State of Wisconsin  
Department of Administration  
Madison

April 28, 1995

To the Honorable, the Legislature:

This report is transmitted as required by sec. 20.002(11)(f) of the Wisconsin Statutes, (for distribution to the appropriate standing committees under sec. 13.172(3) Stats.), and confirms that the Department of Administration has found it necessary to exercise the "temporary reallocation of balances" authority provided by this section in order to meet payment responsibilities and cover resulting negative balances during the month of March, 1995.

On March 2, 1995 the **University Trust Income Fund** balance was -\$1.2 million. The shortfall continued until March 14, 1995 when the balance reached +\$433 thousand. This shortfall was due to a delayed transfer to the fund.

On March 23, 1995 the **Wisconsin Health Education Fund** balance was -\$2 thousand. This shortfall continued through March 31, 1995. The shortfall is due to the timing of revenues to the fund.

The University Trust Income Fund and Wisconsin Health Education Fund shortfalls were not in excess of the \$400 million ceiling and did not exceed the balances of the Funds available for interfund borrowing.

The distribution of interest earnings to investment pool participants is based on the average daily balance in the pool and each fund's share. Therefore, the monthly calculation by State Finance will automatically reflect the use of these temporary reallocations of balance authority.

Sincerely,  
JAMES KLAUSER  
Secretary, DOA

State of Wisconsin  
Legislative Audit Bureau

May 3, 1995

To the Honorable, the Assembly:

We have completed financial audits of the Mendota and Winnebago Mental Health Institutes for fiscal year 1994-95. We were able to provide unqualified opinions on the institutes' financial statements.

State of Wisconsin  
Legislative Audit Bureau  
Madison

May 10, 1995

May 17, 1995

To the Honorable, the Legislature:

We have completed an evaluation of the State's debt collection efforts, as requested by the Joint Legislative Audit Committee. As of June 30, 1994, state agencies reported nearly \$1.8 billion in delinquent debt. Four areas – delinquent income, sales, and employe withholding taxes; delinquent child support obligations and social service programs overpayments; unpaid unemployment compensation taxes and overpaid unemployment compensation benefits; and defaulted student higher education loans and other student debt – make up 98 percent of the State's delinquent debt.

Even though agencies reported \$1.8 billion in delinquent debt, this amount can only be considered an estimate, partly because the Department of Revenue purposely over – estimates some delinquent tax bills in order to encourage prompt response. In addition, information on welfare – related debt that counties provide to the State is inaccurate.

Much of the \$1.8 billion in reported debt cannot be expected to be collected. Collectibility declines as debt ages, and we estimate that 83 percent of the debt is at least one year old. Many debtors are bankrupt or do not have the means to satisfy their obligations, and other debtors cannot be located. Further, not all of the reported amount can be expected to be made available for general appropriation or returned to the respective programs for re–use. For example, a portion of the largest single area of delinquent debt – child support – is required to be returned to custodial parents.

Nevertheless, if even 1 percent of the State's reported delinquent debt were collected, revenues to the State and others would increase by \$18 million, and we found several improvements in current practices that could be made to increase collections. These include more effective use of technology; more aggressive use of existing collection techniques such as state income tax refund intercepts, which can be applied at relatively low cost; increased inter–governmental cooperation; and increased use of private collection firms.

We appreciate the courtesy and cooperation extended to us by the many state agencies that we contacted during the course of this audit. A response from the departments of Revenue; Health and Social Services; and Industry, Labor and Human Relations and from the Higher Educational Aids Board is Appendix II. A response from the University of Wisconsin System is Appendix III.

Sincerely,  
*DALE CATTANACH*  
State Auditor

---

To the Honorable, the Assembly:

We have completed an audit of the Unemployment Reserve Fund, Department of Industry, Labor and Human Relations for fiscal year 1993 and 1994.

Our audit included tests to ensure that the financial statements of the Unemployment Reserve Fund for fiscal years 1993 and 1994 were fairly presented in conformity with generally accepted accounting principles.

The audit report includes no major findings, conclusions, or recommendations and, in our judgement, is not likely to be of interest to most members of the Legislature.

Copies of the audit report have been distributed to members of the Joint Audit Committee and those required by law to receive copies. If you are interested in receiving a copy of this report, please contact our office and request report number 95–12.

Sincerely,  
*DALE CATTANACH*  
State Auditor
