1 **AN ACT to amend** 115.38 (1) (a) of the statutes; **relating to:** information included
2 in the annual school and school district performance reports.

Analysis by the Legislative Reference Bureau

Current law requires the state superintendent of public instruction to develop a school and school district performance report. The report must specify the performance of pupils, by school and by school district, on the 3rd grade reading test, statewide examinations administered in the 4th, 8th and 10th grades and the high school graduation examination. Annually, each school board must distribute the report to the parent or guardian of each pupil enrolled in the school district.

This bill requires the report to specify pupils' performance on the statewide examinations by subject area.

For further information see the *state and local* fiscal estimate, which will be printed as an appendix to this bill.
