### *Analysis by the Legislative Reference Bureau*

Under current law, the department of industry, labor and human relations (DILHR) is required to promulgate rules that provide minimum requirements to facilitate the use of public buildings and places of employment by physically disabled persons. This bill prohibits DILHR from promulgating a rule requiring the provision of unisex toilet rooms in any building.

This bill is introduced as required by s. 227.26 (2) (f), stats., in support of the action of the joint committee for review of administrative rules in suspending section ILHR 69.18 (4) (b), Wis. adm. code, a rule of DILHR, on August 17, 1995. The suspended rule provided that at least one unisex toilet room must be provided in the following types of new building construction:

1. All shopping malls or shopping centers.
2. Rest area buildings located off of major highways.
3. Schools.
4. Restaurants with a seating capacity of 200 or more people.
5. Large assembly areas such as stadiums and theaters with a seating capacity of 400 or more people.

For further information see the *state* fiscal estimate, which will be printed as an appendix to this bill.
