To the Honorable the Legislature:

As required under 1993 Wisconsin Act 15, enclosed are the results of the statewide study related to adding "developmental delay" to Chapter 115 as a non-categorical option for identifying 3-5 year old children with disabilities.

In completing this study and analyzing the data, we worked with staff from the University of Wisconsin - Eau Claire. Dr. David Franks was the principal investigator

of the study and is available should you have further questions. He can be reached at (715) 836-5740.

Staff from the Bureau for Exceptional Children may also be contacted for clarification or additional information. Jenny Lange and Brent Odell are familiar with the study and can be reached at (608) 267-9172 or (608) 266-6981 respectively.

We hope this information proves helpful as you consider proposed legislation for the fall session related to Chapter 115.

Sincerely,
JOHN T. BENSON

To the Honorable the Assembly:

1991 Wisconsin Act 290 appropriated funds to the Department to allocate as grants to hospitals "to test the

practicality and effectiveness of using devices, in a health care setting, that are designed to prevent occupational puncture injuries." The Department was further directed to report the findings of the one-time grant program to the Chief Clerks of each house for distribution to the Legislature.

I am pleased to send you the completed report.

Sincerely,
RICHARD W. LORANG
