Referred to Joint committee on Finance.

1 AN ACT *to create* 121.91 (4) (h) of the statutes; **relating to:** increasing a school
2 district's revenue limit by the amount spent for school security measures.

Analysis by the Legislative Reference Bureau

Current law generally limits the increase in the total amount of revenue that a school district may receive from general school aids and property taxes in a school year to approximately \$209 per pupil in the 1998–99 school year and, in subsequent school years, to the amount of revenue increase allowed per pupil in the previous school year increased by the percentage change in the consumer price index. Several exceptions are provided. For example, if a school district increases the services that it provides by adding responsibility for providing a service transferred to it from another governmental unit, its revenue limit is increased by the cost of that service.

This bill provides that a school district's revenue limit is increased by an amount equal to the amount spent by the school district for measures designed to prevent criminal activity in schools.
