

## 1995 ASSEMBLY BILL 635

October 26, 1995 – Introduced by Representatives VANDER LOOP, OLSEN, GRONEMUS, FREESE, BOYLE, HAHN, LINTON, MUSSER, LORGE, HASENOHRL, OTT, MURAT, KREIBICH, GROTHMAN, RYBA, PLOMBON and GOETSCH, cosponsored by Senators BRESKE, A. LASEE, C. POTTER and MOEN. Referred to Committee on Natural Resources.

1     **AN ACT to amend** 144.235 (3) of the statutes; **relating to:** a contract to assist  
2             small public water supply systems to protect their well recharge areas from  
3             contamination and making an appropriation.

---

*Analysis by the Legislative Reference Bureau*

This bill appropriates funds to the department of natural resources for a contract to assist small public water supply systems to protect their well recharge areas from contamination.

For further information see the *state* fiscal estimate, which will be printed as an appendix to this bill.

---

*The people of the state of Wisconsin, represented in senate and assembly, do enact as follows:*

4             **SECTION 1.** 144.235 (3) of the statutes is amended to read:

5             144.235 (3)    STATE WATER QUALITY PLANNING ASSISTANCE; OTHER LOCAL  
6             GOVERNMENTAL UNITS. The department may provide financial assistance for water  
7             quality planning activities to local governmental units that are not designated local  
8             agencies and to other entities that assist local governmental units.

9             **SECTION 2. Appropriation changes; natural resources.**

10            (1) ASSISTANCE TO SMALL PUBLIC WATER SUPPLY SYSTEMS. In the schedule under  
11            section 20.005 (3) of the statutes for the appropriation to the department of natural

1 resources under section 20.370 (6) (da) of the statutes, as affected by the acts of 1995,  
2 the dollar amount is increased by \$72,000 for fiscal year 1995-96 and the dollar  
3 amount is increased by \$72,000 for fiscal year 1996-97 to provide funding for a  
4 contract to assist small public water supply systems to protect their well recharge  
5 areas from contamination.
