**Senate Committee on Health, Human Services, Aging  
Corrections, Veterans and Military Affairs**

**Budget Recommendation**

Paper Ballot

**P. 185, Item 23**

**Governor:** Provide \$2,617,600 in program revenue and 1.0 position for costs associated with the three, current private industry/prison employment partnerships. The 1.0 officer position would provide security for a second shift at the Green Bay Correctional Institution partnership with Fabre-Saranac Glove Company.

**Senator Moen:** This provision would increase DOC's expenditure authority associated with the private industry/prison employment program by \$2,617,600 over the next biennium. The department based their budget request on the assumption that \$1,630,000 of the program revenue associated with this item would be provided by Fabry-Saranac Glove Company to support the costs of expanding the prison employment program in the Green Bay Correctional and the remaining \$987,000 would be provided by the other two private industry/prison employment partnerships, one of which does not currently exist. Despite this assumption, under this provision the Department could increase Fabry-Saranac's contribution over the next biennium without legislative approval as long as the Department does not exceed its expenditure authority.

**Motion:** Do not expand DOC's expenditure authority under the private industry/prison employment program unless 1) questions are answered surrounding Fabry-Saranac Glove Company's contract with the state to employ inmates at the Green Bay Correctional Institution and 2) the Department submits a detailed plan regarding the revenue spent on the private business/prison employment program to the Joint Committee on Finance for approval and informs Joint Finance to any changes to that plan during the biennium.

**Aye**

**No**
