

F

Indicator 9

The figures reported in the table correspond to official budget/cash basis records of the UW System and State of Wisconsin. "Educational & General" expenditures include the following activities: Instruction, Research, Public Service, Academic Support, Student Services, Institutional Support, Plant Maintenance & Operations, Financial Aid to Students, and Farm Operations. They exclude the following activities: Hospitals, Auxiliary Enterprises, Plant Additions, and Mandatory Transfers.

Indicator 10

National access rates (21%) are based on Fall 1994 immediate high school graduates who enroll in 4-year public higher education in their home state. The Fall 1995 Wisconsin access rate (31.2%) is based on the same population, which includes 4-year public higher education, but also includes UW-Centers, a 2-year institution.

Indicator 12

UW System. Minnesota and Michigan Compact students are included in the "Non-resident" data.

Institutions. No graduation rate is computed for cohort enrollment numbers fewer than 20. Where cohort enrollment is fewer than 20, graduation rates are shown as "NC".

Indicator 17

The figures in the tables are based on the results of a survey of Wisconsin businesses conducted by the independent consulting firm Grant Thornton in conjunction with HBRS, Inc. in late 1994. The telephone survey was completed in October and November, 1994, from a sample of 988 firms of various sizes and type. Sixty-one were removed from the sample because the business was no longer operating, had moved or had no telephone listing. Interviews were completed with 631, or a 68% response rate. The distribution of survey responses by number of employees and nature of the business is very similar to the sample distribution with 48% non-manufacturers and 52% manufacturers.

TO: Joint Committee on Finance

Department of Administration, Division of Finance & Program Management

FROM: Debbie Durcan 

RE: Report Of Non-Federal Gift And Grant Expenditures

1989 Wisconsin Act 50 Section 1.20.907(lm) requires that all state agencies "...submit a report to the Joint Committee on Finance and the Department of Administration on expenditures made by the agency during the preceding fiscal year from non-federal funds received as gifts, grants, bequests or devises..."

In accordance with these statutes, I have attached a schedule of such expenditures and a listing of gifts-in-kind received by the UW System during fiscal year 1995-1996.

If you have any questions or require additional information please call me at (608) 262-0306.

cc: Ray Marnocha

STERLING BOWLS).

REPORT OF NON-FEDERAL GIFT AND GRANT EXPENDITURES

This section was created by 1989 Wisconsin Act 50.

SECTION 1. 20.907(lm) of the statutes is created to read:

20.907(lm) Reporting. State agencies shall, by December 1 annually, submit a report to the joint committee on finance and the department of administration on expenditures made by the agency during the preceding fiscal year from nonfederal funds received as gifts, grants, bequests or devises. The department of administration shall prescribe a form, which the department may modify as appropriate for the various state agencies, that each state agency must use to report its expenditures as required under this subsection. The form shall require the expenditures to be reported in aggregate amounts as determined by the department of administration. The report shall also include a listing of in-kind contributions, including goods and services, received and used by the state agency during the preceding fiscal year.

INSTRUCTIONS

This report must be submitted on an annual basis, no later than December 1, to the Joint Committee on Finance and to the Department of Administration, Division of Finance & Program Management.

Computer reports will be accepted providing the information is formatted as the form prescribes.

A separate form/report must be prepared for each fund.

PROGRAM is a broad category of similar services for an identifiable group or segment for a specific purpose.

PURPOSE is a breakdown of the program into units which identifies more specifically services or segments of the program.

PRIOR FY EXPENDITURES must reflect aggregate expenditures related to the program/purpose as listed in the first column.

IN-KIND CONTRIBUTIONS should be listed as they relate to a specific program/purpose. Values should not be listed for in-kind contributions.

"In-Kind Contributions" includes but is not limited to donations of appliances creations, animals, vehicles, equipment, contrivances, fixtures, furniture, materials, tools, supplies, fuels, utilities, rental fees, real property, buildings, structures, services such as training, supervision, administration, professional or technical support, transportation, or insurance liability coverage.
