AGENCY REPORTS

State of Wisconsin
Legislative Audit Bureau
Madison

January 11, 1995

To the Honorable, the Legislature:

We have completed a review of the Primary Health Care Services Grants program, which was created in 1990 to establish a base level of state general purpose revenue (GPR) funding for the public health services. The 1995–1997 biennial budget reduces GPR funding for this program from the previous level of \$750,000 for each year of the biennium to \$500,000 in FY 1995–96 and \$250,000 in FY 1996–97. The Department of Health and Social Services plans to distribute the funds in a manner which will result in no funds being available after January 1, 1997. The co-chairs of the Joint Committee on Finance requested that we evaluate the program to determine its effectiveness in increasing access to primary health care services for low-income individuals.

While it is not possible to measure the degree to which the program has increased access, the program appears to have made possible services to a limited number of individuals. It has provided, on average, less than 1 percent of local departments' total expenditures. Typically, local departments have used the funds to support a partial staff position responsible for initial assessments of the health care needs of a limited number of individuals, who may then be referred to another program for services. Few direct medical services are provided. In most cases, program funds have paid for assessments of low-income individuals who do not qualify for other public health programs, often because their incomes are marginally higher than eligibility limits.

Although the Primary Health Care Services Grants program provides only a small portion of local health departments' funding, officials in 15 of the 32 departments with which we spoke told us that if the program were eliminated, local discretionary funds would be used to continue some level of service to these groups; others said that local funds were either

unavailable or committed to other programs considered higher priority. In addition, a number of local health departments officials indicated that because the program provides the only non-categorical state GPR funding they receive, it has value as a representation of partnership between the State and local health departments. Attached is a further discussion of our findings regarding this program.

We appreciate the courtesy and cooperation extended to us by staff of the Department of Health and Social Services and local public health departments.

Respectfully submitted,
DALE CATTANACH
State Auditor

January 12, 1995

To the Honorable, the Legislature:

We have completed a review of the Medical College of Wisconsin, Inc., for the 1993–95 biennium, as required by s. 39.15, Wis. Stats. State funds paid to the Medical College for tuition aid totaled \$8,042,527 for the biennium, during which the College also received \$6,651,300 for the development and operation of its family practice residency program, and \$403,000 in matching funds for the federal Area Health Education Centers project.

Our review included tests to ensure that the Medical College has complied with statutory requirements set forth in ss. 39.15 and 39.155, Wis. Stats. We reviewed the residency and enrollment status of the students claimed for tuition aid to determine whether they were certified Wisconsin residents, had been charged appropriate tuition, and had not been claimed for aid payments for more than four years. We also reviewed whether the Medical College gave first preference in admissions to Wisconsin residents and promoted minority access. We found the Medical College was in compliance with the statutory requirements.

We appreciate the courtesy and cooperation extended to us by Medical College of Wisconsin administrators and the staff of the Higher Educational Aids Board during this review.

Respectfully submitted,
DALE CATTANACH
State Auditor
