2 101.143 (4) (dm) 2. b., 101.143 (4) (dm) 3. b. and 101.143 (4) (e) 2.; and **to create**
3 101.143 (1) (fp) of the statutes; **relating to:** reimbursement of costs incurred
4 because of discharges from heating oil tanks that serve buildings primarily
5 used for religious worship and heating oil tanks that serve nonprofit private
6 schools.

Analysis by the Legislative Reference Bureau

Under current law, the department of industry, labor and human relations (DILHR) administers the petroleum storage environmental cleanup program, commonly called PECFA. Under PECFA, DILHR reimburses persons owning or operating certain petroleum product storage tanks from which discharges occur for a portion of the costs of cleaning up the discharges. Under current law, PECFA generally does not cover the costs of cleaning up discharges from tanks used to store heating oil for use on the premises where stored. PECFA does cover heating oil tanks owned by school districts and technical college districts and provides limited coverage of home and farm heating oil tanks.

Under this bill, PECFA covers the costs of cleaning up discharges from heating oil tanks that serve buildings primarily used for religious worship and from heating oil tanks that serve nonprofit private schools.
