

DRAFTER'S NOTE
FROM THE
LEGISLATIVE REFERENCE BUREAU

LRBs0209/P1dn
PJK:jlg:hmh

November 16, 1999

1. Because the requirement in this substitute amendment applies only to state employees, you may wish to have OCI consult with ETF or to require ETF to provide information to and cooperate with OCI. Do you want ETF to provide information to OCI from medical records? If so, s. 40.07 (2) will have to be amended.
2. I used exact dates in the draft so that the coverage requirement would begin at the beginning of a policy term and end at the end of a term. Are these dates okay?
3. Do you want the study to include anything else specifically? Do you want to change the date by which the report must be submitted? Would you prefer that the report be submitted to the appropriate committees instead of to the whole legislature?
