial federal census of population. When the legislature and governor did not fulfill that responsibility in 1982, a federal district court promulgated legislative districts to "be effective for the 1982 legislative elections and thereafter until such time as a valid constitutional redistricting plan is enacted into law". In enacting ss. 4.009 and 4.01 to 4.99, the legislature has worked from the court plan and, consistent with the policy of the state expressed in sub. (3), has improved upon it. The resulting senate and assembly districts closely approximate the goal of precise population equality among districts, appropriately divide political subdivisions, and create the lowest population deviation in the history of legislative redistricting in this state.

(5) In enacting ss. 4.009 and 4.01 to 4.99, the legislature and its members recognize the obligation imposed by their constitutional oath of office to represent the interests of the citizens who elected them and all of the other citizens of the state of Wisconsin. The legislative districts based on the 1980 census of population reflects the legislature's intent to enact a plan of reapportionment that encourages competitive elections, in order to promote a healthy democratic process which accurately reflects the will of the citizens of the state of Wisconsin.

History: 1983 a. 29, 192.

4.002 Municipal wards. (1) DEFINITION. Except as further provided in this section, in this chapter "ward" means the municipal wards created under s. 5.15 based on the results of the 1980 federal census of population and in effect on January 1, 1982.

(2) **MILWAUKEE, CITY OF.** Any reference to a ward of the city of Milwaukee means the wards created by ordinance 142 dated November 17, 1981 (file number 80-1517-D), as affected by the elections commission adjustments of August 1982.

(3) **OSHKOSH, CITY OF.** Ward 42 of the city of Oshkosh includes the annexation from the town of Algoma.

History: 1983 a. 29.

4.003 Description of boundaries. Wherever in this chapter territory is described by geographic boundaries, the following conventions are used:

(1) Each bound continues to the intersection with the bound next named, or to the intersection with a straight-line extension of such bound.

(2) If the bound is a street, it follows the centerline of such street or the centerline of such street extended.

(3) If the bound is a railroad right-of-way, it follows the centerline of such railroad right-of-way.

(4) If the bound is a river or stream, it follows the center of the main channel of such river or stream.

(5) If the bound follows a municipal boundary, it coincides with such boundary.

History: 1983 a. 29.

4.004 Elections to the legislature. On or after July 20, 1983, any special election to the legislature called to fill a vacancy for the balance of an unexpired term, any election to recall a member of the legislature, and any regular election to the legislature, shall be from the districts as described in ss. 4.009 and 4.01 to 4.99.

History: 1983 a. 29.

4.005 Territory omitted from legislative redistricting. (1) In case any town, village or ward in existence on the effective

date of a legislative redistricting act has not been included in any assembly district, such town, village or ward shall be a part of the assembly district by which it is surrounded or, if it falls on the boundary between 2 or more districts, of the adjacent assembly district having the lowest population according to the federal census upon which the redistricting act is based.

(2) The boundaries of legislative districts established by this chapter are not altered by any change in the county boundaries under ch. 2, by the creation of any town, village, city or ward or by any municipal annexation, consolidation or detachment.
